Strategic Plan advancing as envisaged

2015 results

Relevant events in 2015

Financial results

- Net profit came to €606 million, 8.3% higher than recurring profit in 2014
- EBITDA rose to €1,458 million, 5.3% higher than in 2014
- The dividend proposed to the AGM is €3.21 per share, 7% higher than the previous year
- Net financial debt stood at €4,906 million
- Standard & Poor's raised our rating to 'A-' with a stable outlook, while Fitch reiterated its 'A-', rating with a positive outlook

Investments

Transmission network in Spain

- €4,554 million investments under the *Plan Nacional Infraestructuras 2015-2020* (National Infrastructure Plan)
- EU agreement to foster international interconnection with the goal of full integration of the electricity market
- Investment in transmission network in Spain €411 million
- Commercial start-up of the Spain-France Interconnection, commercial capacity raised to 2,800 MW
- Significant progress with Majorca - Ibiza Interconnection. An operation certificate was obtained for the first cable in the project in June of 2015

Relevant events in 2015

Investments

International transmission network

- Acquisition of 50% of Transmisora Eléctrica del Norte (TEN) for \$218 million
Construction and commercial operation of the Mejillones - Cardones transmission line, which will interconnect the electrical subsystems of central and northern Chile
- Concessions obtained for the 220 kV Azángaro - Juliaca - Puno transmission line and for the Montalvo - Los Héroes 220 kV line, both in Peru

Energy storage

- Red Eléctrica has been subrogated in the Chira - Soria hydroelectric power station project in an amount of €12 million paid to Endesa, related to the costs incurred in the project
- Incorporation of Red Eléctrica Infraestructuras en Canarias, S.A.U. (REINCAN)

Fibre optic

- Incorporation of Red Eléctrica Infraestructuras de Telecomunicaciones, S.A.U. (REINTEL)
- Contribution to consolidated revenue: €83 million
- Progress in the Interconnection Plan for the two fibre optic networks, which will allow them to be marketed as a single network

Relevant events in 2015

Regulatory reform finalised

- New unit values of investment and operation and maintenance of transmission facilities
- Ministerial Order IET/2735/2015 of 17 December establishes the temporary extension of the transmission remuneration for 2015
- The new 2016 tariff will have to be recalculated using the recently published unit values (Ministerial Order IET/2659 of 12 December)
- The finalisation of the regulatory reform guarantees the supply and quality of electrical power as well as the economic and financial sustainability of the electricity system

Operation of the System

- High operational quality: Disponibility of the grid close to 98%
- Operation of the new interconnection with France, which implies a significant challenge to the System Operator, since it is a cable under continuous current
- The auctions for the Interruptibility Service proceeded successfully and resulted in the allocation of 2,890 MW in interruptible resources for 2016

Relevant events in 2015

Corporate Governance

- The EGM approved the separation of the positions of Chairman of the Board of Directors and Chief Executive Officer of the Company
- Board of Directors with majority of independent members: 58%. The Board continues to include the position of Lead Independent Director
- Increase from 4 to 5 the number of members of both of the committees constituted by the Board of Directors (the Appointments and Remuneration Committee and the Audit Committee). Both with a majority of independent board members
- Self-evaluation of the Board with external assessment
- Approval of the Company's first Corporate Governance Policy

Corporate Social Responsibility

- REE is now included in the Dow Jones Sustainability World Index and Dow Jones Sustainability Index Europe and its listing on the FTSE4Good and Euronext-Vigeo indices was renewed
- Fulfilment of the corporate responsibility program was included in the management goals and long-term objectives of the management team
- Approval of the 2015-2020 Climate Change Action Plan. Contribution to a more sustainable energy model and reduction in the company's carbon footprint
- Red Eléctrica's European Excellence Stamp 500+ (based on EFQM model) was renewed, and the Company was awarded over 700 points

Highlights

€ million	2014	2014 Proforma ¹	2015	2014-15
Revenue	1,847	1,847	1,939	5.0%
EBITDA	1,385	1,385	1,458	5.3%
Profit before tax	853	801	829	3.5%
Net profit	718	560	606	8.3%
Capex	956 ²	956 ²	448 ³	

1 Excluding impact of TDE agreement and 2014 tax reform

2 Including the acquisition of rights to use and operate ADIF's optic fibre network (€434 million)

3 Does not include payment of \$218 million for the acquisition of 50% of TEN, made in January 2016 following approval by the European Commission

Recurring profit for the year increased 8.3%
TACC EPS 2013-2015 = 6.9%

Balance sheet

Net financial debt

(*) Net financial debt came to €5,107 million after paying for 50% of TEN in January 2016.

The average remaining term to maturity stands at 5.9 years
 The cost of debt in 2015 was 3.20% vs. 3.49% in 2014
 85% of debt at fixed rates

Balance sheet

Solvency ratios

€ million	2014	2015
EBITDA / Interest ¹	8.1x	8.5x
FFO / Debt ²	18.7%	23.1%
Debt / EBITDA ²	3.9x	3.4x

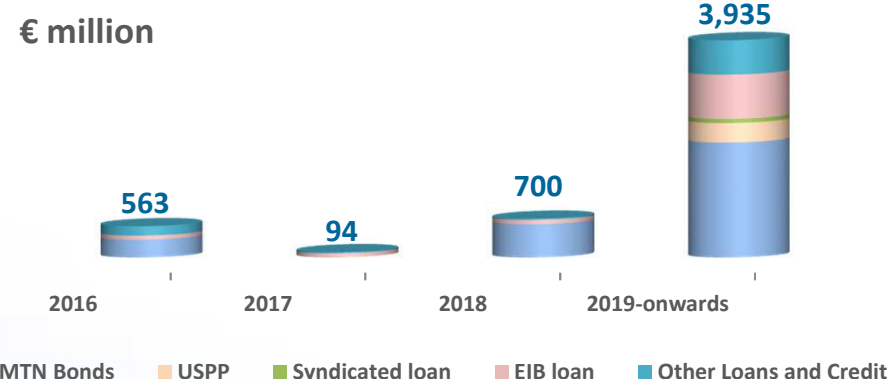

1 EBITDA / net financial expenses excluding capitalisations

2 Include contract of rights to use ADIF's optic fibre network signed on 20/11/2015

Debt structure by instrument

Maturities

€500 million 10-year euromarket bond issue with a coupon of 1.176% and a swap for other bonds corresponding to previous issues for a nominal amount of €446 million at rates of between 4.75% and 2.375%
 Placement of \$70 million in 15-year Peru bonds at 4.968% and \$40 million in 28-year bonds at 5.75%

Regulatory reform finalised

Closing of the methodology for calculating the transmission activity remuneration

Regulatory framework

- Law 24/2013 of the electricity sector of 26/12/2013
- Royal Decree 1047/2013 of December 27th, methodology to calculate transmission remuneration
- Royal Decree 1073/2015 of November 27th, amending matters set out in Royal Decree 1047/2013
- Ministerial Order IET/2659 of December 12th, 2015 approving unit values of investment and operation and maintenance of transmission facilities^(*)
- Ministerial Order IET/2735 of December 17th, 2015 temporary establishes 2015 transmission tariff extension

^(*) New parameters approved will be applied in 2016-2019 period, first regulatory period according to RD 1047/2013

Sound and sustainable regulatory system. The electricity system ended 2014 with a surplus of 550 million euros. 2015 will likely end with a surplus above 2014 figure

Closing of the methodology for calculating the transmission activity remuneration

MO IET/2659: New unit values

- Capture by the regulator of a portion of the margins obtained during the last years related to technological progress and reduction of the costs
- Increase of remuneration of multi-circuit lines
- Application of operation and maintenance unit values to all assets in service and investment values to those constructed post 1998
- Investments in the Canary and Balearic Islands' systems are given specific treatment

The new standards arise a demanding scenario in future

Closing of the methodology for calculating the transmission activity remuneration

Royal Decree 1073/2015: Adaptation of the existing regulation

- Allows for increase in residual life of installations brought into service prior to 1998
- Excludes international interconnection investments from ratio of annual investment limit to GDP
- Pursuant to Law 2/2015, references to an update of standard values in accordance with inflation are eliminated

Includes renovation and improvement concept as investment
Fostering of international investment
Speeding up of investment process

Closing of the methodology for calculating the transmission activity remuneration

New treatment of renovation and improvement

- Recognition of Red Eléctrica's long-standing request to consider renovation and improvement to be a part of its investments
- The useful life of assets prior to 1998 may be extended for up to another 5 years in the second regulatory period
- The possibility is allowed for renovations and improvements carried out from 2019 to be entitled to remuneration from 2021 if they are included in the investment plans

Recognition of renovation and improvement as investment

Confirmation of 2014-2019 targets

Main levers to achieve our Strategic Plan goals

- Progress in investment in consolidated activities
- International investment: Peru and Chile
- Review of maintenance policy
- Additional efforts towards improving efficiency

Investments

Consolidated activities: €3,575 million in 2014-2019

New activities: €1,000 million in 2014-2019

● Efficient TSO management:

- Approval of 2015-2020 Infrastructure Plan
- €3,100 million in total investment in 2014-2019
- This figure does not include new Spain - France interconnections (Bay of Biscay project, and two more projects in the Pyrenees), or the second Spanish Peninsula - Balearic Islands cable, whose time horizons are thought to lie beyond 2019

● Management of fibre-optic networks

- Progress in the efficient integration of fibre optic networks
- €475 million in investment in 2014-2019

● International

- Opportunities in stable markets and adequate returns
- Low-risk countries and stable regulatory environment

● Energy storage

- Chira – Soria expected to be commissioned in after 2019

Optimum mix of consolidated activities and new activities

Investment

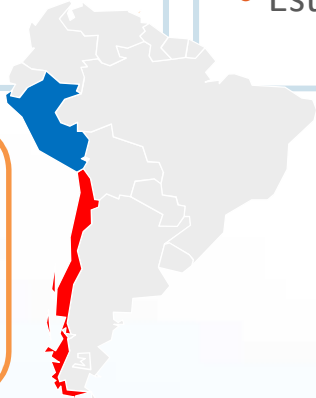

Expanding the business base

● Chile

- 50% stake in TEN
- 600 km of lines
- Put into operation in Q4 2017
- €90 million estimated revenues for 2018
- Financing: Project finance
- Capex project €780 million

● PERU

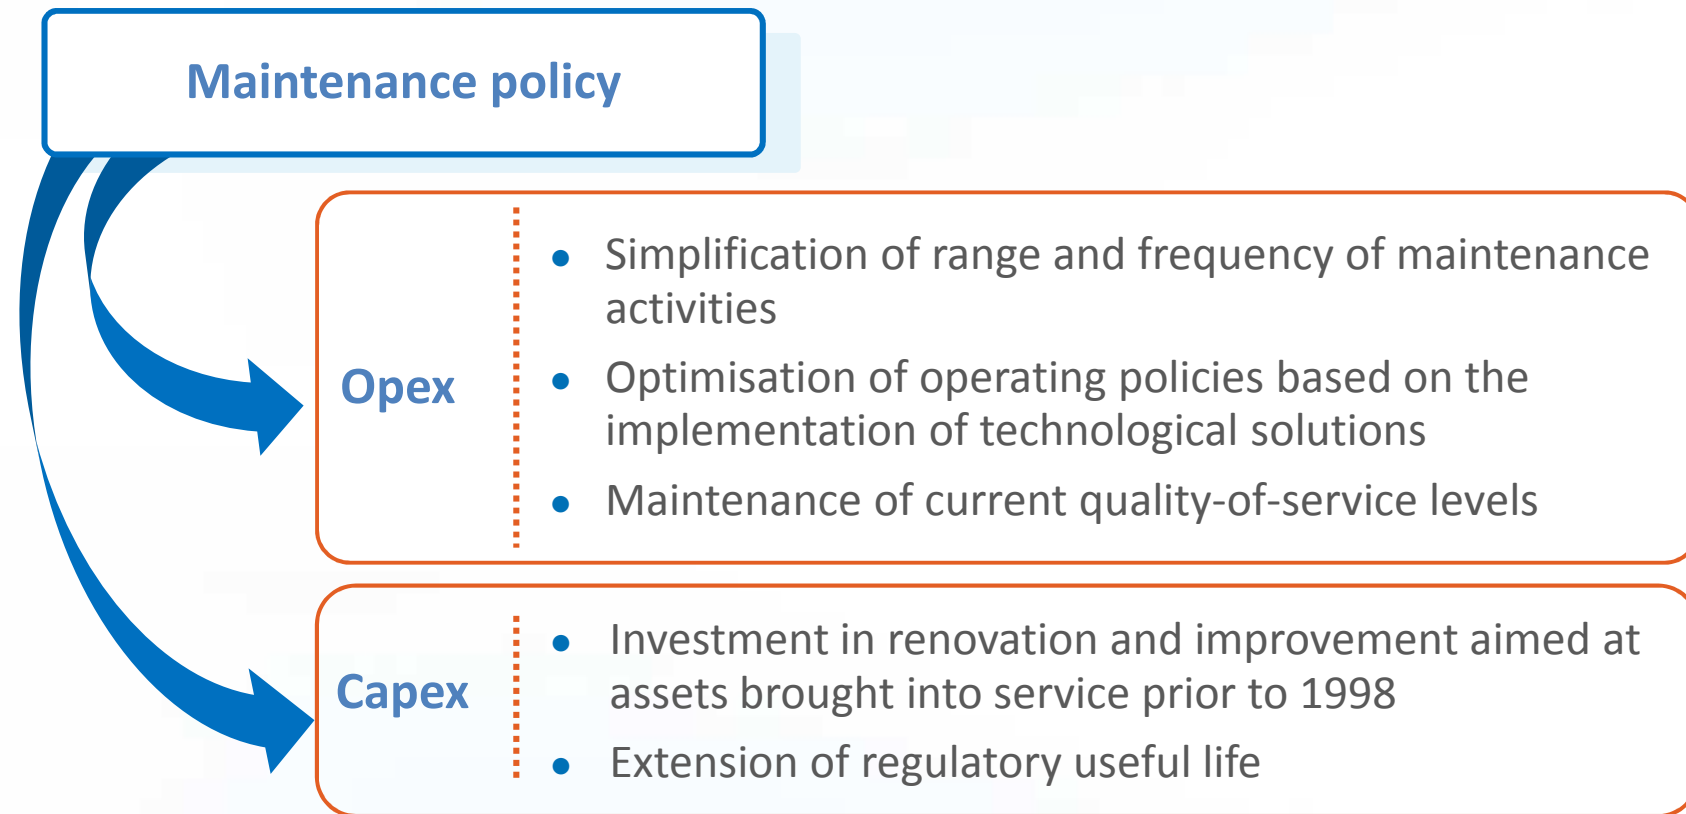

- Projects in which REE holds a majority stake
- 942 km of lines in service
- 240 km in progress
- Put into operation in 2019
- €28 million estimated revenues for 2019
- Estimated pending capex €88 million

New tender in Chile
Construction project 3 new
500kV lines, 180 km and 3
substations
Contract award on 14 March

Internationalisation based on our know-how and profitability criteria

Review of maintenance policies

Efficiency-oriented. Adaptation to new remuneration environment, while maintaining the same levels of safety and quality of service

Additional efforts towards improving efficiency

- ✓ Design of facilities
- ✓ Adaptation to new maintenance standards
- ✓ Reorganization

≥ 200 bp improvement
in EBITDA margin by
2019

- ✓ Adaptation of useful life of facilities to regulatory life
- ✓ Financing
- ✓ Taxes

Additional
increases in EPS
