EUR 5,000,000,000 Euro Medium Term Note Programme

Under the EUR 5,000,000,000 Euro Medium Term Note Programme (the "**Programme**") described in this base prospectus (the "**Base Prospectus**"), Red Eléctrica Financiaciones, Sociedad Anónima Unipersonal (the "**Issuer**") may from time to time issue notes (the "**Notes**") denominated in any currency agreed between the Issuer and the relevant Dealer (as defined below). The payments of all amounts due in respect of the Notes will be unconditionally and irrevocably guaranteed by each of Redeia Corporación, Sociedad Anónima and Red Eléctrica de España, Sociedad Anónima Unipersonal (each a "**Guarantor**" and together the "**Guarantors**").

This Base Prospectus has been approved by the Luxembourg *Commission de Surveillance du Secteur Financier* (the "**CSSF**"), which is the Luxembourg competent authority under Regulation (EU) 2017/1129 (the "**Prospectus Regulation**"), as a base prospectus issued in compliance with Article 8(1) of the Prospectus Regulation for the purpose of giving information with regard to the issue of Notes issued under the Programme described in this Base Prospectus during the period of twelve months after the date hereof. The CSSF assumes no responsibility for the economic and financial soundness of the transactions contemplated by this Base Prospectus or the quality or solvency of the Issuer in accordance with Article 6(4) of the Luxembourg Act dated 6 July 2019 on prospectuses for securities and has only approved the Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such an approval should not be considered as an endorsement of the Issuer nor as an endorsement of the quality of any Notes that are the subject of this Base Prospectus. Investors should make their own assessment as to the suitability of investing in such Notes. This Base Prospectus is valid for a period of twelve months from the date of approval, being 13 June 2024. Applications have been made for Bearer Notes (defined below) to be admitted during the period of twelve months after the date hereof to listing on the official list and to trading on the Regulated Market of the Luxembourg Stock Exchange. The Regulated Market of the Luxembourg Stock Exchange is a regulated market for the purposes of Directive 2014/65/EU (as amended, "**MiFID II**"). The Programme also permits Bearer Notes (as defined below) to be issued on the basis that they will be admitted to listing and trading on another Regulated Market for the purposes of MiFID II, in each case, as may be agreed between the Issuer and the relevant Dealer(s). References in the Base Prospectus to the Notes being "listed" (and all related references) shall mean that such Notes have been admitted to listing on the Regulated Market of the Luxembourg Stock Exchange, on the Spanish Regulated Fixed Income Securities Market ("**AIAF**") or another Regulated Market for the purposes of MiFID II, as applicable. Such approval for admission to trading relates only to the issue of Notes under the Programme during the period of twelve months after the date hereof, which are to be admitted to trading on a Regulated Market for the purposes of MiFID II and/or which are to be offered to the public in any Member State of the European Economic Area (the "**EEA**"). The Programme also permits Book-entry Notes (as defined below) to be issued on the basis that they will be admitted to trading on the AIAF. The CSSF has neither reviewed, nor approved any information in relation to such Book-entry Notes.

Any notes under this Programme may be issued in uncertificated, dematerialised book-entry form (*anotaciones en cuenta*) ("**Book-entry Notes**"), or in bearer form ("**Bearer Notes**"), and together with the Book-entry Notes, the "**Notes**".

Each Series (as defined below) of Bearer Notes will be represented on issue by a temporary global note in bearer form (each a "**Temporary Global Note**") or a permanent global note in bearer form (each a "**Permanent Global Note**" and together with the Temporary Global Notes, the "**Global Notes**"). If the Global Notes are stated in the applicable Final Terms to be issued in new global note ("**NGN**") form, the Global Notes will be delivered on or prior to the original issue date of the relevant Series to a common safekeeper (the "**Common Safekeeper**") for Euroclear Bank SA/NV ("**Euroclear**") and Clearstream Banking, S.A. ("**Clearstream, Luxembourg**"). Global notes which are not issued in NGN form ("**Classic Global Notes**" or "**CGNs**") will be deposited on the issue date of the relevant Series with a common depositary on behalf of Euroclear and Clearstream, Luxembourg (the "**Common Depositary**"). The provisions governing the exchange of interests in Global Notes for other Global Notes and definitive Notes are described in "*Summary of Provisions Relating to the Bearer Notes while in Global Form*".

Each Series (as defined below) of Book-entry Notes will be registered with the Spanish *Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A., Unipersonal* ("**Iberclear**") as managing entity of the central registry of the Spanish clearance

and settlement system (the "**Spanish Central Registry**"). Consequently, no global certificates will be issued in respect of such Book-entry Notes. Clearing and settlement relating to the Book-entry Notes, as well as payment of interest and redemption of principal amounts, will be performed within Iberclear's account-based system.

("**Fitch**") and S&P Global Ratings Europe Limited ("**S&P**") has rated the Programme A- (long-term) and F1 (short-term), and A- (long-term) and A-2 (short-term), respectively. The Notes of each Series will all be subject to identical terms, except that the issue date and the amount of the first payment of interest may be different in respect of different Tranches. The Notes of each Tranche will all be subject to identical terms in all respects save that a Tranche may comprise Notes of different denominations.

Forms of Notes:

Bearer Notes and Book-entry Notes

Registration, clearing, settlement, title and transfer:

Each Tranche of Bearer Notes will initially be in the form of either a Temporary Global Note or a Permanent Global Note, in each case as specified in the relevant Final Terms. Each Global Note which is not intended to be issued in new global note form (a "**Classic Global Note**" or "**CGN**"), as specified in the relevant Final Terms, will be deposited on or around the relevant issue date with a depository or a common depository for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and each Global Note which is intended to be issued in new global note form (a "**New Global Note**" or "**NGN**"), as specified in the relevant Final Terms, will be deposited on or around the relevant issue date with a common safekeeper for Euroclear and/or Clearstream, Luxembourg. Each Temporary Global Note will be exchangeable for a Permanent Global Note or, if so specified in the relevant Final Terms, for Definitive Notes. If the TEFRA D Rules are specified in the relevant Final Terms as applicable, certification as to non-U.S. beneficial ownership will be a condition precedent to any exchange of an interest in a Temporary Global Note or receipt of any payment of interest in respect of a Temporary Global Note. Each Permanent Global Note will be exchangeable for Definitive Notes in accordance with its terms. Definitive Notes will, if interest-bearing, have Coupons attached and, if appropriate, a Talon for further Coupons.

The Book-entry Notes will be registered with Iberclear, which is the Spanish Central Securities Depository, with its registered address at Plaza de la Lealtad, 1, 28014, Madrid, Spain. Holders of a beneficial interest in the Book-entry Notes who do not have, directly or indirectly through their custodians, a participating account with Iberclear may participate in the Book-entry Notes through bridge accounts maintained by each of Euroclear and Clearstream, Luxembourg with Iberclear.

Title to the Book-entry Notes will be evidenced by book-entries and each person shown in the Spanish Central Registry managed by

Iberclear and in the registries maintained by the respective participating entities (*entidades participantes*) in Iberclear (the "**Iberclear Members**") as being the holder of the Book-entry Notes shall be considered the holder of the principal amount of the Book-entry Notes recorded therein. The "**Holder**" of a Book-entry Note means the person in whose name such Note is for the time being registered in the Spanish Central Registry managed by Iberclear or, as the case may be, the relevant Iberclear Member accounting book and "**Noteholder**" shall be construed accordingly and when appropriate, means owners of a beneficial interest in the Book-entry Notes.

The Book-entry Notes will be issued without any restrictions on their free transferability. Consequently, the Book-entry Notes may be transferred and title to the Book-entry Notes may pass (subject to Spanish law and to compliance with all applicable rules, restrictions and requirements of Iberclear or, as the case may be, the relevant Iberclear Member) upon registration in the relevant registry of each Iberclear Member and / or Iberclear itself, as applicable. RISK FACTORS

Any investment in the Notes is subject to a number of risks. Prior to investing in the Notes, prospective investors should carefully consider risk factors associated with any investment in the Notes, the business of the Issuer and the Guarantors and the industry in which each of them operates together with all other information contained in the Base Prospectus, including, in particular the risk factors described below. Words and expressions defined in the "Terms and Conditions of the Notes" below or elsewhere in this Base Prospectus have the same meanings in this section.

The following is a list or explanation of the risks that may affect the ability of the Issuer to fulfil its obligations or which investors may face when making an investment in the Notes that Issuer and the Guarantors believe to be the most relevant to an assessment by a prospective investor of whether to consider an investment in the Notes as of the date of the Base Prospectus. The risks described below are the detailed risks the Issuer and the Guarantors actually consider specific to the Group, organized considering their probability and materiality or negative impact, in the event that any of those risks occur. If any of the following risks actually materialize, the Group's business, financial condition, results of operations and business prospects could be materially adversely affected. You should carefully consider the following risk factors and the other information contained in the Base Prospectus before making an investment decision. Additional risks and uncertainties relating to the Issuer and the Guarantors that are not currently known to the Issuer or the Guarantors, or that such entity currently deems immaterial, which have not been included herein below in accordance with the Prospectus Regulation, may individually or cumulatively also have a material adverse effect on the business, prospects, results of operations and/or financial position of the Issuer and the Guarantors and, if any such risk should occur, the price of the Notes may decline and investors could lose all or part of their investment.

Investors, before investing in the Notes, should consult with its own legal, regulatory, tax, financial and accounting advisors to the extent it considers necessary in order to determine and consider carefully whether an investment in the Notes is a fit, proper and suitable investment for them in light of the information in the Base Prospectus and their personal circumstances.

Risks related to the Issuer

The Issuer is a finance vehicle

The Issuer is not an operating company. The Issuer is a finance vehicle established by Redeia Corporación, S.A. for the purpose of issuing notes and other financial instruments and on-lending the proceeds to the members of the Group. The Issuer is therefore dependent upon other members of the Group paying interest on and repaying their loans in a timely fashion. Should any member of the Group fail to pay interest on or repay any loan in a timely fashion this circumstance could have a material adverse effect on the ability of the Issuer to fulfil its obligations under the Notes issued under the Programme.

Risks related to the Group

A) Legal and regulatory risks

The activities of the Group are subject to extensive regulation in the jurisdictions in which the Group companies operate, and certain regulatory and tax changes could have a material adverse effect on its business, financial condition and results of operation

The main activity of Redeia Corporación, S.A., parent company of the Issuer, and its subsidiaries (the "**Group**" or "**Redeia**") is the transmission of electricity and the operation of the electricity network in Spain. This activity is carried out by Red Eléctrica de España, Sociedad Anónima Unipersonal ("**Red Eléctrica**") as an electricity transmission system operator ("**TSO**"). This activity and the remuneration received by it for the services it provides are subject to numerous EU and Spanish laws and regulations including, amongst others, Law 24/2013, of 26 December, of the Electricity Sector (hereinafter, "**Law 24/2013**"). As of 31 December 2023, the provision of electricity transmission services and the operation of the Spanish national electricity grid accounted for 79 per cent. (79 per cent. as of 31 December 2022) of the Group's consolidated revenues and the assets related to the provision of these services represented on that date 73 per cent. (72 per cent. as of 31 December 2022) of the Group's consolidated total assets.

Any material changes to this extensive regulatory framework and to the remuneration system, and specifically to the financial remuneration rate, may adversely affect Red Eléctrica and the Group's business, financial position and results.

Additionally, any non-compliance by Red Eléctrica with the applicable laws and regulations currently in force in relation to its activities could lead to sanctions or penalties of monetary or other nature being imposed by the regulator and to facing potential liability to third parties due to any damage or loss caused. Should Red Eléctrica face any sanctions, penalties or claims, the Group's cash flow, business, financial condition and results of operation could be materially adversely affected.

Since 2022, as a result of the Russian invasion of Ukraine, energy prices in Europe and, to a lesser extent, in other geographies, experienced a significant increase. European Member States applied different measures to tackle the impact of this increase for domestic consumers. The Spanish government has been particularly active in this respect and enacted several new rules to mitigate the impact generated by the Russian invasion of Ukraine in the energy sector. Any further legal or regulatory measures to limit the price of energy or affecting the regulatory framework or the remuneration system may have an impact on Redeia's business prospects, financial condition and results of operations. Additionally, energy prices decreasing may also trigger new legal or regulatory measures and have a negative impact on Redeia's business prospects, financial condition and results of operations.

Lastly, the Group's presence in various jurisdictions increases its exposure to regulatory and interpretative changes in tax laws and regulations, which could, among other things, lead to (i) an increase in the types of tax to which the Group is subject, including in response to the demands of various political forces such as the regulation of a minimum effective tax rate introduced in the Spanish Corporate Income Tax Law and the Non-Residents Income Tax Law by Law 22/2021, of 28 December, on the General State Budget for 2022, with effects as of 1 January, 2022 (i.e. the minimum net tax liability is, generally, 15 per cent. of the tax base), (ii) changes in the calculation of tax bases, and exemptions therefrom, such as provided in the Spanish Corporate Income Tax Law (as defined herein) to limit the exemption for dividends and capital gains from domestic and foreign subsidiaries to 95 per cent., which would mean that 5 per cent. of the dividends and capital gains of Group companies in Spain will be subject to, and not exempt from corporate tax or the limitation established on the use of losses in tax groups for corporate income tax purposes in fiscal year 2023 that might be extended for fiscal year 2024- (so that, when aggregating the tax bases of the entities in the group, only 50% of the losses will be used; and the losses that have not been used may be offset over the next ten years for this purpose) or (iii) the creation of new taxes, like the common financial transaction tax ("FTT") in the proposed Tax Directive of the European Commission for the Financial Transactions Tax (which would tax the acquisitions of certain securities negotiated in markets where the Group operates), may have adverse effects on the business, financial condition and results of operations of the Group.

B) Risks related to the Group's business activities and industry

Risks associated with the Group's operation, management and construction of transmission grid and telecommunications facilities

In its role as global operator of strategic infrastructure, Redeia operates, manages and builds multiple electricity transmission and network technical facilities.

One of the effects of the Russian invasion of Ukraine is the consequential slowdown of some of the activities of the Group's global activities. The region in conflict is very important in terms of commodities, especially those related to energy, the development of high-value technological products and industrial processes and the agri-food chain. Moreover, the conflict is occurring at a time when, in general terms, there are low global inventories of these products and the imposed decarbonisation agenda is forcing a gradual shift to a new energy matrix and production processes. The confluence of the above factors, if prolonged over time, increases the likelihood of a supply shock that may have a negative impact on inflation forecasts, which in turn may have adverse effects on the business, financial condition and results of operations of the Group.

The operation and management of technical electricity and telecommunications facilities is costly and the Group may not be able to continue to conduct this activity on cost – effective economic terms in the future. Furthermore, this activity is exposed, given the perils inherent to high voltage facilities, to events beyond the Group's control including, but not limited to, natural disasters and extreme weather conditions, accidents and defects or failures in machinery or control systems or components of them that may damage the Group's facilities and cause interruptions in the provision of electricity transmission and telecommunication services and, in turn, require high repair or alternative transmission channel costs. As well, the materialisation of environmental and operational risks inherent to the Group's activities may result in the filing of claims by public authorities or third parties as a result of environmental or other damage. In the event that the Group is unable to respond to any adverse events damaging its facilities or interrupting its activities, or that it is unable to continue to operate and manage facilities

at acceptable cost levels, the Group's business prospects, financial condition and results of operations may be materially adversely affected.

The Group companies have taken out various insurance policies to cover the risks to which the companies are exposed through their activities, mainly damages that could be caused to the Group companies' facilities and possible claims that might be lodged by third parties due to the companies' activities. Nonetheless, the amounts for which the Group companies are insured may not be sufficient to cover any incurred losses in their entirety, or the formalised insurance policies may not provide coverage for certain damaging events.

Additionally, regarding Red Eléctrica, its ability to increase revenues derived from its business as electricity system operator, transmission agent and transmission network manager depends, due to the capital-intensive nature of this activity, on investments being made in new transmission infrastructure. In this respect, Red Eléctrica has been entrusted with the development and expansion of the high-voltage transmission network in Spain in order to guarantee the maintenance and improvement of the national electricity grid. As of 31 December 2023, investments for development of the Spanish transmission network amounted to EUR 744.6 million, compared with EUR 448.8 million in 2022, and were directed at addressing supply security and stability, resolve technical restrictions, execute specific projects for international and inter-island submarine interconnections, supply the high-speed rail system and provide access for the evacuation of wind power. A variety of factors may affect the Group's capacity to build new facilities including, but not limited to, delays in obtaining regulatory approvals or environmental permits; shortages or changes in the price of equipment, supplies or labour; opposition from local groups, political groups or other stakeholders; adverse meteorological conditions, natural disasters, accidents or other unforeseen incidents which could delay completion of facilities.

Therefore, any changes in the approved planning for the construction of new facilities, delays or standstills in projects under development caused by impediments in the obtaining of environmental and/or administrative authorisations, licenses and similar permits, opposition from political groups or other organisations, or changes in the political climate or in the regulatory framework, or any increased costs in the construction of new facilities due to variations in the financial or goods and services markets could materially adversely affect the Group's reputation, business prospects, financial condition and results of operations.

The Group's business and finances are influenced by macroeconomic and political conditions, especially those affecting the Spanish economy as the operations of the Group are heavily concentrated in Spain

The Group's business performance is influenced by the macroeconomic and political and economic conditions of the countries in which it operates, particularly Spain, where the Group concentrates most of its operations. Any adverse changes affecting the Spanish economy or the economy of the other countries in which the Group operates could have a negative impact on its revenues and/or increase its financing costs, circumstances that could have a material adverse effect on the Group's business prospects, financial condition and results of operations.

The aftermath of the COVID-19 pandemic brought a rise in the price of commodities, particularly energy, and the emergence of disruptions in global supply chains which caused a significant upturn of inflationary pressures in many developed countries, including Spain and other markets where Redeia operates. This situation was exacerbated by the Russian invasion of Ukraine in February 2022 and the subsequent armed conflict, which further increased commodity prices, adding to supply disruptions, increasing inflation and contributing to tighter financial conditions and market volatility. As a result of the invasion of Ukraine, the European Union (the "EU"), EU member states, Canada, Japan, the United Kingdom and the United States, among others, have developed and continue to develop coordinated sanctions on Russia and Belarus and export-control measure packages. The uncertain nature, magnitude and duration of Russia's invasion of Ukraine and potential effects of it and of actions taken by Western and other states and multinational organisations in response thereto (including, amongst other things, sanctions, export-control measures, travel bans and asset seizures) as well as of any Russian retaliatory actions (including, amongst other things, restrictions on oil and gas exports and cyber-attacks), on the world economy and markets contributed to increased market volatility and uncertainty. Whilst Redeia has no direct exposure to Russian gas nor Russian counterparties, the geopolitical and trade tensions caused by the invasion in Ukraine or other international conflicts may adversely impact the economic environment in which Redeia operates, result in volatile capital markets or otherwise adversely affect financing conditions, any of which could have a material adverse effect on the business prospects, financial condition and results of operations of Redeia.

In the context of the inflationary pressures experienced by the global economy, central banks of many developed and emerging economies, including the euro area, strengthened monetary conditions. Whilst inflationary pressures seem to be receding, any persistence or aggravation of these tensions may result in tightened economic conditions in Spain and other countries in which Redeia operates, increased financial costs, depreciation of financial assets,

financial stress among sovereigns and financial institutions and liquidity restrains, circumstances which could have a material adverse effect on the business prospects, financial condition and results of operations of Redeia.

As of 31 March 2024, the International Monetary Fund (“**IMF**”) estimates that the Spanish gross domestic product (“**GDP**”) increased by 2.5% in 2023, and forecasts a 2.4% increase for 2024 and a 2.1% increase for 2025 (source: Spain: 2024 Article IV Consultation (IMF Country Report No. 24/152) - Banco de España (bde.es). The IMF estimates an increase of 0.4% of the Eurozone’s real GDP for 2023 and forecast a 0.8% increase for 2024 and a 1.5% increase for 2025 (source: IMF World Economic Outlook update April 2024).

The Group relies on information technology for its operation and systems failures or third-party hacks may adversely affect our business prospects, financial condition and results of operation

As an electricity system operator and transmission network manager, one of the Red Eléctrica's main functions is to guarantee the continuity and security of the electricity supply.

Disruptions to or failures of Red Eléctrica's computer and information technology systems could cause an interruption to the Group's business, which could have a material adverse effect on its business prospects, financial condition and results of operations. In particular, Red Eléctrica's information technology systems may be vulnerable to a variety of interruptions as a result of events beyond its control, including, but not limited to, network or hardware failures, malicious or disruptive software, viruses, malware, ransomware or other malicious codes, unintentional or malicious actions of employees or contractors, cyberattacks by hackers, criminal groups or nation-state organizations or social-activist (hacktivist) organizations, geopolitical events, natural disasters, failures or impairments of telecommunications networks, or other catastrophic events, including natural disasters or extreme meteorological phenomena. Cyber threats are constantly evolving and this increases the difficulty of detecting and successfully defending against them. These events could compromise Red Eléctrica 's confidential information, impede or interrupt its business operations, and may result in other negative consequences, including remediation costs, loss of sales, litigation and reputational damage. While Red Eléctrica has implemented administrative and technical controls and taken other preventive actions to reduce the risk of cyber incidents and protect its information technology, they may be insufficient to prevent physical and electronic break-ins, cyberattacks or other security breaches to its computer systems. In the event that Redeia or any of the Group companies suffers a breach in its cyber security or other failure of its information technology systems, it could have a material adverse effect on the Group's business prospects, financial condition and results of operations.

Risks associated with international and telecommunication investments and divestments

As part of its strategy, the Group may undertake both investments entailing the acquisition and/or integration of businesses in order to foster its growth strategy through inorganic growth, and/or divestments in order to realise gains derived from the growth and higher valuation of certain assets or businesses acquired by the Group or as a consequence of changes in the Group’s general strategy.

In recent years, the Group has made investments and divestments in electric infrastructures in several countries and in the telecommunications sector. See "*Description of Redeia Corporación, Sociedad Anónima and its consolidated Group - Investments*".

These investments and divestments inherently involve a number of risks such as those related to the existence of unforeseen contingences and the adequacy of guarantees or indemnities to cover such contingencies, claims in connection with the investments or divestments (from employees, customers or third parties), the lack of materialization of expected benefits from such investments (including the realisation of potential synergies and sales growth anticipated either in the expect amount or timeframe or costs), and lower market valuations of businesses to be divested. In addition, there are associated risks related to local laws on where the investments or divestments are located such as local law factors and risks related to exchange rate fluctuations, capital movement restrictions, inflation, political and economic instability and possible state expropriation of assets in addition to risks related to the integration of businesses within the Group. Furthermore, the necessity of a local management team, and the integration or retention of local personnel or the Group’s capacity to fill the void as a result of any divestments may cause disruption to its business and operations.

If any of these risks materialise, they could materially adversely affect the Group's reputation, business prospects, financial condition and results of operations.

Risks associated to joint ventures and operations

Joint ventures or operations refer to those arrangements in which there is a contractual agreement to share the control over an economic activity, in such a way that decisions about the relevant activities require the unanimous consent of the Group and the remaining venturers or operators. Whilst joint operations involve the existence of rights to assets, including revenue, and obligations for liabilities, including expenses, relating to the arrangement, joint ventures involve a contractual agreement with a third party to share control over an activity and the strategic financial and operating decisions relating to the activity require the unanimous consent of all the venturers that share control.

Redeia's joint arrangements as of 31 December 2023 include the 50 per cent. interest in Transmisora Eléctrica del Norte, S.A. ("**TEN**") held through Red Eléctrica Chile SpA. as a Joint Venture, focused on operating a transmission line spanning approximately 580 km that connects the Far North Interconnection System to the Central Interconnected System in Chile; the 50 per cent. interest in INELFE held through Red Eléctrica as a joint arrangement together with Réseau de Transport d'Électricité (RTE), the French transmission system operator focused on is the study and execution of interconnections between Spain and France that will increase the electricity exchange capacity between the two countries; the 50 per cent. interest in the Brazilian company Argo Energia Empreendimentos y Participaciones S.A. ("**Argo**"), through Red Eléctrica Brasil Holding Ltda., as a joint arrangement together with Grupo Energía Bogotá S.A E.S.P. Accordingly, the Group has classified this joint arrangement as a joint venture, as the parties to it have rights to the net assets of such joint venture.

Due to the nature of joint arrangements, whether joint ventures or joint operations, the Group's success in them depends primarily on its ability to maintain good relationships and to reach consensus on short, medium and long-term strategic decisions with its partners, whose interests may differ from those of the Group. In the event that the Group is unable to maintain good relationships and adopt positive strategic decisions, the Group may lose its investment in its joint arrangements and its business prospects, financial condition, and results of operations may be materially adversely affected.

C) Risks related to Redeia's financial situation

Interest rate risk

The nature of the Group's business is inherently capital intensive and requires financing to operate and expand. The Group's financial debt structure comprises certain debt instruments that accrue interest at both fixed and variable interest rates, the latter being linked to variable reference interest rates, such as EURIBOR. Interest rates and indices which are deemed to be "benchmarks" are the subject of ongoing national and international regulatory reform. The implementation of the anticipated reforms may result in changes to a benchmark's administration, causing it to perform differently than in the past, or to be eliminated entirely, or resulting in other consequences which cannot be predicted as at the date hereof.

The financial debt structure of the Group is low risk with moderate exposure to fluctuation in interest rates, as a result of the debt policy implemented, which aims to bring the cost of debt into line with the financial rate of return applied to the Group's regulated assets, among other objectives. As of 31 December 2023, the Group's total bank borrowing and notes and other marketable securities amounted to EUR 5,671 million, of which 89 per cent., EUR 5,028 million, accrued interest at fixed rates. Similarly, as of 31 December 2022, the Group's total gross financial debt (bank borrowing and notes and other marketable securities) amounted to EUR 6,144 million, of which 89 per cent., EUR 5,459 million, accrued interest at fixed rates.

Nevertheless, any increases in the underlying reference interest rates on which the Group's financing agreements accruing interest at variable rates may impact the Group's financial expenses by requiring the dedication of significant cash flow to service repayment, thus reducing the availability of cash flow to fund its business operations and increase its vulnerability to adverse economic and industry conditions. The referred interest rate risk increase could affect not only Redeia's debt which is subject to variable interest rates, but also any future refinancing of its debt obligations. Additionally, the Group anticipates that any new financing agreements which it undertakes could imply higher financial costs than in the agreements signed in recent years due to increases in margins paid over market interest rates. If Redeia Corporación or any of the Group companies are unable to formalise any new financing agreements under reasonable financial terms, there can be no assurance that such increased financing costs will not have a material adverse effect in the Group's business, operations, cash flows and overall financial condition. Finally, inadequate management of interest rate risk due to the lack of adequate hedging through financial instruments could have an adverse effect on Redeia Corporación or any of the Group companies.

Liquidity risk

Liquidity risk arises as a result of differences in the amounts or the collection and payment dates of the various assets and liabilities of the companies of the Group. The Group's liquidity position is based on its strong capacity to generate funds, backed by the existence of credit lines that allow it to keep a significant volume of funds available during the year. Further, on 3 January 2024 Redeia has issued a green bond for an amount of EUR500 million. As of 31 December 2023, the credit lines available amounted to EUR1,676 million and available cash and cash equivalents amounted to EUR 675 million, compared with credit lines amounting to EUR1,795 million and cash (cash and cash equivalents) amounting to EUR 1,510 million as of 31 December 2022. Further, as of 31 December 2023, the Group's financial debt had an average maturity of 4.5 years (5 years as of 31 December 2022).

While the Group attempts to have sufficient liquidity available to meet its payment obligations by maintaining adequate liquidity levels over specific time periods without resorting to additional financing sources and diversifying its funding sources and optimising the maturity of its debt, the reduction of the remuneration calculation system currently in force or any other event that prevents or disrupts the generation of cash flow may materially adversely affect the Group's results of operations and financial condition as it is likely that the Group would be obliged to incur in extra financial costs or, in the worst-case scenario, threaten the Group's continuity as a going concern and lead to insolvency.

Currency risk

Because the Group's consolidated annual accounts are expressed in Euro but the financial statements of several subsidiaries are expressed in other currencies, negative fluctuations in exchange rates could negatively affect the value of consolidated foreign subsidiaries' assets, income and equity, with a concomitant adverse effect on the Group's consolidated annual accounts (*i.e.*, translation risk). For instance, due to the translation effect, an appreciation of the Euro against the Group's other significant currencies would adversely affect the Group's results.

Furthermore, currency risk considers transaction risk arising on cash inflows and outflows in currencies other than the Euro.

To reduce the currency risk on issues in the US private placements market, the Group has arranged cash flow hedges through US Dollar/Euro cross-currency swaps on the principal and interest, which cover the amount and total term of the issue up to October 2035.

In order to mitigate transaction risk, in 2023 and 2022 the Group companies arranged forward cash flow hedges in the form of cross currency swaps and currency forwards to hedge highly probable cash flows of certain revenue in US Dollars and certain payment commitments in Brazilian Reals. Consequently, had the Euro strengthened or weakened by 10 per cent. against the hedged currencies at year end, the market values of those derivatives would have changed, and equity would have decreased or increased by EUR15.426/EUR-18.854 million on 31 December 2023 (EUR20.366/EUR-24.817 million at 31 December 2022). In order to mitigate translation risk on assets located in countries whose functional currency is not the Euro, the Group finances a portion of such investments in the functional currency. The Group has also arranged hedges of net investments in US Dollars through cross-currency swaps that are in place until January 2026. Consequently, had the Euro strengthened or weakened by 10 per cent. against the currencies to which the Group is exposed at year end, the Parent's equity would have decreased or increased by approximately EUR86 million at 31 December 2023 (EUR57 million at 31 December 2022).

Risks Relating to the Notes

D) Risks relating to the markets the Notes will trade in and the nature of the Notes

There is a limited active trading market for the Notes

Notes issued under the Programme will be new securities which may not be widely distributed and for which there is currently a limited trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and form a single series with a Tranche of Notes which is already issued). Accordingly, future liquidity of the Notes may be limited. If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the Issuer and the Guarantors. Although applications have been made for the Notes issued under the Programme to be admitted to listing on the Luxembourg Stock Exchange and they may be made for such Notes to be admitted to listing on AIAF, Mercado de Renta Fija, there is no assurance that such applications will be accepted, that any particular Tranche of Notes will be so admitted or that

an active trading market will develop. Accordingly, there is no assurance as to the development or liquidity of any trading market for any particular Tranche of Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

The Notes may be redeemed prior to maturity

Unless in the case of any particular Tranche of Notes the relevant Final Terms or Drawdown Prospectus specify otherwise, in the event that the Issuer or the Guarantors would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the Kingdom of Spain or any political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may redeem all outstanding Notes in accordance with the Conditions.

In addition, if in the case of any particular Tranche of Notes the relevant Final Terms or Drawdown Prospectus specify that the Notes are redeemable at the Issuer's option in certain other circumstances the Issuer may choose to redeem the Notes at times when prevailing interest rates may be relatively low. In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Notes.

Risks relating to the Insolvency Law

The restated text of the Insolvency Law approved by Royal Legislative Decree 1/2020, of 5 May (*Texto refundido de la Ley Concursal*) ("**Insolvency Law**"), regulates pre-insolvency and court insolvency proceedings, as opposed to out-of-court liquidation, which is only available when the debtor has sufficient assets to meet its liabilities.

The Insolvency Law provides, among other things, that (i) provisions in a contract granting one party the right to suspend, modify or terminate by reason only of the other's insolvency or pre-insolvency declaration, or opening of the liquidation phase will not be enforceable, and (ii) accrual of unsecured interest shall be suspended from the date of the declaration of insolvency and any amount of unsecured interest accrued up to such date shall become subordinated (iii) secured interest shall be deemed as specially privileged up to the value effectively covered by the relevant security and shall keep accruing after the declaration of insolvency up to the lower of (a) the secured amount and (b) the value effectively covered by the relevant security, provided that a contingent credit for secured ordinary interests that may accrue after the declaration of insolvency is included in the statement of claim to be sent to the insolvency administrator. Default interest, either secured or unsecured, no longer accrue after the declaration of insolvency, as per the Supreme Court judgment dated 20 February 2019.

The Insolvency Law may also have the effect of modifying or impairing creditors' rights even if the creditor, either secured or unsecured, does not consent to the amendment (i.e., creditors can be subject to cram down), either in a pre-insolvency (i.e., as result of a restructuring plan that has been judicially sanctioned (*homologado*)) or in an insolvency context (as a result of the approval of a creditors' agreement (*convenio concursal*)), in both cases subject to certain requirements (including majority support). These may include write-off or stay, conversion into (among others) a different financial instrument, convertible obligations, participating loans (*préstamos participativos*), exchange for equity, and even a change of the applicable law to the relevant claims.

In no case shall subordinated creditors be entitled to vote upon a creditors' agreement (*convenio concursal*) in insolvency proceedings, and accordingly, they shall be always subject to the measures contained therein, if passed by the relevant majorities.

In the event of insolvency of the Issuer, under the Insolvency Law, claims relating to the Notes will be ordinary unsecured credits (*créditos ordinarios*) as defined by the Insolvency Law, unless they qualify as subordinated credits (*créditos subordinados*) in the limited circumstances set out in Article 281 of the Insolvency Law. Ordinary credits rank below credits against the insolvency estate (*créditos contra la masa*), which include receivers' fees, and privileged credits (*créditos privilegiados*), which include certain labour and tax debt.

As such, certain provisions of the Insolvency Law could affect the ranking of the Notes or claims relating to the Notes on an insolvency of the Issuer.

The application of the net proceeds of Green Notes as described in "Use of Proceeds" may not meet investor expectations or be suitable for an investor's investment criteria

Prospective investors in any Notes where the title "Green Notes" in Part B of the applicable Final Terms is stated to be "Applicable" (the "**Green Notes**"), should have regard to the information in the applicable Final Terms regarding the use of the net proceeds of those Green Notes and must determine for themselves the relevance of such information for the purpose of any investment in such Green Notes together with any other investigation such investor deems necessary. In particular no assurance is given by the Issuer, the Guarantors or the Dealers that the use of such proceeds for any eligible projects will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply (including Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the so called "**EU Taxonomy**") or Regulation (EU) 2020/852 as it forms part of domestic law in the United Kingdom by virtue of the EUWA) and any related technical screening criteria, Regulation (EU) 2023/2631 on European Green Bonds and optional disclosures for bonds marketed as environmentally sustainable and for sustainability-linked bonds (the "**EU Green Bond Regulation**"), Regulation (EU)2019/2088 on sustainability-related disclosures in the financial services sector ("**SFDR**") and any implementing legislation and guidelines, or any similar legislation in the United Kingdom) or any requirements of such labels as they may evolve from time to time.

Each prospective investor should have regard to the factors described in Red Eléctrica's Green Framework and the relevant information contained in the Base Prospectus and seek advice from their independent financial adviser or other professional adviser regarding its purchase of the Notes before deciding to invest. Red Eléctrica's Green Framework may be subject to review and change and may be amended, updated, supplemented, replaced and/or withdrawn from time to time and any subsequent version(s) may differ from any description given in the Base Prospectus. Red Eléctrica's Green Framework does not form part of, nor is incorporated by reference, in the Base Prospectus.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any report, assessment, opinion or certification of any third party (whether or not solicited by the Issuer) which may or may not be made available in connection with the issue of any Green Notes and in particular with any eligible projects to fulfil any environmental and/or other criteria, such as the Second Party Opinion. Any such report, assessment, opinion or certification is not, nor shall be deemed to be, incorporated in and/or form part of the Base Prospectus. Any such report, assessment, opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer, the Guarantors, the Dealers or any other person to buy, sell or hold any such Green Notes. Any such report, assessment, opinion or certification is only current as of the date it was issued. Prospective investors must determine for themselves the relevance of any such report, assessment, opinion or certification and/or the information contained therein and/or the provider of such report, assessment, opinion or certification for the purpose of any investment in such Green Notes. At the date of the Base Prospectus, the providers of such reports, assessments, opinions and certifications are not subject to any specific oversight or regulatory or other regime.

In the event that any Green Notes are listed or admitted to trading on any dedicated "green" or other equivalently labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer, the Guarantors, the Dealers or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply. Furthermore, the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. No representation or assurance is given or made by the Issuer, the Guarantors, the Dealers or any other person that any such listing or admission to trading will be obtained in respect of any such Green Notes or, if obtained, that any such listing or admission to trading will be maintained during the life of the Green Notes.

While it is the intention of the Issuer to apply the net proceeds of any Green Notes and obtain and publish the relevant reports, assessments, opinions and certifications in, or substantially in the manner described in each case in the Final Terms, factors beyond the Issuer's and/or Guarantor's control may prevent them from doing so. For the same reason, there can be no assurance that any eligible projects will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer or the Guarantors.

Any such event or failure to apply the net proceeds of any issue of Green Notes for any eligible projects or to obtain and publish any such reports, assessments, opinions and certifications, will not constitute an event of default under the relevant Green Notes or give rise to any other claim of a holder of such Green Notes against the Issuer and the Guarantors. The withdrawal of any report, assessment, opinion or certification as described above, or any

such report, assessment, opinion or certification attesting that the Issuer or the Guarantors are not complying in whole or in part with any matters for which such report, assessment, opinion or certification is reporting, assessing, opining or certifying on, and/or any such Green Notes no longer being listed or admitted to trading on any stock exchange or securities market, as aforesaid, may have a material adverse effect on the value of such Green Notes and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

E) Risks relating to benchmarks and interest rate

Floating Rate Notes

Investments in Notes that bear interest at a floating rate comprise (i) a reference rate and (ii) a margin to be added or subtracted, as the case may be, from such rate. Typically, the relevant margin will not change throughout the life of the Notes but there will be a periodic adjustment (as specified in the applicable Final Terms or Drawdown Prospectus, as the case may be) of the reference rate (e.g. every three months or six months) which itself will change in accordance with general market conditions. Accordingly, the market value of floating rate Notes may be volatile if changes, particularly short-term changes, to market interest rates evidenced by the relevant reference rate can only be reflected in the interest rate of such Notes upon the next periodic adjustment of the relevant reference rate.

Certain benchmark rates, including EURIBOR, may be discontinued or reformed in the future.

The Euro Interbank Offered Rate ("**EURIBOR**") and other interest rates or other types of rates and indices which are deemed to be benchmarks are the subject of ongoing national and international regulatory discussions and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented.

Regulation (EU) No. 2016/1011 (the "**EU Benchmarks Regulation**") applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark, within the EU. Regulation (EU) No. 2016/1011 as it forms part of domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (the "**UK Benchmarks Regulation**") applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark, within the UK. The EU Benchmarks Regulation or the UK Benchmarks Regulation, as applicable, could have a material impact on any Notes linked to EURIBOR or another benchmark rate or index, in particular, if the methodology or other terms of the benchmark are changed in order to comply with the terms of the EU Benchmarks Regulation or UK Benchmarks Regulation, and such changes could (amongst other things) have the effect of reducing or increasing the rate or level, or affecting the volatility of the published rate or level, of the benchmark. More broadly, any of the international, national or other proposals for reform, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to certain "benchmarks," trigger changes in the rules or methodologies used in certain "benchmarks" or lead to the discontinuance or unavailability of quotes of certain "benchmarks".

As an example of such benchmark reforms, on 21 September 2017, the European Central Bank announced that it would be part of a new working group tasked with the identification and adoption of a "risk free overnight rate" which can serve as a basis for an alternative to current benchmarks used in a variety of financial instruments and contracts in the euro area. On 13 September 2018, the working group on Euro risk-free rates recommended the new Euro short-term rate ("**€STR**") as the new risk-free rate for the euro area. The €STR was published for the first time on 2 October 2019. Although EURIBOR has subsequently been reformed in order to comply with the terms of the EU Benchmarks Regulation, it remains uncertain as to how long it will continue in its current form, or whether it will be further reformed or replaced with €STR or an alternative benchmark.

The elimination of EURIBOR or any other benchmark, or changes in the manner of administration of any benchmark, could require or result in an adjustment to the interest calculation provisions of the Conditions, or result in adverse consequences to holders of any Notes linked to such benchmark (including Floating Rate Notes whose interest rates are linked to EURIBOR or any other such benchmark that is subject to reform). Furthermore, even prior to the implementation of any changes, uncertainty as to the nature of alternative reference rates and as to potential changes to such benchmark may adversely affect such benchmark during the term of the relevant Notes, the return on the relevant Notes and the trading market for securities (including the Notes) based on the same benchmark.

The Conditions of the Notes provide for certain fallback arrangements in the event that a published benchmark (including any page on which such benchmark may be published (or any other successor service)) becomes unavailable or a Benchmark Event (each as defined in the Conditions), as applicable, otherwise occurs. Such an event may be deemed to have occurred prior to the issue date for a Series of Notes. Such fallback arrangements include the possibility that the rate of interest could be set by reference to a successor rate or an alternative rate and that such successor rate or alternative reference rate may be adjusted (if required) in accordance with the recommendation of a relevant governmental body or in order to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the replacement of the relevant benchmark, although the application of such adjustments to the Notes may not achieve this objective. Any such changes may result in the Notes performing differently (which may include payment of a lower interest rate) than if the original benchmark continued to apply. In certain circumstances the ultimate fallback of interest for a particular Interest Period may result in the rate of interest for the last preceding Interest Period being used.

This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page. In addition, due to the uncertainty concerning the availability of successor rates and alternative reference rates and the involvement of an Independent Adviser (as defined in the Conditions) in certain circumstances, the relevant fallback provisions may not operate as intended at the relevant time.

Any such consequences could have a material adverse effect on the value of and return on any such Notes.

Investors should consult their own independent advisers and make their own assessment about the potential risks arising from the possible cessation or reform of certain reference rates in making any investment decision with respect to any Notes linked to or referencing a benchmark.

The market continues to develop in relation to risk-free rates (including overnight rates) as reference rates for Floating Rate Notes

The use of risk-free rates - including those such as the Sterling Overnight Index Average ("**SONIA**"), the Secured Overnight Financing Rate ("**SOFR**") and €STR, as reference rates for Eurobonds continues to develop. This relates not only to the substance of the calculation and the development and adoption of market infrastructure for the issuance and trading of bonds referencing such rates, but also how widely such rates and methodologies might be adopted.

The market or a significant part thereof may adopt an application of risk-free rates that differs significantly from that set out in the Conditions and used in relation to Notes that reference risk-free rates issued under this Programme. The Issuer may in the future also issue Notes referencing SONIA, the SONIA Compounded Index, SOFR, the SOFR Compounded Index or €STR that differ materially in terms of interest determination when

compared with any previous Notes issued by it under this Programme. The development of risk-free rates for the Eurobond markets could result in reduced liquidity or increased volatility, or could otherwise affect the market price of any Notes that reference a risk-free rate issued under this Programme from time to time.

In addition, the manner of adoption or application of risk-free rates in the Eurobond markets may differ materially compared with the application and adoption of risk-free rates in other markets, such as the derivatives and loan markets. Investors should carefully consider how any mismatch between the adoption of such reference rates in the bond, loan and derivatives markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of Notes referencing such risk-free rates.

In particular, investors should be aware that several different methodologies have been used in risk-free rate notes issued to date. No assurance can be given that any particular methodology, including the compounding formula in the terms and conditions of the Notes, will gain widespread market acceptance. In addition, market participants and relevant working groups are still exploring alternative reference rates based on risk-free rates, including various ways to produce term versions of certain risk-free rates (which seek to measure the market's forward expectation of an average of these reference rates over a designated term, as they are overnight rates) or different measures of such risk-free rates. If the relevant risk-free rates do not prove to be widely used in securities like the Notes, the trading price of such Notes linked to such risk-free rates may be lower than those of Notes referencing indices that are more widely used.

Investors should consider these matters when making their investment decision with respect to any Notes which reference SONIA, SOFR, €STR or any related indices.

Risk-free rates may differ from LIBOR and other inter-bank offered rates in a number of material respects and have a limited history

Risk-free rates may differ from The London Interbank Offered Rate ("**LIBOR**") and other inter-bank offered rates in a number of material respects. These include (without limitation) being backwards-looking, in most cases, calculated on a compounded or weighted average basis, risk-free, overnight rates and, in the case of SOFR, secured, whereas such interbank offered rates are generally expressed on the basis of a forward-looking term, are unsecured and include a risk-element based on interbank lending. As such, investors should be aware that risk-free rates may behave materially differently to interbank offered rates as interest reference rates for the Notes. Furthermore, SOFR is a secured rate that represents overnight secured funding transactions, and therefore will perform differently over time to an unsecured rate. For example, since publication of SOFR began on 3 April 2018, daily changes in SOFR have, on occasion, been more volatile than daily changes in comparable benchmarks or other market rates.

Risk-free rates offered as alternatives to interbank offered rates also have a limited history. For that reason, future performance of such rates may be difficult to predict based on their limited historical performance. The level of such rates during the term of the Notes may bear little or no relation to historical levels. Prior observed patterns, if any, in the behaviour of market variables and their relation to such rates such as correlations, may change in the future. Investors should not rely on historical performance data as an indicator of the future performance of such risk-free rates nor should they rely on any hypothetical data.

Furthermore, interest on Notes which reference a backwards-looking risk-free rate is only capable of being determined immediately prior to the relevant Interest Payment Date. It may be difficult for investors in Notes which reference such risk-free rates reliably to estimate the amount of interest which will be payable on such Notes, and some investors may be unable or unwilling to trade such Notes without changes to their IT systems, both of which could adversely impact the liquidity of such Notes. Further, in contrast to Notes linked to interbank offered rates, if Notes referencing backwards-looking rates become due and payable as a result of an Event of Default under Condition 11 (Events of Default), or are otherwise redeemed early on a date which is not an Interest Payment Date, the final Rate of Interest Rate payable in respect of such Notes shall be determined by reference to a shortened period ending immediately prior to the date on which the Notes become due and payable or are scheduled for redemption.

The administrator of SONIA, SOFR or €STR or any related indices may make changes that could change the value of SONIA, SOFR or €STR or any related index, or discontinue SONIA, SOFR or €STR or any related index

The Bank of England, the Federal Reserve, Bank of New York or the European Central Bank (or their successors) as administrators of SONIA (and the SONIA Compounded Index), SOFR (and the SOFR Compounded Index) or €STR, respectively, may make methodological or other changes that could change the value of these risk-free rates and/or indices, including changes related to the method by which such risk-free rate is calculated, eligibility criteria applicable to the transactions used to calculate SONIA, SOFR or €STR, or timing related to the publication of SONIA, SOFR or €STR or any related indices. In addition, the administrator may alter, discontinue or suspend calculation or dissemination of SONIA, SOFR or €STR or any related index (in which case a fallback method of determining the interest rate on the Notes will apply). The administrator has no obligation to consider the interests of Noteholders when calculating, adjusting, converting, revising or discontinuing any such risk-free rate.

Neither this Base Prospectus nor any other information supplied in connection with the Programme or any Notes (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation by the Issuer, the Guarantors or any of the Dealers that any recipient of this Base Prospectus or any other information supplied in connection with the Programme or any Notes should purchase any Notes. Each investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the relevant Issuer and/or the Guarantors.

In making an investment decision, investors must rely on their own examination of the relevant Issuer and the Guarantors and the terms of the Notes being offered, including the merits and risks involved.

Any investor in the Notes should satisfy itself that it is able to bear the economic risk of an investment in the Notes for an indefinite period of time.

Neither this Base Prospectus nor any Final Terms constitutes an offer or an invitation to subscribe for or purchase any Notes and should not be considered as a recommendation by the Issuer, the Guarantors, the Dealers or any of them that any recipient of this Base Prospectus or any Final Terms should subscribe for or purchase any Notes. Each recipient of this Base Prospectus or any Final Terms shall be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of the Issuer and the Guarantors.

Certain figures included in this Base Prospectus have been subject to rounding adjustments; accordingly, figures shown for the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.

The language of the Base Prospectus is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.

MiFID II product governance / target market – A determination will be made in relation to each issue about whether, for the purpose of the MiFID II Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID II Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID II Product Governance Rules.

The Final Terms (or Drawdown Prospectus, as the case may be) in respect of any Notes will include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

Product Governance under UK MiFIR / target market – A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR product governance rules set out in the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**"), any

Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

The Final Terms (or Drawdown Prospectus, as the case may be) in respect of any Notes may include a legend entitled "UK MiFIR Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any distributor should take into consideration the target market assessment; however, a distributor subject to the UK MiFIR Product Governance Rules is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97 (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of EU MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS –The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018; or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000, as amended ("**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

PRODUCT CLASSIFICATION PURSUANT TO SECTION 309B OF THE SECURITIES AND FUTURES ACT 2001 OF SINGAPORE

The Final Terms in respect of any Notes may include a legend entitled "Singapore Securities and Futures Act Product Classification" which will state the product classification of the Notes pursuant to section 309B(1) of the Securities and Futures Act 2001 of Singapore (the "**SFA**").

If applicable, the Issuer will make a determination in relation to each such issue about the classification of the Notes being offered for purposes of section 309B(1)(a) of the SFA. Any such legend included on the relevant Final Terms will constitute notice to "relevant persons" for purposes of section 309B(1)(c) of the SFA.

EU Benchmarks Regulation

Interest and/or other amounts payable under the Notes may be calculated by reference to certain reference rates. Any such reference rate may constitute a benchmark for the purposes of Regulation (EU) 2016/1011 (the "**EU Benchmarks Regulation**"). If any such reference rate does constitute such a benchmark, the Final Terms will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 (Register of administrators and benchmarks) of the EU Benchmarks Regulation. Transitional provisions in the EU Benchmarks Regulation may have the result that the administrator of a particular benchmark is not required to appear in the register of administrators and benchmarks at the date of the Final Terms. The registration status of any administrator under the EU Benchmarks Regulation is a matter of public record and, save where required by applicable law, the Issuer does not intend to update the Final Terms to reflect any change in the registration status of the administrator.

Interest payable on Floating Rate Notes will be calculated by reference to EURIBOR, SONIA, SOFR and/or €STR as specified in the relevant Final Terms. As at the date of this Base Prospectus, the European Money Markets Institute (as administrator of EURIBOR) (the "**EMMI**") is included in ESMA's register of administrators under Article 36 of the EU Benchmarks Regulation and the Bank of England (as administrator of SONIA) is not included in ESMA's register of administrators under the EU Benchmarks Regulation. As far as the Issuer is aware, the transitional provisions in Article 51 of the EU Benchmarks Regulation apply, such that the Bank of England, the Federal Reserve Bank of New York and the European Central Bank are not currently required to obtain authorisation/registration or recognition, endorsement or equivalence.

Stabilisation

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in the applicable Final Terms may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or person(s) acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

ROUNDING

Certain figures in the Base Prospectus, including financial, market and certain operating data, have been rounded for ease of reference. Accordingly, in certain cases, the sum of the numbers shown in a column or row of a table may not exactly add up to the total figure shown for the column or row, and the sum of certain figures expressed as a percentage may not exactly add up to the total percentage shown.

In addition, where the title "Use of Proceeds" in Part B of the applicable Final Terms is stated to be "Green Notes" as described in this "Use of Proceeds" section the net proceeds from each such issue of Notes will be applied by the Issuer to finance and/or refinance, in whole or in part, the development, construction, installation or maintenance of new or existing projects, assets or activities that meet the eligibility requirements "(the **Eligible Green Assets**") defined and detailed in the green framework established by Red Eléctrica (the "**Green Framework**"). FINAL TERMS AND DRAWDOWN PROSPECTUSES

In this section the expression "necessary information" means, in relation to any Tranche of Notes, the necessary information which is material to an investor for making an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer and the Guarantors and of the rights attaching to the Notes. In relation to the different types of Notes which may be issued under the Programme the Issuer and the Guarantors have endeavoured to include in this Base Prospectus all of the necessary information except for information relating to the Notes which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issue of a Tranche of Notes.

Any information relating to the Notes which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Notes will be contained either in the relevant Final Terms or in a Drawdown Prospectus. Such information will be contained in the relevant Final Terms unless any of such information constitutes a significant new factor relating to the information contained in this Base Prospectus in which case such information, together with all of the other necessary information in relation to the relevant series of Notes, may be contained in a Drawdown Prospectus or in a supplement to this Base Prospectus.

For a Tranche of Notes which is the subject of Final Terms, those Final Terms will, for the purposes of that Tranche only, complete this Base Prospectus and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Notes which is the subject of Final Terms are the Conditions as completed to the extent described in the relevant Final Terms.

The terms and conditions applicable to any particular Tranche of Notes which is the subject of a Drawdown Prospectus will be the Conditions as supplemented, amended and/or replaced to the extent described in the relevant Drawdown Prospectus. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

Each Drawdown Prospectus will be constituted either (1) by a single document containing the necessary information relating to the Issuer and the Guarantors and the relevant Notes or (2) by a registration document containing the necessary information relating to the Issuer and the Guarantors, a securities note containing the necessary information relating to the relevant Notes. In addition, if the Drawdown Prospectus is constituted by a registration document and a securities note, any significant new factor, material mistake or inaccuracy relating to the information included in the registration document which arises or is noted between the date of the registration document and the date of the securities note which is capable of affecting the assessment of the relevant Notes will be included in the securities note.

FORMS OF THE BEARER NOTES

Each Tranche of Bearer Notes will initially be in the form of either a temporary global note (the "**Temporary Global Note**"), without interest coupons, or a permanent global note (the "**Permanent Global Note**"), without interest coupons, in each case as specified in the relevant Final Terms. Each Temporary Global Note or, as the case may be, Permanent Global Note (each a "**Global Note**") which is not intended to be issued in new global note ("**NGN**") form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Bearer Notes with a depository or a common depository for Euroclear Bank SA/NV ("**Euroclear**") and/or Clearstream Banking S.A. ("**Clearstream, Luxembourg**") and/or any other relevant clearing system and each Global Note which is intended to be issued in NGN form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Bearer Notes with a common safekeeper for Euroclear and/or Clearstream, Luxembourg.

On 13 June 2006 the European Central Bank (the "**ECB**") announced that Bearer Notes in NGN form are in compliance with the "Standards for the use of EU securities settlement systems in ESCB credit operations" of the central banking system for the euro (the "**Eurosystem**"), provided that certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for Bearer Notes in NGN form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after 31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used.

The relevant Final Terms will also specify whether United States Treasury Regulation §1.163-5(c)(2)(i)(C) (the "**TEFRA C Rules**") or United States Treasury Regulation §1.163-5(c)(2)(i)(D) (the "**TEFRA D Rules**") are applicable in relation to the Bearer Notes or, if the Bearer Notes do not have a maturity of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

Temporary Global Note exchangeable for Permanent Global Note

If the relevant Final Terms specifies the form of Bearer Notes as being "Temporary Global Note exchangeable for a Permanent Global Note", then the Bearer Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without interest coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Bearer Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Bearer Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Fiscal Agent; and
- (ii) receipt by the Fiscal Agent of a certificate or certificates of non-U.S. beneficial ownership,

within 7 days of the bearer requesting such exchange.

The principal amount of the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership; *provided however that* in no circumstances shall the principal amount of the Permanent Global Note exceed the initial principal amount of the Temporary Global Note.

The Permanent Global Note will be exchangeable in whole, but not in part, for Bearer Notes in definitive form ("**Definitive Notes**") if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 11 (*Events of Default*) occurs.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

Temporary Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Bearer Notes as being "Temporary Global Note exchangeable for Definitive Notes" and also specifies that the TEFRA C Rules are applicable or that neither the TEFRA C Rules or the TEFRA D Rules are applicable, then the Bearer Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole but not in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Bearer Notes.

If the relevant Final Terms specifies the form of Bearer Notes as being "Temporary Global Note exchangeable for Definitive Notes" and also specifies that the TEFRA D Rules are applicable, then the Bearer Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Bearer Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Bearer Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange

Permanent Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Bearer Notes as being "Permanent Global Note exchangeable for Definitive Notes", then the Bearer Notes will initially be in the form of a Permanent Global Note which will be exchangeable in whole, but not in part, for Definitive Notes if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 11 (*Events of Default*) occurs.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

Terms and Conditions applicable to the Bearer Notes

The terms and conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the terms and conditions set out under "Terms and Conditions of the Bearer Notes" below and the provisions of the relevant Final Terms which complete those terms and conditions.

The terms and conditions applicable to any Note in global form will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "Overview of Provisions Relating to the Bearer Notes while in Global Form" below.

Legend concerning United States persons

In the case of any Tranche of Bearer Notes having a maturity of more than 365 days, the Bearer Notes in global form, the Bearer Notes in definitive form and any Coupons and Talons appertaining thereto will bear a legend to the following effect:

"Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code."

TERMS AND CONDITIONS OF THE BEARER NOTES

The following is the text of the terms and conditions which, as completed by the relevant Final Terms, will be endorsed on each Bearer Note in definitive form issued under the Programme. - (b) *Final Terms*: Bearer Notes issued under the Programme are issued in series (each a "**Series**") and each Series may comprise one or more tranches (each a "**Tranche**") of Bearer Notes. Each Tranche is the subject of final terms (the "**Final Terms**") which complete these terms and conditions (the "**Bearer Conditions**"). The terms and conditions applicable to any particular Tranche of Bearer Notes are these Conditions as completed by the relevant Final Terms. In the event of any inconsistency between these Conditions and the relevant Final Terms, the relevant Final Terms shall prevail.
- (c) *Public Deed of Issuance*: as far as required by Law (or, otherwise, at the option of the Issuer) each Tranche of Bearer Notes will be constituted by virtue of a public deed of issuance (the "**Public Deed of Issuance**") to be executed before a Spanish notary public on or prior to the Issue Date.
- (d) *Fiscal Agency Agreement*: The Bearer Notes are the subject of an amended and restated fiscal agency agreement dated 13 June 2022 (the "**Fiscal Agency Agreement**") between the Issuer, the Guarantors, Deutsche Bank AG, London Branch as fiscal agent (the "**Fiscal Agent**", which expression includes any successor fiscal agent appointed from time to time in connection with the Bearer Notes), the paying agents named therein (together with the Fiscal Agent, the "**Paying Agents**", which expression includes any successor or additional paying agents appointed from time to time in connection with the Bearer Notes) and Deutsche Bank, S.A.E. - (f) *The Notes*: All subsequent references in these Bearer Conditions to "**Bearer Notes**" are to the Bearer Notes which are the subject of the relevant Final Terms. Copies of the relevant Final Terms are available for viewing during normal business hours at the Specified Office of the Fiscal Agent, the initial Specified Office of which is set out below.
- (g) *Summaries*: Certain provisions of these Bearer Conditions are summaries of the Fiscal Agency Agreement and the Deed of Guarantee and are subject to their detailed provisions. The holders of the Notes (the "**Noteholders**") and the holders of the related interest coupons, if any, (the "**Couponholders**" and the "**Coupons**", respectively) are bound by, and are deemed to have notice of, all the provisions of the Fiscal Agency Agreement and the Deed of Guarantee applicable to them. Copies of the Fiscal Agency Agreement and the Deed of Guarantee are available for inspection by Noteholders during normal business hours at the Specified Offices of each of the Paying Agents, the initial Specified Offices of which are set out below.

No person shall have any right to enforce any term or condition of any Note under the Contracts (Rights of Third Parties) Act 1999.

4 Status of the Bearer Notes and Guarantee

The restated text of the Insolvency Law, approved by Royal Legislative Decree 1/2020, of 5 May (the "**Insolvency Law**") provides, among other things, that:

- (i) any claim may become subordinated if it is not reported to the insolvency administrators within one month from the last official publication of the court order declaring the insolvency. If the insolvency proceeding is declared as abridged, the term to report may be reduced to fifteen days;
- (ii) provisions in a contract granting one party the right to terminate by reason only of the other's insolvency may not be enforceable;
- (iii) interest (other than any interest accruing under secured liabilities up to an amount equal to the value of the assets subject to the security) accrued and unpaid until the declaration of the insolvency proceedings (*concurso de acreedores*) shall become subordinated; and

(iv) accrual of interest (other than ordinary interest accruing under secured liabilities up to an amount equal to the value of the asset subject to the security and only if certain conditions are met) shall be suspended from the date of the declaration of insolvency.

(a) Status of the Bearer Notes:

The Bearer Notes constitute direct, general, unconditional, unsubordinated and (subject to the provisions of Condition 5 (*Negative Pledge*) unsecured obligations of the Issuer which (unless they qualify as subordinated credits under Article 281 of the Insolvency Law) in the event of the insolvency (*concurso de acreedores*) of the Issuer will at all times rank *pari passu* among themselves and at least *pari passu* with all other present and future unsecured and unsubordinated obligations of the Issuer, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application, and in particular, save for such payment obligations that are preferred by law under Articles 242, 270 and 280 of the Insolvency Law.

In the event of the insolvency (*concurso de acreedores*) of the Issuer, under the Insolvency Law, and assuming that the Bearer Notes continue being unsecured, claims relating to the Bearer Notes (unless they qualify as subordinated credits under Article 281 of the Insolvency Law) will be ordinary credits (*créditos ordinarios*) as defined in the Insolvency Law. Ordinary credits rank below credits against the insolvency estate (*créditos contra la masa*) and credits with a privilege (*créditos privilegiados*). Ordinary credits rank above subordinated credits. Accrued and unpaid interest due in respect of the Bearer Notes at the commencement of an insolvency proceeding (*concurso de acreedores*) of the Issuer will qualify as subordinated credits. Under Spanish law and except as described as above, accrual of interest on the Bearer Notes shall be suspended from the date of any declaration of insolvency.

(b) Status of the Guarantee:

The Guarantors have in the Deed of Guarantee unconditionally and irrevocably guaranteed the due and punctual payment of all sums from time to time payable by the Issuer in respect of the Bearer Notes.

This Guarantee of the Bearer Notes constitutes direct, general, unsubordinated and (subject to the provisions of Condition 5 (*Negative Pledge*) unsecured obligations of the Guarantors which (unless they qualify as subordinated credits under Article 281 of the Insolvency Law) in the event of the insolvency (*concurso de acreedores*) of the Guarantors will at all times rank at least *pari passu* with all other present and future unsecured and unsubordinated obligations of the Guarantors, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application, and in particular, save for such payment obligations that are preferred by law under Articles 242, 270 and 280 of the Insolvency Law.

5 Negative Pledge

So long as any Note remains outstanding neither the Issuer nor the Guarantors shall create or permit to subsist any Security Interest (other than Permitted Security Interest) upon the whole or any part of its present or future undertaking, assets or revenues (including uncalled capital) to secure any Relevant Indebtedness or Guarantee of Relevant Indebtedness without (i) at the same time or prior thereto securing the Bearer Notes equally and rateably therewith, or (ii) providing such other security for the Bearer Notes as may be approved by an Extraordinary Resolution of Noteholders.

Permitted Security Interest means: (i) any Security Interest created in respect of any Relevant Indebtedness of a company which has merged with the Issuer, any of the Guarantors or one of its or their Subsidiaries or which has been acquired by the Issuer, any of the Guarantors or one of its or their Subsidiaries, provided that such security was already in existence at the time of the merger or the acquisition, was not created for the purpose of financing the merger or the acquisition and is not increased in amount and not extended following the merger or the acquisition; and (ii) any Security Interest arising pursuant to any mandatory provision of law other than as a result of any action taken by the Issuer or any of the Guarantors in their ordinary course of business.

6 Fixed Rate Note Provisions

- (a) *Application:* This Condition 6 (*Fixed Rate Note Provisions*) is applicable to the Bearer Notes only if the Fixed Rate Note Provisions are specified in the relevant Final Terms as being applicable.
- (b) *Accrual of interest:* The Bearer Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 9 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 6 (*Fixed Rate Note Provisions*) (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Bearer Notes up to such seventh day (except to the extent that there is any subsequent default in payment).
- (c) *Fixed Coupon Amount:* The amount of interest payable in respect of each Note for any Interest Period shall be the relevant Fixed Coupon Amount and, if the Bearer Notes are in more than one Specified Denomination, shall be the relevant Fixed Coupon Amount in respect of the relevant Specified Denomination.
- (d) *Calculation of interest amount:* The amount of interest payable in respect of each Note for any period for which a Fixed Coupon Amount is not specified shall be calculated by applying the Rate of Interest to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of such Note divided by the Calculation Amount. For this purpose a "sub-unit" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

7 Floating Rate Note Provisions

- (a) *Application:* This Condition 7 (*Floating Rate Note Provisions*) is applicable to the Bearer Notes only if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable.
- (b) *Accrual of interest:* The Bearer Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 9 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Bearer Notes up to such seventh day (except to the extent that there is any subsequent default in payment).
- (c) *Screen Rate Determination:* If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Bearer Notes for each Interest Period will be (other than in respect of Bearer Notes for which SONIA, SOFR and/or €STR or any related index is specified as the Reference Rate in the relevant Final Terms) determined by the Calculation Agent on the following basis:
 - (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
 - (ii) if Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight-line linear interpolation by reference to two rates

which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date, where:

- (A) one rate shall be determined as if the Relevant Period were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and
- (B) the other rate shall be determined as if the Relevant Period were the period of time for which rates are available next longer than the length of the relevant Interest Period;

provided, however, that if no rate is available for a period of time next shorter or, as the case may be, next longer than the length of the relevant Interest Period, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate;

- (iii) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (iv) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
 - (A) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (B) determine the arithmetic mean of such quotations; and
- (v) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; *provided however that* if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Bearer Notes during such Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Bearer Notes in respect of a preceding Interest Period.

- (d) *ISDA Determination:* If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Book-entry Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where "**ISDA Rate**" in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions (provided that in any circumstances where under the ISDA Definitions the Calculation Agent would be required to exercise any discretion, including the selection of any reference banks and seeking quotations from reference banks, when calculating the relevant ISDA Rate, the relevant determination(s) which require the Calculation Agent to exercise its discretion shall instead be made by the Issuer or its designee) and under which:

- (i) if the Final Terms specify either "2006 ISDA Definitions" or "2021 ISDA Definitions" as the applicable ISDA Definitions:
 - (A) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;
 - (B) the Designated Maturity (as defined in the ISDA Definitions), if applicable, is a period specified in the relevant Final Terms;
 - (C) the relevant Reset Date (as defined in the ISDA Definitions) unless otherwise specified in the relevant Final Terms, has the meaning given to it in the ISDA Definitions; and
 - (D) if Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight-line linear interpolation by reference to two rates based on the relevant Floating Rate Option, where:
 - (1) one rate shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and
 - (2) the other rate shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period

provided, however, that if there is no rate available for a period of time next shorter than the length of the relevant Interest Period or, as the case may be, next longer than the length of the relevant Interest Period, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

Commencement Date) and ending on, but excluding, the date which is "p" London Banking Days prior to the Interest Payment Date for such Interest Period (or the date falling "p" London Banking Days prior to such earlier date, if any, on which the Notes become due and payable);

"p" for any Interest Period or Observation Period (as applicable), means the number of London Banking Days specified as the "Lag Period" or the "Observation Shift Period" (as applicable) in the relevant Final Terms or if no such period is specified, five London Banking Days;

"**SONIA Reference Rate**" means, in respect of any London Banking Day, a reference rate equal to the daily Sterling Overnight Index Average ("**SONIA**") rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page (or if the Relevant Screen Page is unavailable, as otherwise is published by such authorised distributors) on the London Banking Day immediately following such London Banking Day; and

"**SONIAi**" means the SONIA Reference Rate for:

- (a) where "Lag" is specified as the Observation Method in the relevant Final Terms, the London Banking Day falling "p" London Banking Days prior to the relevant London Banking Day "i"; or
- (b) where "Observation Shift" is specified as the Observation Method in the relevant Final Terms, the relevant London Banking Day "i".

For the avoidance of doubt, the formula for the calculation of Compounded Daily SONIA only compounds the SONIA Reference Rate in respect of any London Banking Day. The SONIA Reference Rate applied to a day that is a non-London Banking Day will be taken by applying the SONIA Reference Rate for the previous London Banking Day but without compounding.

- (iv) If, in respect of any London Banking Day in the relevant Interest Period or Observation Period (as applicable), the Calculation Bank determines that the SONIA Reference Rate is not available on the Relevant Screen Page and has not otherwise been published by the relevant authorised distributors, such SONIA Reference Rate shall, subject to Condition 7(n) (*Benchmark Discontinuation*), be:
 - (A) the sum of (A) the Bank of England's Bank Rate (the "Bank Rate") prevailing at close of business on the relevant London Banking Day and (B) the mean of the spread of the SONIA Reference Rate to the Bank Rate over the previous five London Banking Days on which a SONIA Reference Rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate; or
 - (B) if the Bank Rate is not published by the Bank of England at close of business on the relevant London Banking Day, (a) the SONIA Reference Rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding London Banking Day on which the SONIA Reference Rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors), or (b) if this is more recent, the latest determined rate under (A).
- (v) Subject to Condition 7(n) (*Benchmark Discontinuation*), if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this Condition 7(e), the Rate of Interest shall be (A) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period) or (B) if there is no such preceding Interest Determination

Date, the initial Rate of Interest which would have been applicable to the Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin applicable to the first Interest Period).

(f) *Interest – Floating Rate Notes referencing SOFR (Screen Rate Determination)*

- (i) This Condition 7(f) is applicable to the Notes only if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable, Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, and the "Reference Rate" is specified in the relevant Final Terms as being "SOFR".
- (ii) Where "SOFR" is specified as the Reference Rate in the Final Terms, the Rate of Interest for each Interest Period will, subject as provided below, be the Benchmark plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent on each Interest Determination Date.
- (iii) For the purposes of this Condition 7(f):

"**Benchmark**" means Compounded SOFR, which is a compounded average of daily SOFR, as determined for each Interest Period in accordance with the specific formula and other provisions set out in this Condition 7(f).

Daily SOFR rates will not be published in respect of any day that is not a U.S. Government Securities Business Day, such as a Saturday, Sunday or holiday. For this reason, in determining Compounded SOFR in accordance with the specific formula and other provisions set forth herein, the daily SOFR rate for any U.S. Government Securities Business Day that immediately precedes one or more days that are not U.S. Government Securities Business Days will be multiplied by the number of calendar days from and including such U.S. Government Securities Business Day to, but excluding, the following U.S. Government Securities Business Day.

If the Issuer determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred in respect of Compounded SOFR (or the daily SOFR used in the calculation hereof) prior to the relevant SOFR Determination Time, then the provisions under Condition 7(f)(iv) below will apply.

"**Business Day**" means any weekday that is a U.S. Government Securities Business Day and is not a legal holiday in New York and each (if any) Additional Business Centre(s) and is not a date on which banking institutions in those cities are authorised or required by law or regulation to be closed;

"**Compounded SOFR**" with respect to any Interest Period, means the rate of return of a daily compound interest investment computed in accordance with the following formula (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards to 0.00001):

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SOFR_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

"**d**" is the number of calendar days in:

- (a) where "Lag" is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (b) where "Observation Shift" is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period.

"**d₀**" is the number of U.S. Government Securities Business Days in:

- (a) where "Lag" is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (b) where "Observation Shift" is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period.

"**i**" is a series of whole numbers from one to d_0 , each representing the relevant U.S. Government Securities Business Day in chronological order from, and including, the first U.S. Government Securities Business Day in:

- (a) where "Lag" is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (b) where "Observation Shift" is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period,

to and including the last US Government Securities Business Day in such period;

"Interest Determination Date" means, in respect of any Interest Period, the date falling "p" U.S. Government Securities Business Days prior to the Interest Payment Date for such Interest Period (or the date falling "p" U.S. Government Securities Business Days prior to such earlier date, if any, on which the Notes are due and payable);

" n_i " for any U.S. Government Securities Business Day "i" in the relevant Interest Period or Observation Period (as applicable), is the number of calendar days from, and including, such U.S. Government Securities Business Day "i" to, but excluding, the following U.S. Government Securities Business Day (" **$i+1$** ");

"Observation Period" in respect of an Interest Period means the period from, and including, the date falling "p" U.S. Government Securities Business Days preceding the first day in such Interest Period (and the first Interest Period shall begin on and include the Interest Commencement Date) to, but excluding, the date falling "p" U.S. Government Securities Business Days preceding the Interest Payment Date for such Interest Period (or the date falling "p" U.S. Government Securities Business Days prior to such earlier date, if any, on which the Notes become due and payable);

"p" for any Interest Period or Observation Period (as applicable) means the number of U.S. Government Securities Business Days specified as the "Lag Period" or the "Observation Shift Period" (as applicable) in the relevant Final Terms or if no such period is specified, five U.S. Government Securities Business Days;

"SOFR" with respect to any U.S. Government Securities Business Day, means:

- (a) the Secured Overnight Financing Rate published for such U.S. Government Securities Business Day as such rate appears on the SOFR Administrator's Website at 3:00 p.m. (New York time) on the immediately following U.S. Government Securities Business Day (the "**SOFR Determination Time**"); or
- (b) Subject to Condition 7(f)(iv) below, if the rate specified in (i) above does not so appear, the Secured Overnight Financing Rate as published in respect of the first preceding U.S. Government Securities Business Day for which the Secured Overnight Financing Rate was published on the SOFR Administrator's Website;

"SOFR Administrator" means the Federal Reserve Bank of New York (or a successor administrator of the Secured Overnight Financing Rate);

"SOFR Administrator's Website" means the website of the Federal Reserve Bank of New York, or any successor source;

"SOFR_i" means the SOFR for:

- (a) where "Lag" is specified as the Observation Method in the applicable Final Terms, the U.S. Government Securities Business Day falling "p" U.S. Government Securities Business Days prior to the relevant U.S. Government Securities Business Day "i"; or
- (b) where "Observation Shift" is specified as the Observation Method in the relevant Final Terms, the relevant U.S. Government Securities Business Day "i"; and

"U.S. Government Securities Business Day" means any day except for a Saturday, a Sunday or a day on which the Securities Industry and Financial Markets Association recommends that the fixed income departments of its members be closed for the entire day for purposes of trading in U.S. government securities.

- (iv) If the Issuer determines on or prior to the relevant Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to the then-current Benchmark, the Benchmark Replacement will replace the then-current Benchmark for all purposes relating to the Notes in respect of all determinations on such date and for all determinations on all subsequent dates. In connection with the implementation of a Benchmark Replacement, the Issuer will have the right to make Benchmark Replacement Conforming Changes from time to time, without any requirement for the consent or approval of the Noteholders.

Any determination, decision or election that may be made by the Issuer pursuant to this section, including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection:

- (a) will be conclusive and binding absent manifest error;
- (b) will be made in the sole discretion of the Issuer; and
- (c) notwithstanding anything to the contrary in the documentation relating to the Notes, shall become effective without consent from the holders of the Notes or any other party.

"Benchmark" means, initially, Compounded SOFR, as such term is defined above; provided that if the Issuer determines on or prior to the Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to Compounded SOFR (or the published daily SOFR used in the calculation thereof) or the then-current Benchmark, then "Benchmark" shall mean the applicable Benchmark Replacement.

"Benchmark Replacement" means the first alternative set forth in the order below that can be determined by the Issuer as of the Benchmark Replacement Date:

- (a) the sum of: (A) the alternate rate of interest that has been selected or recommended by the Relevant Governmental Body as the replacement for the then-current Benchmark and (B) the Benchmark Replacement Adjustment;
- (b) the sum of: (A) the ISDA Fallback Rate and (B) the Benchmark Replacement Adjustment; or
- (c) the sum of: (A) the alternate rate of interest that has been selected by the Issuer as the replacement for the then-current Benchmark giving due consideration to any industry-accepted rate of interest as a replacement for the then-current Benchmark for U.S. dollar-denominated floating rate notes at such time and (B) the Benchmark Replacement Adjustment;

"Benchmark Replacement Adjustment" means the first alternative set forth in the order below that can be determined by the issuer or its designee as of the Benchmark Replacement Date:

- (a) the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected or recommended by the Relevant Governmental Body for the applicable Unadjusted Benchmark Replacement;
- (b) if the applicable Unadjusted Benchmark Replacement is equivalent to the ISDA Fallback Rate, the ISDA Fallback Adjustment; or
- (c) the spread adjustment (which may be a positive or negative value or zero) that has been selected by the Issuer giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current Benchmark with the applicable Unadjusted Benchmark Replacement for U.S. dollar-denominated floating rate notes at such time;

"Benchmark Replacement Conforming Changes" means, with respect to any Benchmark Replacement, any technical, administrative or operational changes (including changes to the timing and frequency of determining rates and making payments of interest, rounding of amounts or tenors, and other administrative matters) that the Issuer decides may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or, if the Issuer decides that adoption of any portion of such market practice is not administratively feasible or if the Issuer determines that no market practice for use of the Benchmark Replacement exists, in such other manner as the Issuer determines is reasonably necessary);

"Benchmark Replacement Date" means the earliest to occur of the following events with respect to the then-current Benchmark (including the daily published component used in the calculation thereof):

- (a) in the case of clause (a) or (b) of the definition of "Benchmark Transition Event," the later of (i) the date of the public statement or publication of information referenced therein and (ii) the date on which the administrator of the Benchmark permanently or indefinitely ceases to provide the Benchmark (or such component); or
- (b) in the case of clause (c) of the definition of "Benchmark Transition Event," the date of the public statement or publication of information referenced therein.

For the avoidance of doubt, if the event that gives rise to the Benchmark Replacement Date occurs on the same day as, but earlier than, the Reference Time in respect of any determination, the Benchmark Replacement Date will be deemed to have occurred prior to the Reference Time for such determination;

"Benchmark Transition Event" means the occurrence of one or more of the following events with respect to the then-current Benchmark (including the daily published component used in the calculation thereof):

- (a) a public statement or publication of information by or on behalf of the administrator of the Benchmark (or such component) announcing that such administrator has ceased or will cease to provide the Benchmark (or such component), permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark (or such component); or
- (b) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark (or such component), the central bank for the currency of the Benchmark (or such component), an insolvency official with jurisdiction over the administrator for the Benchmark (or such component), a resolution authority with jurisdiction over the administrator for the Benchmark

(or such component) or a court or an entity with similar insolvency or resolution authority over the administrator for the Benchmark, which states that the administrator of the Benchmark (or such component) has ceased or will cease to provide the Benchmark (or such component) permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark (or such component);
or

- (c) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark announcing that the Benchmark is no longer representative or as of a specified future date will no longer be, representative of the underlying market and economic reality that such benchmark is intended to measure and that representativeness will not be restored;

"ISDA Fallback Adjustment" means the spread adjustment (which may be a positive or negative value or zero) that would apply for derivatives transactions referencing the ISDA Definitions to be determined upon the occurrence of an index cessation event with respect to the Benchmark;

"ISDA Fallback Rate" means the rate that would apply for derivatives transactions referencing the ISDA Definitions to be effective upon the occurrence of an index cessation date with respect to the Benchmark for the applicable tenor excluding the applicable ISDA Fallback Adjustment;

"Reference Time" with respect to any determination of the Benchmark means (i) if the Benchmark is Compounded SOFR, the SOFR Determination Time, and (ii) if the Benchmark is not Compounded SOFR, the time determined by the Issuer after giving effect to the Benchmark Replacement Conforming Changes;

"Relevant Governmental Body" means the Federal Reserve Board and/or the Federal Reserve Bank of New York, or a committee officially endorsed or convened by the Federal Reserve Board and/or the Federal Reserve Bank of New York or any successor thereto; and

"Unadjusted Benchmark Replacement" means the Benchmark Replacement excluding the Benchmark Replacement Adjustment.

- (v) Any Benchmark Replacement, Benchmark Replacement Adjustment and the specific terms of any Benchmark Replacement Conforming Changes, determined under Condition 7(f)(iv) above will be notified promptly by the Issuer to the Fiscal Agent, the Calculation Agent, the Paying Agents and, in accordance with Condition 18 (*Notices*), the Noteholders. Such notice shall be irrevocable and shall specify the effective date on which such changes take effect.

No later than notifying the Fiscal Agent of the same, the Issuer shall deliver to the Fiscal Agent a certificate signed by two authorised signatories of the Issuer:

- (A) confirming (x) that a Benchmark Transition Event has occurred, (y) the relevant Benchmark Replacement and, (z) where applicable, any Benchmark Replacement Adjustment and/or the specific terms of any relevant Benchmark Replacement Conforming Changes, in each case as determined in accordance with the provisions of this Condition 7(f); and
 - (B) certifying that the relevant Benchmark Replacement Conforming Changes are necessary to ensure the proper operation of such Benchmark Replacement and/or Benchmark Replacement Adjustment.
- (vi) Subject to Condition 7(n) (*Benchmark Discontinuation*), if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this Condition 7(f), the Rate of Interest shall be (A) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period,

the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period) or (B) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to the Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin applicable to the first Interest Period).

(g) *Interest – Floating Rate Notes referencing €STR (Screen Rate Determination)*

- (i) This Condition 7(g) is applicable to the Notes only if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable, Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, and the "Reference Rate" is specified in the relevant Final Terms as being "€STR".
- (ii) Where "€STR" is specified as the Reference Rate in the Final Terms, the Rate of Interest for each Interest Period will, subject as provided below, be Compounded Daily €STR plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent on each Interest Determination Date.
- (iii) For the purposes of this Condition 7(g):

"**Compounded Daily €STR**" means, with respect to any Interest Period, the rate of return of a daily compound interest investment (with the daily euro short-term rate as reference rate for the calculation of interest) as calculated by the Calculation Agent as at the relevant Interest Determination Date in accordance with the following formula (and the resulting percentage will be rounded if necessary to the nearest fifth decimal place, with 0.000005 being rounded upwards):

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{\text{€STR}_i \times n_i}{D} \right) - 1 \right] \times \frac{D}{d}$$

where:

"**d**" means the number of calendar days in:

Settlement Day (in each case, at the time specified by, or determined in accordance with, the applicable methodology, policies or guidelines, of the European Central Bank or the successor administrator of such rate);

"€STR_i" means the €STR reference rate for:

- (a) where "Lag" is specified as the Observation Method in the relevant Final Terms, the TARGET Settlement Day falling "p" TARGET Settlement Days prior to the relevant TARGET Settlement Day "i"; or

"i" is a series of whole numbers from one to "d_o", each representing the relevant TARGET Settlement Day in chronological order from, and including, the first TARGET Settlement Day in:

- (a) where "Lag" is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (b) where "Observation Shift" is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

to, and including, the last TARGET Settlement Day in such period;

"**Interest Determination Date**" means, in respect of any Interest Period, the date falling "p" TARGET Settlement Days prior to the Interest Payment Date for such Interest Period (or the date falling "p" TARGET Settlement Days prior to such earlier date, if any, on which the Notes are due and payable);

"**p**" for any latest Interest Period or Observation Period (as applicable), means the number of TARGET Settlement Days specified as the "Lag Period" or the "Observation Shift Period" (as applicable) in the relevant Final Terms or, if no such period is specified, five TARGET Business Days.

- (iv) Subject to Condition 7(n) (*Benchmark Discontinuation*), if, where any Rate of Interest is to be calculated pursuant to Condition 7(g)(ii) above, in respect of any TARGET Settlement Day in respect of which an applicable €STR reference rate is required to be determined, such €STR reference rate is not made available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, then the €STR reference rate in respect of such TARGET Settlement Day shall be the €STR reference rate for the first preceding TARGET Settlement Day in respect of which €STR reference rate was published by the European Central Bank on its website, as determined by the Calculation Agent.
- (v) Subject to Condition 7(n) (*Benchmark Discontinuation*), if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this Condition 7(g)(v), the Rate of Interest shall be (A) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to

the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period) or (B) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to the Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin applicable to the first Interest Period).

(h) *Interest – SONIA Compounded Index and SOFR Compounded Index (Screen Rate Determination)*

This Condition 7(h) is applicable to the Notes only if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable, Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, and "Index Determination" is specified in the relevant Final Terms as being applicable.

Where "Index Determination" is specified in the relevant Final Terms as being applicable, the Rate of Interest for each Interest Period will be the compounded daily reference rate for the relevant Interest Period, calculated in accordance with the following formula:

$$\frac{(\text{Compounded Index End}}{\text{Compounded Index Start}} - 1) \times \frac{\text{Numerator}}{d}$$

and rounded to the Relevant Decimal Place, plus or minus the Margin (if any), all as determined and calculated by the Calculation Agent, where:

"**Compounded Index**" shall mean either the SONIA Compounded Index or the SOFR Compounded Index, as specified in the relevant Final Terms;

"**d**" is the number of calendar days from (and including) the day on which the relevant Compounded Index Start is determined to (but excluding) the day on which the relevant Compounded Index End is determined;

"**End**" means the relevant Compounded Index value on the day falling the Relevant Number of Index Days prior to the Interest Payment Date for such Interest Period, or such other date on which the relevant payment of interest falls due (but which by its definition or the operation of the relevant provisions is excluded from such Interest Period);

"**Numerator**" means, in the case of the SONIA Compounded Index, 365 and, in the case of the SOFR Compounded Index, 360;

"**Relevant Decimal Place**" shall, unless otherwise specified in the Final Terms, be the fifth decimal place in the case of the SONIA Compounded Index and the seventh decimal place in the case of the SOFR Compounded Index, in each case rounded up or down, if necessary (with 0.000005 or, as the case may be, 0.0000005 being rounded upwards);

"**Relevant Number**" is as specified in the applicable Final Terms, but, unless otherwise specified shall be five;

"**SONIA Compounded Index**" means the Compounded Daily SONIA rate as published at 10:00 (London time) by the Bank of England (or a successor administrator of SONIA) on the Bank of England's Interactive Statistical Database, or any successor source;

"**SOFR Compounded Index**" means the Compounded Daily SOFR rate as published at 15:00 (New York time) by Federal Reserve Bank of New York (or a successor administrator of SOFR) on the website of the Federal Reserve Bank of New York, or any successor source; and

"**Start**" means the relevant Compounded Index value on the day falling the Relevant Number of Index Days prior to the first day of the relevant Interest Period.

Provided that a Benchmark Event has not occurred in respect of the relevant Compounded Index, if, with respect to any Interest Period, the relevant rate is not published for the relevant Compounded Index either on the relevant Start or End date, then the Calculation Agent shall calculate the rate of interest for that Interest Period as if Index Determination was not specified in the applicable Final Terms and as if Compounded Daily SONIA or Compounded Daily SOFR (as defined in Condition 7(e) or Condition 7(f), as applicable) had been specified instead in the Final Terms, and in each case "Observation Shift" had been specified as the Observation Method in the relevant Final Terms, and where the Observation Shift Period for the purposes of that definition in Condition 7(e) or Condition 7(f) (as applicable) shall be deemed to be the same as the Relevant Number specified in the Final Terms and where, in the case of Compounded Daily SONIA, the Relevant Screen Page will be determined by the Issuer. For the avoidance of doubt, if a Benchmark Event has occurred in respect of the relevant Compounded Index, the provisions of Condition 7(n) (*Benchmark Discontinuation*) shall apply.

- (i) *Maximum or Minimum Rate of Interest*: If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.
- (j) *Calculation of Interest Amount*: The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant Note divided by the Calculation Amount. For this purpose a "sub-unit" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.
- (k) *Calculation of other amounts*: If the relevant Final Terms specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Final Terms.
- (l) *Publication*: The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Paying Agents and each competent authority, stock exchange and/or quotation system (if any) by which the Bearer Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period. If the Calculation Amount is less than the minimum Specified Denomination the Calculation Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Note having the minimum Specified Denomination.
- (m) *Notifications etc*: All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Guarantors, the Paying Agents, the Noteholders and the Couponholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.
- (n) *Benchmark Discontinuation*: Other than in the case of a U.S. dollar-denominated floating rate Note for which the Reference Rate is specified in the relevant Final Terms as being "SOFR", if a Benchmark Event occurs in relation to the Reference Rate when the Rate of Interest (or any component part thereof) for any Interest Period remains to be determined by reference to such Reference Rate, then the Issuer shall use its reasonable endeavours to appoint an Independent

Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with this Condition 7(n) and, in either case, an Adjustment Spread, if any (in accordance with this Condition 7(n)) and any Benchmark Amendments (in accordance with Condition this 7(n)).

In the absence of bad faith or fraud, the Independent Adviser shall have no liability whatsoever to the Issuer, the Fiscal Agent, or the Noteholders for any determination made by it pursuant to this Condition 7(n).

If (i) the Issuer is unable to appoint an Independent Adviser or (ii) the Independent Adviser appointed by it fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 7(n) prior to the relevant Interest Determination Date, the Reference Rate applicable to the immediately following Interest Period shall be the Reference Rate applicable as at the last preceding Interest Determination Date. If there has not been a first Interest Payment Date, the Reference Rate shall be the Reference Rate applicable to the first Interest Period. For the avoidance of doubt, any adjustment pursuant to this Condition 7(n) shall apply to the immediately following Interest Period only. Any subsequent Interest Period may be subject to the subsequent operation of this Condition 7(n).

If the Independent Adviser and the Issuer agree that:

- (A) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 7(n)) subsequently be used in place of the Reference Rate to determine the Rate of Interest for the immediately following Interest Period and all following Interest Periods, subject to the subsequent operation of this Condition 7(n) in the event of a further Benchmark Event affecting the Successor Rate; or
- (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in Condition 7(n)) subsequently be used in place of the Reference Rate to determine the Rate of Interest for the immediately following Interest Period and all following Interest Periods, subject to the subsequent operation of this Condition 7(n) in the event of a further Benchmark Event affecting the Alternative Rate.

If the Independent Adviser and the Issuer agree (A) that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and (B) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall apply to the Successor Rate or the Alternative Rate (as the case may be).

If any relevant Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 7(n) and the Independent Adviser and the Issuer agree (i) that amendments to these Conditions are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (such amendments, the "**Benchmark Amendments**") and (ii) the terms of the Benchmark Amendments, then the Issuer shall, following consultation with the Calculation Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest and the Interest Amount(s)), subject to giving notice thereof in accordance with Condition 7(n), without any requirement for the consent or approval of relevant Noteholders, vary these Conditions to give effect to such Benchmark Amendments with effect from the date specified in such notice (and for the avoidance of doubt, the Fiscal Agent shall, at the direction and expense of the Issuer, consent to and effect such consequential amendments to the Fiscal Agency Agreement and these Conditions as may be required in order to give effect to this Condition 7(n)).

Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 7(n) will be notified promptly by the Issuer to the Fiscal Agent, the Calculation Agent, the Paying Agents and, in accordance with Condition 18 (*Notices*), the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

No later than notifying the Fiscal Agent of the same, the Issuer shall deliver to the Fiscal Agent a certificate signed by two authorised signatories of the Issuer:

- (A) confirming (x) that a Benchmark Event has occurred, (y) the relevant Successor Rate, or, as the case may be, the relevant Alternative Rate and, (z) where applicable, any relevant Adjustment Spread and/or the specific terms of any relevant Benchmark Amendments, in each case as determined in accordance with the provisions of this Condition 7(n); and
- (B) certifying that the relevant Benchmark Amendments are necessary to ensure the proper operation of such relevant Successor Rate, Alternative Rate and/or Adjustment Spread.

The Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error or bad faith in the determination of such Successor Rate or Alternative Rate and such Adjustment Spread (if any) and such Benchmark Amendments (if any)) be binding on the Issuer, the Fiscal Agent, the Calculation Agent, the other Paying Agents and the Noteholders.

Notwithstanding any other provision of this Condition 7(n), the Calculation Agent or any Paying Agent is not obliged to concur with the Issuer or the Independent Adviser in respect of any changes or amendments as contemplated under this Condition 7(n), which, in the sole and reasonable opinion of the Calculation Agent or the relevant Paying Agent, as the case may be, would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Calculation Agent or the relevant Paying Agent (as applicable) in the Fiscal Agency Agreement and/or these Conditions.

As used in this Condition 7(n):

"Adjustment Spread" means either a spread (which may be positive or negative), or the formula or methodology for calculating a spread, in either case, which the Independent Adviser determines is required to be applied to the relevant Successor Rate or the relevant Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (A) in the case of a Successor Rate, is formally recommended, or formally provided as an option for parties to adopt, in relation to the replacement of the Reference Rate with the Successor Rate by any Relevant Nominating Body; or
- (B) (if no such recommendation has been made, or in the case of an Alternative Rate), the Independent Adviser, determines is customarily applied to the relevant Successor Rate or Alternative Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the Reference Rate; or
- (C) (if no such determination has been made) the Independent Adviser determines, is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be); or
- (D) (if the Independent Adviser determines that no such industry standard is recognised or acknowledged) the Independent Adviser determines to be appropriate to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders as a result of the replacement of the Reference Rate with the Successor Rate or the Alternative Rate (as the case may be).

"Alternative Rate" means an alternative benchmark or screen rate which the Independent Adviser determines in accordance with this Condition 7(n) is customary in market usage in the international debt capital markets for the purposes of determining floating rates of interest (or the relevant component part thereof) for a commensurate period and in the Specified Currency.

- E. a public statement by the supervisor of the administrator of the relevant Reference Rate (as applicable) that, in the view of such supervisor, such Reference Rate is or will, by a specified future date (the "**Specified Future Date**") be no longer representative of an underlying market; or
- F. it has or will, by a specified date within the following six months, become unlawful for the Calculation Agent to calculate any payments due to be made to any Noteholder using the relevant Reference Rate (as applicable) (including, without limitation, under the EU Benchmarks Regulation, if applicable).

Notwithstanding the sub-paragraphs above, where the relevant Benchmark Event is a public statement within sub-paragraphs (B), (C), (D) or (E) above and the Specified Future Date in the public statement is more than six months after the date of that public statement, the Benchmark Event shall not be deemed to occur until the date falling six months prior to such Specified Future Date.

"**Independent Adviser**" means an independent financial institution of international repute or other independent financial adviser experienced in the international capital markets, in each case appointed by the Issuer at its own expense under this Condition 7(n).

Upon the expiry of any such notice as is referred to in this Condition 8(b) (*Redemption and Purchase – Redemption for tax reasons*), the Issuer shall be bound to redeem the Bearer Notes in accordance with this Condition 8(b) (*Redemption and Purchase – Redemption for tax reasons*).

Such a meeting may be convened by the Issuer and the Guarantor (acting together) and shall be convened by them upon the request in writing of Noteholders holding not less than one-tenth of the aggregate principal amount of the outstanding Bearer Notes. The quorum at any meeting convened to vote on an Extraordinary Resolution will be two or more persons holding or representing one more than half of the aggregate principal amount of the outstanding Bearer Notes or, at any adjourned meeting, two or more persons being or representing Noteholders whatever the principal amount of the Bearer Notes held or represented; *provided, however, that* Reserved Matters may only be sanctioned by an Extraordinary Resolution passed at a meeting of Noteholders at which two or more Persons holding or representing not less than three-quarters or, at any adjourned meeting, one quarter of the aggregate principal amount of the outstanding Bearer Notes form a quorum. Any Extraordinary Resolution duly passed at any such meeting shall be binding on all the Noteholders and Couponholders, whether present or not.

In addition, a resolution in writing signed by or on behalf of all Noteholders who for the time being are entitled to receive notice of a meeting of Noteholders will take effect as if it were an Extraordinary Resolution. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

- (b) *Modification:* The Bearer Notes, these Conditions, the Deed of Guarantee and the Deed of Covenant may be amended without the consent of the Noteholders or the Couponholders to correct a manifest error. 16 Substitution

Each of the Guarantors or any of their Subsidiaries (as defined below) (each a "**Substitute Obligor**") may, without the consent of the Holders of any Bearer Notes, Receipts or Coupons, assume the obligations of the Issuer (or any previous Substitute Obligor) under and in respect of any Bearer Notes upon:

- (a) *Deed poll:* the execution of a deed poll (the "**Deed Poll**") by the Substitute Obligor and (if the Substitute Obligor is not either of the Guarantors) the Guarantors (or by such of the Guarantors as is not the Substitute Obligor) in a form which gives full effect to such assumption and which includes (without limitation):
- (i) a covenant by the Substitute Obligor in favour of the Holders of the Bearer Notes to be bound by these Terms and Conditions, the Bearer Notes, the Receipts, the Coupons, the Deed of Covenant and the Fiscal Agency Agreement, with any consequential amendments, as if it had been named herein and therein as the principal debtor in place of the Issuer, and such other deeds, documents and instruments (if any) in order for the substitution to be fully effective and for the Substitute Guarantor to be bound by all of the Issuer's obligations;
 - (ii) a warranty and representation (A) that the Substituted Obligor has obtained all necessary governmental and regulatory approvals and consents necessary for such substitution and for the performance by the Substituted Obligor of its obligations under the Deed Poll and under any other documents required to give full effect to the substitution, (B) that all such approvals and consents are in full force and effect, and (C) that the obligations assumed by the Substituted Obligor are valid and binding in accordance with their respective terms and enforceable by each Holder of the Bearer Notes; and
 - (iii) a covenant by the Substitute Obligor and (if the Substitute Obligor is not either of the Guarantors) each of the Guarantors (or by such of the Guarantors as is not the Substitute Obligor) to indemnify and hold harmless each Holder against all taxes or duties which arise by reason of a law or regulation having legal effect or being in reasonable contemplation thereof on the date such substitution becomes effective, which may be incurred or levied against such Holder as a result of any substitution pursuant to this

Condition 16 (*Substitution*) and which would not have been so incurred or levied had such substitution not been made (and, without limiting the generality of the foregoing, any and all taxes or duties which are imposed on any such Holder by any political sub-division or taxing authority of any country in which such Holder resides or is subject to any such tax or duty and which would not have been so imposed had such substitution not been made); and

- (iv) an acknowledgment of the right of all Holders of the Bearer Notes to the production of the Deed Poll.
- (b) *Deed of Guarantee*: if the Substitute Obligor is not either of the Guarantors, the execution of a deed of guarantee (the "**Substitute Guarantee**" hereinafter for the purpose of this Condition 16 (*Substitution*) only) by each of the Guarantors (or by such of the Guarantors as is not the Substitute Obligor) on substantially the same terms as the Deed of Guarantee pursuant to which it undertakes to guarantee the performance of the obligations of the Substitute Obligor under the Deed Poll, the Terms and Conditions of the Bearer Notes and any other documents required to give full effect to the substitution.
- (c) *Legal opinion*: the delivery by the Issuer to the Fiscal Agent of an opinion of independent legal advisers of recognised standing to the effect that:
 - (i) the Deed Poll constitutes legal, valid, binding and enforceable obligations of the Substitute Obligor and, if the Substitute Obligor is not either of the Guarantors, the Guarantors (or by such of the Guarantors as is not the Substitute Obligor);
 - (ii) the Bearer Notes constitute legal, valid, binding and enforceable obligations of the Substitute Obligor; and
 - (iii) if the Substitute Obligor is not either of the Guarantors, the Substitute Guarantee constitutes legal, valid, binding and enforceable obligations of the Guarantors in respect of all sums from time to time payable by the Substitute Obligor in respect of the Bearer Notes.
- (d) *Taxation*: where the Substitute Obligor is subject to a different taxing jurisdiction (the "**Substituted Territory**") than that to which the Issuer is subject generally (the "**Issuer's Territory**"), the Substituted Obligor will give an undertaking in terms corresponding to Condition 10 (*Taxation*) with the substitution for the reference in that Condition to the Issuer's Territory of references to the Substituted Territory;
- (e) *Ratings*: an undertaking to the Holders to provide a written confirmation by two internationally recognised rating agencies that the substitution of the Substituted Obligor will not result in a downgrading of the then current credit rating of such rating agencies applicable to the class of debt represented by the Bearer Notes;
- (f) *Release of Issuer*: Not later than fourteen days after the execution of any such documents as aforesaid in paragraph (a), the Substituted Obligor shall cause notice thereof to be given to the Noteholders; and
- (g) *Completion of substitution*: Upon the execution of such documents and compliance with the requirements stated in this Condition 16 (*Substitution*), the Substituted Obligor will be deemed to be named in these Terms and Conditions, the Bearer Notes, Receipts and Coupons as if it had been named herein and therein as the principal debtor in place of the Issuer (or of any previous substitute under this Condition 16 (*Substitution*)) and the Bearer Notes, the Receipts and the Coupons will be deemed to be amended in such manner as necessary to give effect to the substitution and any references in the Bearer Notes, Receipts and Coupons to the Issuer will be references to the Substituted Obligor.

17 Further Issues

The Issuer may from time to time, without the consent of the Noteholders or the Couponholders, create and issue further Bearer Notes having the same terms and conditions as the Bearer Notes in all respects (or in all respects except for the first payment of interest) so as to form a single series with the Bearer Notes.

18 Notices

Notices to the Noteholders shall be valid if published in a leading English language daily newspaper published in London (which is expected to be the *Financial Times*) and, if the Bearer Notes are admitted to trading on the Luxembourg Stock Exchange and it is a requirement of applicable law or regulations, a leading newspaper having general circulation in Luxembourg (which is expected to be *Luxemburger Wort*) or published on the website of the Luxembourg Stock Exchange (www.luxse.com) or in either case, if such publication is not practicable, in a leading English language daily newspaper having general circulation in Europe. Any such notice shall be deemed to have been given on the date of first publication (or if required to be published in more than one newspaper, on the first date on which publication shall have been made in all the required newspapers). Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the Noteholders.

19 Currency Indemnity

If any sum due from the Issuer in respect of the Bearer Notes or the Coupons or any order or judgment given or made in relation thereto has to be converted from the currency (the "**first currency**") in which the same is payable under these Conditions or such order or judgment into another currency (the "**second currency**") for the purpose of (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Bearer Notes, the Issuer shall indemnify each Noteholder, on the written demand of such Noteholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such Noteholder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof.

This indemnity constitutes a separate and independent obligation of the Issuer and shall give rise to a separate and independent cause of action.

20 Rounding

For the purposes of any calculations referred to in these Conditions (unless otherwise specified in these Conditions or the relevant Final Terms), (a) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 per cent. being rounded up to 0.00001 per cent.), (b) all United States dollar amounts used in or resulting from such calculations will be rounded to the nearest cent (with one half cent being rounded up), (c) all Japanese Yen amounts used in or resulting from such calculations will be rounded downwards to the next lower whole Japanese Yen amount, and (d) all amounts denominated in any other currency used in or resulting from such calculations will be rounded to the nearest two decimal places in such currency, with 0.005 being rounded upwards.

- (c) *Appropriate forum:* The Issuer agrees that the courts of England are the most appropriate and convenient courts to settle any Dispute and, accordingly, that it will not argue to the contrary.

If such person is not or ceases to be effectively appointed to accept service of process on behalf of the Issuer, the Issuer shall, on the written demand of any Noteholder addressed and delivered to the Issuer or to the Specified Office of the Fiscal Agent appoint a further person in England to accept service of process on its behalf and, failing such appointment within 15 days, any Noteholder shall be entitled to appoint such a person by written notice addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent. TERMS AND CONDITIONS OF THE BOOK-ENTRY NOTES

The following is the text of the terms and conditions which, as completed by the relevant Final Terms, will be applicable to the Book-entry Notes. The relevant Final Terms shall not amend or replace any information in this Base Prospectus. Subject to this, to the extent permitted by applicable law and/or regulation, the Final Terms in respect of any Tranche of Book-entry Notes may complete any information in this Base Prospectus.

1 Introduction

- (a) *Programme*: Red Eléctrica Financiaciones, Sociedad Anónima Unipersonal (the "**Issuer**") has established a Euro Medium Term Note Programme (the "**Programme**") for the issuance of up to EUR 5,000,000,000 in aggregate principal amount of book-entry notes (the "**Book-entry Notes**") guaranteed by Redeia Corporación, Sociedad Anónima and Red Eléctrica de España, Sociedad Anónima Unipersonal (each a "**Guarantor**" and together the "**Guarantors**").
- (b) *Final Terms*: Book-Entry Notes issued under the Programme are issued in series (each a "**Series**") and each Series may comprise one or more tranches (each a "**Tranche**") of Book-Entry Notes. Each Tranche is the subject of final terms (the "**Final Terms**") which complete these terms and conditions (the "**Book-Entry Conditions**"). The terms and conditions applicable to any particular Tranche of Book-Entry Notes are these Conditions as completed by the relevant Final Terms. In the event of any inconsistency between these Conditions and the relevant Final Terms, the relevant Final Terms shall prevail.
- (c) *Public Deed of Issuance*: as far as required by Law (or, otherwise, at the option of the Issuer) each Tranche of Book-Entry Notes will be constituted by virtue of a public deed of issuance (the "**Public Deed of Issuance**") to be executed before a Spanish notary public on or prior to the Issue Date.
- (d) *Agency Agreement*: The Book-entry Notes are the subject of an amended and restated fiscal agency agreement dated 13 June 2022 (the "**Fiscal Agency Agreement**") between the Issuer, the Guarantors, Deutsche Bank AG, London Branch as fiscal agent (the "**Fiscal Agent**", which expression includes any successor fiscal agent appointed from time to time in connection with the Book-Entry Notes), the paying agents named therein (together with the Fiscal Agent, the "**Paying Agents**", which expression includes any successor or additional paying agents appointed from time to time in connection with the Book-Entry Notes) and Deutsche Bank, S.A.E. Unipersonal as local paying agent (the "**Local Paying Agent**").
- (e) *Deed of Covenant*: The Book-entry Notes have the benefit of an English law-governed Deed of Covenant (the "**Book-entry Deed of Covenant**") entered into by the Issuer on or around the date of this Base Prospectus to which these Book-entry Conditions will be affixed. In the Book-entry Deed of Covenant, the Issuer has covenanted in favour of each Noteholder (as defined below) that it will duly perform and comply with the obligations expressed to be undertaken by it in these Book-entry Conditions. The benefit of the Book-entry Deed of Covenant will not imply that the Book-entry Notes benefit from a security interest or that they have a higher ranking than other unsecured and unsubordinated obligations of the Issuer.
- (f) *Deed of Guarantee*: The Notes are the subject of a deed of guarantee dated 13 June 2022 (the "**Deed of Guarantee**") entered into by the Guarantors.
- (g) *The Notes*: All subsequent references in these Book-Entry Conditions to "**Book-Entry Notes**" are to the Book-Entry Notes which are the subject of the relevant Final Terms. Copies of the relevant Final Terms are available for viewing during normal business hours at the Specified Office of the Fiscal Agent, the initial Specified Office of which is set out below.
- (h) *Summaries*: Certain provisions of these Book-entry Conditions are summaries of the Fiscal Agency Agreement and are subject to its detailed provisions. The Noteholders (as defined below) are bound by, and are deemed to have notice of, all the provisions of the Fiscal Agency Agreement applicable to them. Copies of the Fiscal Agency Agreement are available for inspection by Noteholders during normal business hours at the Specified Office of the Fiscal Agent, the initial Specified Office of which is set out below.

3.3 Title and transfer

Title to the Book-entry Notes will be evidenced by book-entries and each person shown in the central registry managed (the "**Spanish Central Registry**") by Iberclear and in the registries maintained by the respective participating entities (*entidades participantes*) in Iberclear (the "**Iberclear Members**") as being the holder of the Book-entry Notes shall be considered the holder of the principal amount of the Book-entry Notes recorded therein. One or more certificates (each, a "**Certificate**") attesting to the relevant Noteholder's holding of the Book-entry Notes in the relevant registry will be delivered by the relevant Iberclear Member or, where the Holder is itself an Iberclear Member, by Iberclear (in each case, in accordance with the requirements

Each Holder will be (except as otherwise required by Spanish law) treated as the legitimate owner (*titular legítimo*) of the relevant Book-entry Notes for all purposes (whether or not it is overdue and regardless of any notice of ownership, trust or any interest or any writing on, or the theft or loss of, the Certificate issued in respect of it) and no person will be liable for so treating the Holder.

4 Status of the Book-entry Notes and Guarantee

The restated text of the Insolvency Law, approved by Royal Legislative Decree 1/2020, of 5 May (the "**Insolvency Law**") provides, among other things, that:

- (i) any claim may become subordinated if it is not reported to the insolvency administrators within one month from the last official publication of the court order declaring the insolvency. If the insolvency proceeding is declared as abridged, the term to report may be reduced to fifteen days;
 - (ii) provisions in a contract granting one party the right to terminate by reason only of the other's insolvency may not be enforceable;
 - (iii) interest (other than any interest accruing under secured liabilities up to an amount equal to the value of the assets subject to the security) accrued and unpaid until the declaration of the insolvency proceedings (*concurso de acreedores*) shall become subordinated; and
 - (iv) accrual of interest (other than ordinary interest accruing under secured liabilities up to an amount equal to the value of the asset subject to the security and only if certain conditions are met) shall be suspended from the date of the declaration of insolvency.
- (a) Status of the Book-entry Notes:

The Book-entry Notes constitute direct, general, unconditional, unsubordinated and (subject to the provisions of Condition 5 (*Negative Pledge*) unsecured obligations of the Issuer which (unless they qualify as subordinated credits under Article 281 of the Insolvency Law) in the event of the insolvency (*concurso de acreedores*) of the Issuer will at all times rank *pari passu* among themselves and at least *pari passu* with all other present and future unsecured and unsubordinated obligations of the Issuer, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application, and in particular, save for such payment obligations that are preferred by law under Articles 242, 270 and 280 of the Insolvency Law.

In the event of the insolvency (*concurso de acreedores*) of the Issuer, under the Insolvency Law, and assuming that the Book-entry Notes continue being unsecured, claims relating to the Book-entry Notes (unless they qualify as subordinated credits under Article 281 of the Insolvency Law) will be ordinary credits (*créditos ordinarios*) as defined in the Insolvency Law. Ordinary credits rank below credits against the insolvency estate (*créditos contra la masa*) and credits with a privilege (*créditos privilegiados*). Ordinary credits rank above subordinated credits. Accrued and unpaid interest due in respect of the Book-entry Notes at the commencement of an insolvency proceeding (*concurso de acreedores*) of the Issuer will qualify as subordinated credits. Under Spanish law and except as described above, accrual of interest on the Book-entry Notes shall be suspended from the date of any declaration of insolvency.

(b) Status of the Guarantee:

The Guarantors have in the Deed of Guarantee unconditionally and irrevocably guaranteed the due and punctual payment of all sums from time to time payable by the Issuer in respect of the Book-entry Notes.

This Guarantee of the Book-entry Notes constitutes direct, general, unsubordinated and (subject to the provisions of Condition 5 (*Negative Pledge*) unsecured obligations of the Guarantors which (unless they qualify as subordinated credits under Article 281 of the Insolvency Law) in the event of the insolvency (*concurso de acreedores*) of the Guarantors will at all times rank at least *pari passu* with all other present and future unsecured and unsubordinated obligations of the Guarantors, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application, and in particular, save for such payment obligations that are preferred by law under Articles 242, 270 and 280 of the Insolvency Law.

5 Negative Pledge

So long as any Note remains outstanding neither the Issuer nor the Guarantors shall create or permit to subsist any Security Interest (other than Permitted Security Interest) upon the whole or any part of its present or future undertaking, assets or revenues (including uncalled capital) to secure any Relevant Indebtedness or Guarantee of Relevant Indebtedness without (i) at the same time or prior thereto securing the Book-entry Notes equally and rateably therewith, or (ii) providing such other security for the Book-entry Notes as may be approved by an Extraordinary Resolution of Noteholders.

Permitted Security Interest means: (i) any Security Interest created in respect of any Relevant Indebtedness of a company which has merged with the Issuer, any of the Guarantors or one of its or their Subsidiaries or which has been acquired by the Issuer, any of the Guarantors or one of its or their Subsidiaries, provided that such security was already in existence at the time of the merger or the acquisition, was not created for the purpose of financing the merger or the acquisition and is not increased in amount and not extended following the merger or the acquisition; and (ii) any Security Interest arising pursuant to any mandatory provision of law other than as a result of any action taken by the Issuer or any of the Guarantors in their ordinary course of business.

- (a) *Application:* This Condition 6 (*Fixed Rate Note Provisions*) is applicable to the Book-entry Notes only if the Fixed Rate Note Provisions are specified in the relevant Final Terms as being applicable.
- (b) *Accrual of interest:* The Book-entry Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 9 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 6 (*Fixed Rate Note Provisions*) (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Book-entry Notes up to such seventh day (except to the extent that there is any subsequent default in payment).
- (c) *Fixed Coupon Amount:* The amount of interest payable in respect of each Note for any Interest Period shall be the relevant Fixed Coupon Amount.
- (d) *Calculation of interest amount:* The amount of interest payable in respect of each Note for any period for which a Fixed Coupon Amount is not specified shall be calculated by applying the Rate of Interest to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of such Note divided by the Calculation Amount. For this purpose a "**sub-unit**" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

7 Floating Rate Note Provisions

- (a) *Application:* This Condition 7 (*Floating Rate Note Provisions*) is applicable to the Book-entry Notes only if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable.
- (b) *Accrual of interest:* The Book-entry Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 9 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Book-entry Notes up to such seventh day (except to the extent that there is any subsequent default in payment).
- (c) *Screen Rate Determination:* If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Book-entry Notes for each Interest Period will be (other than in respect of Book-entry Notes for which SONIA, SOFR and/or €STR or any related index is specified as the Reference Rate in the relevant Final Terms) determined by the Calculation Agent on the following basis:
- (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (ii) if Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight-line linear interpolation by reference to two rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date, where:
- (A) one rate shall be determined as if the Relevant Period were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and
- (B) the other rate shall be determined as if the Relevant Period were the period of time for which rates are available next longer than the length of the relevant Interest Period;
- provided, however, that* if no rate is available for a period of time next shorter or, as the case may be, next longer than the length of the relevant Interest Period, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate;
- (iii) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (iv) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
- (A) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
- (B) determine the arithmetic mean of such quotations; and

- (v) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; *provided however that* if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Book-entry Notes during such Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Book-entry Notes in respect of a preceding Interest Period.

- (d) *ISDA Determination*: If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Book-entry Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where "**ISDA Rate**" in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions (provided that in any circumstances where under the ISDA Definitions the Calculation Agent would be required to exercise any discretion, including the selection of any reference banks and seeking quotations from reference banks, when calculating the relevant ISDA Rate, the relevant determination(s) which require the Calculation Agent to exercise its discretion shall instead be made by the Issuer or its designee) and under which:

- (i) if the Final Terms specify either "2006 ISDA Definitions" or "2021 ISDA Definitions" as the applicable ISDA Definitions:

- (A) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;

- (C) the relevant Reset Date (as defined in the ISDA Definitions) unless otherwise specified in the relevant Final Terms, has the meaning given to it in the ISDA Definitions; and
- (D) if Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight-line linear interpolation by reference to two rates based on the relevant Floating Rate Option, where:
 - (1) one rate shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and
 - (2) the other rate shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period

provided, however, that if there is no rate available for a period of time next shorter than the length of the relevant Interest Period or, as the case may be, next longer than the length of the relevant Interest Period, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

- (E) if the specified Floating Rate Option is an Overnight Floating Rate Option (as defined in the ISDA Definitions), Compounding is specified to be applicable in the relevant Final Terms and:
- (1) if Compounding with Lookback is specified as the Compounding Method in the relevant Final Terms then (a) Compounding with Lookback is the Overnight Rate Compounding Method and (b) Lookback is the number of Applicable Business Days (as defined in the ISDA Definitions) specified in the relevant Final Terms;

- (F) if the specified Floating Rate Option is an Overnight Floating Rate Option (as defined in the ISDA Definitions), Averaging is specified to be applicable in the relevant Final Terms and:
- (1) if Averaging with Lookback is specified as the Averaging Method in the relevant Final Terms then (a) Averaging with Lookback is the Overnight Rate Averaging Method and (b) Lookback is the number of Applicable Business Days (as defined in the ISDA Definitions) specified in relevant Final Terms;
 - (2) if Averaging with Observation Period Shift is specified as the Averaging Method in the relevant Final Terms then (a) Averaging with Overnight Period Shift is the Overnight Rate Averaging Method, (b) Observation Period Shift is the number of Observation Period Shift Business Days (as defined in the ISDA Definitions) specified in the relevant Final Terms and (c) Observation Period Shift Additional Business Days (as defined in the ISDA Definitions), if applicable, are the days specified in the relevant Final Terms; or
 - (3) if Averaging with Lockout is specified as the Averaging Method in the relevant Final Terms then (a) Averaging with Lockout is the Overnight Rate Averaging Method, (b) Lockout is the number of Lockout Period Business Days (as defined in the ISDA Definitions) specified in the relevant Final Terms and (c) Lockout Period Business Days, if applicable, are the days specified in the relevant Final Terms; and

- (ii) Where "SONIA" is specified as the Reference Rate in the Final Terms, the Rate of Interest for each Interest Period will, subject as provided below, be Compounded Daily SONIA plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent.
- (iii) For the purposes of this Condition 7(e):

"**Compounded Daily SONIA**", with respect to an Interest Period, will be calculated by the Calculation Agent on each Interest Determination Date in accordance with the following formula, and the resulting percentage will be rounded, if necessary, to the fourth decimal place, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SONIA_i \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

"**d**" means the number of calendar days in:

- (a) where "Lag" is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (b) where "Observation Shift" is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

"**d₀**" means the number of London Banking Days in:

- (a) where "Lag" is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (b) where "Observation Shift" is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

"i" means a series of whole numbers from one to do, each representing the relevant London Banking Day in chronological order from, and including, the first London Banking Day in:

- (a) where "Lag" is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (b) where "Observation Shift" is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

to, and including , the last London Banking Day in such period;

"Interest Determination Date" means, in respect of any Interest Period, the date falling p London Banking Days prior to the Interest Payment Date for such Interest Period (or the date falling p London Banking Days prior to such earlier date, if any, on which the Notes are due and payable).

"London Banking Day" or **"LBD"** means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in London;

"n_i" for any London Banking Day "i", in the relevant Interest Period or Observation Period (as applicable) is the number of calendar days from, and including, such London Banking Day "i" up to, but excluding, the following London Banking Day;

"Observation Period" means, in respect of an Interest Period, the period from, and including, the date falling "p" London Banking Days prior to the first day of such Interest Period (and the first Interest Period shall begin on and include the Interest Commencement Date) and ending on, but excluding, the date which is "p" London Banking Days prior to the Interest Payment Date for such Interest Period (or the date falling "p" London Banking Days prior to such earlier date, if any, on which the Notes become due and payable);

"p" for any Interest Period or Observation Period (as applicable), means the number of London Banking Days specified as the "Lag Period" or the "Observation Shift Period" (as applicable) in the relevant Final Terms or if no such period is specified, five London Banking Days;

"SONIA Reference Rate" means, in respect of any London Banking Day, a reference rate equal to the daily Sterling Overnight Index Average ("**SONIA**") rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page (or if the Relevant Screen Page is unavailable, as otherwise is published by such authorised distributors) on the London Banking Day immediately following such London Banking Day; and

"SONIA_i" means the SONIA Reference Rate for:

- (a) where "Lag" is specified as the Observation Method in the relevant Final Terms, the London Banking Day falling "p" London Banking Days prior to the relevant London Banking Day "i"; or
- (b) where "Observation Shift" is specified as the Observation Method in the relevant Final Terms, the relevant London Banking Day "i".

For the avoidance of doubt, the formula for the calculation of Compounded Daily SONIA only compounds the SONIA Reference Rate in respect of any London Banking

Day. The SONIA Reference Rate applied to a day that is a non-London Banking Day will be taken by applying the SONIA Reference Rate for the previous London Banking Day but without compounding.

- (iv) If, in respect of any London Banking Day in the relevant Interest Period or Observation Period (as applicable), the Calculation Bank determines that the SONIA Reference Rate is not available on the Relevant Screen Page and has not otherwise been published by the relevant authorised distributors, such SONIA Reference Rate shall, subject to Condition 7(n) (*Benchmark Discontinuation*), be:
 - (A) the sum of (A) the Bank of England's Bank Rate (the "Bank Rate") prevailing at close of business on the relevant London Banking Day and (B) the mean of the spread of the SONIA Reference Rate to the Bank Rate over the previous five London Banking Days on which a SONIA Reference Rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate; or
 - (B) if the Bank Rate is not published by the Bank of England at close of business on the relevant London Banking Day, (a) the SONIA Reference Rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding London Banking Day on which the SONIA Reference Rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors), or (b) if this is more recent, the latest determined rate under (A).
- (v) Subject to Condition 7(n) (*Benchmark Discontinuation*), if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this Condition 7(e), the Rate of Interest shall be (A) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period) or (B) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to the Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin applicable to the first Interest Period).
- (f) *Interest – Floating Rate Notes referencing SOFR (Screen Rate Determination)*
 - (i) This Condition 7(f) is applicable to the Notes only if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable, Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, and the "Reference Rate" is specified in the relevant Final Terms as being "SOFR".
 - (ii) Where "SOFR" is specified as the Reference Rate in the Final Terms, the Rate of Interest for each Interest Period will, subject as provided below, be the Benchmark plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent on each Interest Determination Date.
 - (iii) For the purposes of this Condition 7(f):

"Benchmark" means Compounded SOFR, which is a compounded average of daily SOFR, as determined for each Interest Period in accordance with the specific formula and other provisions set out in this Condition 7(f).

Daily SOFR rates will not be published in respect of any day that is not a U.S. Government Securities Business Day, such as a Saturday, Sunday or holiday. For this reason, in determining Compounded SOFR in accordance with the specific formula and other provisions set forth herein, the daily SOFR rate for any U.S. Government

Securities Business Day that immediately precedes one or more days that are not U.S. Government Securities Business Days will be multiplied by the number of calendar days from and including such U.S. Government Securities Business Day to, but excluding, the following U.S. Government Securities Business Day.

If the Issuer determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred in respect of Compounded SOFR (or the daily SOFR used in the calculation hereof) prior to the relevant SOFR Determination Time, then the provisions under Condition 7(f)(iv) below will apply.

"Business Day" means any weekday that is a U.S. Government Securities Business Day and is not a legal holiday in New York and each (if any) Additional Business Centre(s) and is not a date on which banking institutions in those cities are authorised or required by law or regulation to be closed;

"Compounded SOFR" with respect to any Interest Period, means the rate of return of a daily compound interest investment computed in accordance with the following formula (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards to 0.00001):

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SOFR_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

"d" is the number of calendar days in:

- (a) where "Lag" is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or

to and including the last US Government Securities Business Day in such period;

"Interest Determination Date" means, in respect of any Interest Period, the date falling "p" U.S. Government Securities Business Days prior to the Interest Payment Date for such Interest Period (or the date falling "p" U.S. Government Securities Business Days prior to such earlier date, if any, on which the Notes are due and payable);

"n_i" for any U.S. Government Securities Business Day "i" in the relevant Interest Period or Observation Period (as applicable), is the number of calendar days from, and

"p" for any Interest Period or Observation Period (as applicable) means the number of U.S. Government Securities Business Days specified as the "Lag Period" or the "Observation Shift Period" (as applicable) in the relevant Final Terms or if no such period is specified, five U.S. Government Securities Business Days;

- (a) the Secured Overnight Financing Rate published for such U.S. Government Securities Business Day as such rate appears on the SOFR Administrator's Website at 3:00 p.m. (New York time) on the immediately following U.S. Government Securities Business Day (the **"SOFR Determination Time"**); or
- (b) Subject to Condition 7(f)(iv) below, if the rate specified in (i) above does not so appear, the Secured Overnight Financing Rate as published in respect of the first preceding U.S. Government Securities Business Day for which the Secured Overnight Financing Rate was published on the SOFR Administrator's Website;

"SOFR Administrator" means the Federal Reserve Bank of New York (or a successor administrator of the Secured Overnight Financing Rate);

"SOFR Administrator's Website" means the website of the Federal Reserve Bank of New York, or any successor source;

"SOFR_i" means the SOFR for:

- (a) where "Lag" is specified as the Observation Method in the applicable Final Terms, the U.S. Government Securities Business Day falling "p" U.S. Government Securities Business Days prior to the relevant U.S. Government Securities Business Day "i"; or
- (b) where "Observation Shift" is specified as the Observation Method in the relevant Final Terms, the relevant U.S. Government Securities Business Day "i"; and

- (iv) If the Issuer determines on or prior to the relevant Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to the then-current Benchmark, the Benchmark Replacement will replace the then-current Benchmark for all purposes relating to the Notes in respect of all determinations on such date and for all determinations on all subsequent dates. In connection with the implementation of a Benchmark Replacement, the Issuer will have the right to make Benchmark Replacement Conforming Changes from time to time, without any requirement for the consent or approval of the Noteholders.

Any determination, decision or election that may be made by the Issuer pursuant to this section, including any determination with respect to a tenor, rate or adjustment or

of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection:

- (a) will be conclusive and binding absent manifest error;
- (b) will be made in the sole discretion of the Issuer; and
- (c) notwithstanding anything to the contrary in the documentation relating to the Notes, shall become effective without consent from the holders of the Notes or any other party.

"Benchmark" means, initially, Compounded SOFR, as such term is defined above; provided that if the Issuer determines on or prior to the Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to Compounded SOFR (or the published daily SOFR used in the calculation thereof) or the then-current Benchmark, then "Benchmark" shall mean the applicable Benchmark Replacement.

"Benchmark Replacement" means the first alternative set forth in the order below that can be determined by the Issuer as of the Benchmark Replacement Date:

- (a) the sum of: (A) the alternate rate of interest that has been selected or recommended by the Relevant Governmental Body as the replacement for the then-current Benchmark and (B) the Benchmark Replacement Adjustment;
- (b) the sum of: (A) the ISDA Fallback Rate and (B) the Benchmark Replacement Adjustment; or
- (c) the sum of: (A) the alternate rate of interest that has been selected by the Issuer as the replacement for the then-current Benchmark giving due consideration to any industry-accepted rate of interest as a replacement for the then-current Benchmark for U.S. dollar-denominated floating rate notes at such time and (B) the Benchmark Replacement Adjustment;

"Benchmark Replacement Adjustment" means the first alternative set forth in the order below that can be determined by the issuer or its designee as of the Benchmark Replacement Date:

- (a) the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected or recommended by the Relevant Governmental Body for the applicable Unadjusted Benchmark Replacement;
- (b) if the applicable Unadjusted Benchmark Replacement is equivalent to the ISDA Fallback Rate, the ISDA Fallback Adjustment; or
- (c) the spread adjustment (which may be a positive or negative value or zero) that has been selected by the Issuer giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current Benchmark with the applicable Unadjusted Benchmark Replacement for U.S. dollar-denominated floating rate notes at such time;

"Benchmark Replacement Conforming Changes" means, with respect to any Benchmark Replacement, any technical, administrative or operational changes (including changes to the timing and frequency of determining rates and making payments of interest, rounding of amounts or tenors, and other administrative matters) that the Issuer decides may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or, if the Issuer decides that adoption of any portion of such market practice is not administratively feasible or if the Issuer determines that no market practice for use of the Benchmark

Replacement exists, in such other manner as the Issuer determines is reasonably necessary);

"Benchmark Replacement Date" means the earliest to occur of the following events with respect to the then-current Benchmark (including the daily published component used in the calculation thereof):

- (a) in the case of clause (a) or (b) of the definition of "Benchmark Transition Event," the later of (i) the date of the public statement or publication of information referenced therein and (ii) the date on which the administrator of the Benchmark permanently or indefinitely ceases to provide the Benchmark (or such component); or
- (b) in the case of clause (c) of the definition of "Benchmark Transition Event," the date of the public statement or publication of information referenced therein.

For the avoidance of doubt, if the event that gives rise to the Benchmark Replacement Date occurs on the same day as, but earlier than, the Reference Time in respect of any determination, the Benchmark Replacement Date will be deemed to have occurred prior to the Reference Time for such determination;

"Benchmark Transition Event" means the occurrence of one or more of the following events with respect to the then-current Benchmark (including the daily published component used in the calculation thereof):

- (a) a public statement or publication of information by or on behalf of the administrator of the Benchmark (or such component) announcing that such administrator has ceased or will cease to provide the Benchmark (or such component), permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark (or such component); or
- (b) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark (or such component), the central bank for the currency of the Benchmark (or such component), an insolvency official with jurisdiction over the administrator for the Benchmark (or such component), a resolution authority with jurisdiction over the administrator for the Benchmark (or such component) or a court or an entity with similar insolvency or resolution authority over the administrator for the Benchmark, which states that the administrator of the Benchmark (or such component) has ceased or will cease to provide the Benchmark (or such component) permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark (or such component); or
- (c) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark announcing that the Benchmark is no longer representative;

"ISDA Fallback Adjustment" means the spread adjustment (which may be a positive or negative value or zero) that would apply for derivatives transactions referencing the ISDA Definitions to be determined upon the occurrence of an index cessation event with respect to the Benchmark;

"ISDA Fallback Rate" means the rate that would apply for derivatives transactions referencing the ISDA Definitions to be effective upon the occurrence of an index cessation date with respect to the Benchmark for the applicable tenor excluding the applicable ISDA Fallback Adjustment;

"Reference Time" with respect to any determination of the Benchmark means (i) if the Benchmark is Compounded SOFR, the SOFR Determination Time, and (ii) if the

Benchmark is not Compounded SOFR, the time determined by the Issuer after giving effect to the Benchmark Replacement Conforming Changes;

"Relevant Governmental Body" means the Federal Reserve Board and/or the Federal Reserve Bank of New York, or a committee officially endorsed or convened by the Federal Reserve Board and/or the Federal Reserve Bank of New York or any successor thereto; and

"Unadjusted Benchmark Replacement" means the Benchmark Replacement excluding the Benchmark Replacement Adjustment.

- (v) Any Benchmark Replacement, Benchmark Replacement Adjustment and the specific terms of any Benchmark Replacement Conforming Changes, determined under Condition 7(f)(iv) above will be notified promptly by the Issuer to the Fiscal Agent, the Calculation Agent, the Local Paying Agent, the Paying Agents and, in accordance with Condition 17 (*Notices*), the Noteholders. Such notice shall be irrevocable and shall specify the effective date on which such changes take effect.

No later than notifying the Fiscal Agent of the same, the Issuer shall deliver to the Fiscal Agent a certificate signed by two authorised signatories of the Issuer:

- (A) confirming (x) that a Benchmark Transition Event has occurred, (y) the relevant Benchmark Replacement and, (z) where applicable, any Benchmark Replacement Adjustment and/or the specific terms of any relevant Benchmark Replacement Conforming Changes, in each case as determined in accordance with the provisions of this Condition 7(f); and
- (B) certifying that the relevant Benchmark Replacement Conforming Changes are necessary to ensure the proper operation of such Benchmark Replacement and/or Benchmark Replacement Adjustment.
- (vi) Subject to Condition 7(n) (*Benchmark Discontinuation*), if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this Condition 7(f), the Rate of Interest shall be (A) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period) or (B) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to the Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin applicable to the first Interest Period).

(g) *Interest – Floating Rate Notes referencing €STR (Screen Rate Determination)*

- (ii) Where "€STR" is specified as the Reference Rate in the Final Terms, the Rate of Interest for each Interest Period will, subject as provided below, be Compounded Daily €STR plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent on each Interest Determination Date.
- (iii) For the purposes of this Condition 7(g):

"Compounded Daily €STR" means, with respect to any Interest Period, the rate of return of a daily compound interest investment (with the daily euro short-term rate as reference rate for the calculation of interest) as calculated by the Calculation Agent as at the relevant Interest Determination Date in accordance with the following formula

(and the resulting percentage will be rounded if necessary to the nearest fifth decimal place, with 0.000005 being rounded upwards):

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{\text{€STR}_i \times n_i}{D} \right) - 1 \right] \times \frac{D}{d}$$

"**€STR_i**" means the €STR reference rate for:

- (a) where "Lag" is specified as the Observation Method in the relevant Final Terms, the TARGET Settlement Day falling "p" TARGET Settlement Days prior to the relevant TARGET Settlement Day "i"; or

to, and including, the last TARGET Settlement Day in such period;

"p" for any latest Interest Period or Observation Period (as applicable), means the number of TARGET Settlement Days specified as the "Lag Period" or the "Observation Shift Period" (as applicable) in the relevant Final Terms or, if no such period is specified, five TARGET Business Days.

- (iv) Subject to Condition 7(n) (*Benchmark Discontinuation*), if, where any Rate of Interest is to be calculated pursuant to Condition 7(g)(ii) above, in respect of any TARGET Settlement Day in respect of which an applicable €STR reference rate is required to be determined, such €STR reference rate is not made available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, then the €STR reference rate in respect of such TARGET Settlement Day shall be the €STR reference rate for the first preceding TARGET Settlement Day in respect of which €STR reference rate was published by the European Central Bank on its website, as determined by the Calculation Agent.
- (v) Subject to Condition 7(n) (*Benchmark Discontinuation*), if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this Condition 7(g)(v), the Rate of Interest shall be (A) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period) or (B) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to the Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin applicable to the first Interest Period).

(h) *Interest – SONIA Compounded Index and SOFR Compounded Index (Screen Rate Determination)*

This Condition 7(h) is applicable to the Notes only if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable, Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, and "Index Determination" is specified in the relevant Final Terms as being applicable.

Where "Index Determination" is specified in the relevant Final Terms as being applicable, the Rate of Interest for each Interest Period will be the compounded daily reference rate for the relevant Interest Period, calculated in accordance with the following formula:

$$\frac{(\text{Compounded Index End}}{\text{Compounded Index Start}} - 1) \times \frac{\text{Numerator}}{d}$$

and rounded to the Relevant Decimal Place, plus or minus the Margin (if any), all as determined and calculated by the Calculation Agent, where:

"**Compounded Index**" shall mean either the SONIA Compounded Index or the SOFR Compounded Index, as specified in the relevant Final Terms;

"**d**" is the number of calendar days from (and including) the day on which the relevant Compounded Index Start is determined to (but excluding) the day on which the relevant Compounded Index End is determined;

"**End**" means the relevant Compounded Index value on the day falling the Relevant Number of Index Days prior to the Interest Payment Date for such Interest Period, or such other date on which the relevant payment of interest falls due (but which by its definition or the operation of the relevant provisions is excluded from such Interest Period);

"**Relevant Number**" is as specified in the applicable Final Terms, but, unless otherwise specified shall be five;

"**SONIA Compounded Index**" means the Compounded Daily SONIA rate as published at 10:00 (London time) by the Bank of England (or a successor administrator of SONIA) on the Bank of England's Interactive Statistical Database, or any successor source;

"**Start**" means the relevant Compounded Index value on the day falling the Relevant Number of Index Days prior to the first day of the relevant Interest Period.

Provided that a Benchmark Event has not occurred in respect of the relevant Compounded Index, if, with respect to any Interest Period, the relevant rate is not published for the relevant Compounded Index either on the relevant Start or End date, then the Calculation Agent shall calculate the rate of interest for that Interest Period as if Index Determination was not specified in the applicable Final Terms and as if Compounded Daily SONIA or Compounded Daily SOFR (as defined in Condition 7(e) or Condition 7(f), as applicable) had been specified instead in the Final Terms, and in each case "Observation Shift" had been specified as the Observation Method in the relevant Final Terms, and where the Observation Shift Period for the purposes of that definition in Condition 7(e) or Condition 7(f) (as applicable) shall be deemed to be the same as the Relevant Number specified in the Final Terms and where, in the case of Compounded Daily SONIA, the Relevant Screen Page will be determined by the Issuer. For the avoidance of doubt, if a Benchmark Event has occurred in respect of the relevant Compounded Index, the provisions of Condition 7(n) (*Benchmark Discontinuation*) shall apply.

- (i) *Maximum or Minimum Rate of Interest:* If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.
- (j) *Calculation of Interest Amount:* The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the

relevant Note divided by the Calculation Amount. For this purpose a "**sub-unit**" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

- (k) *Calculation of other amounts:* If the relevant Final Terms specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Final Terms.
- (l) *Publication:* The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Local Paying Agent, the Paying Agents and each competent authority, stock exchange and/or quotation system (if any) by which the Book-entry Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period. If the Calculation Amount is less than the minimum Specified Denomination the Calculation Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Note having the minimum Specified Denomination.
- (m) *Notifications etc:* All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Guarantors, the Paying Agents, the Local Paying Agent, the Noteholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.
- (n) *Benchmark Discontinuation:* Other than in the case of a U.S. dollar-denominated floating rate Note for which the Reference Rate is specified in the relevant Final Terms as being "SOFR", if a Benchmark Event occurs in relation to the Reference Rate when the Rate of Interest (or any component part thereof) for any Interest Period remains to be determined by reference to such Reference Rate, then the Issuer shall use its reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with this Condition 7(n)) and, in either case, an Adjustment Spread, if any (in accordance with this Condition 7(n)) and any Benchmark Amendments (in accordance with this Condition 7(n)).

In the absence of bad faith or fraud, the Independent Adviser shall have no liability whatsoever to the Issuer, the Fiscal Agent, or the Noteholders for any determination made by it pursuant to this Condition 7(n).

If (i) the Issuer is unable to appoint an Independent Adviser or (ii) the Independent Adviser appointed by it fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 7(n) prior to the relevant Interest Determination Date, the Reference Rate applicable to the immediately following Interest Period shall be the Reference Rate applicable as at the last preceding Interest Determination Date. If there has not been a first Interest Payment Date, the Reference Rate shall be the Reference Rate applicable to the first Interest Period. For the avoidance of doubt, any adjustment pursuant to this Condition 7(n) (*Benchmark Discontinuation*) shall apply to the immediately following Interest Period only. Any subsequent Interest Period may be subject to the subsequent operation of this Condition 7(n).

If the Independent Adviser and the Issuer agree that:

- (A) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in this Condition 7(n)) subsequently be used in place of the Reference Rate to determine the Rate of Interest for the immediately following Interest Period and all

following Interest Periods, subject to the subsequent operation of this Condition 7(n) in the event of a further Benchmark Event affecting the Successor Rate; or

- (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in Condition 7(n)) subsequently be used in place of the Reference Rate to determine the Rate of Interest for the immediately following Interest Period and all following Interest Periods, subject to the subsequent operation of this Condition 7(n) in the event of a further Benchmark Event affecting the Alternative Rate.

If the Independent Adviser and the Issuer agree (A) that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and (B) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall apply to the Successor Rate or the Alternative Rate (as the case may be).

If any relevant Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 7(n) and the Independent Adviser and the Issuer agree (i) that amendments to these Conditions are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (such amendments, the "**Benchmark Amendments**") and (ii) the terms of the Benchmark Amendments, then the Issuer shall, following consultation with the Calculation Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest and the Interest Amount(s)), subject to giving notice thereof in accordance with Condition this 7(n), without any requirement for the consent or approval of relevant Noteholders, vary these Conditions to give effect to such Benchmark Amendments with effect from the date specified in such notice (and for the avoidance of doubt, the Fiscal Agent and the Local Paying Agent shall, at the direction and expense of the Issuer, consent to and effect such consequential amendments to the Fiscal Agency Agreement and these Conditions as may be required in order to give effect to this Condition 7(n)).

Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 7(n) will be notified promptly by the Issuer to the Fiscal Agent, the Calculation Agent, the Local Paying Agent, the Paying Agents and, in accordance with Condition 18 (*Notices*), the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

No later than notifying the Fiscal Agent of the same, the Issuer shall deliver to the Fiscal Agent a certificate signed by two authorised signatories of the Issuer:

- (A) confirming (x) that a Benchmark Event has occurred, (y) the relevant Successor Rate, or, as the case may be, the relevant Alternative Rate and, (z) where applicable, any relevant Adjustment Spread and/or the specific terms of any relevant Benchmark Amendments, in each case as determined in accordance with the provisions of this Condition 7(n); and
- (B) certifying that the relevant Benchmark Amendments are necessary to ensure the proper operation of such relevant Successor Rate, Alternative Rate and/or Adjustment Spread.

The Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error or bad faith in the determination of such Successor Rate or Alternative Rate and such Adjustment Spread (if any) and such Benchmark Amendments (if any)) be binding on the Issuer, the Fiscal Agent, the Calculation Agent, the Local Paying Agent the other Paying Agents and the Noteholders.

Notwithstanding any other provision of this Condition 7(n), neither the Calculation Agent nor the Local Paying Agent or any Paying Agent is not obliged to concur with the Issuer or the Independent Adviser in respect of any changes or amendments as contemplated under this Condition 7(n), which, in the sole and reasonable opinion of the Calculation Agent or the relevant Paying Agent or the Local Paying Agent, as the case may be, would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Calculation Agent or the relevant Paying Agent

or the Local Paying Agent (as applicable) in the Fiscal Agency Agreement and/or these Conditions.

- (D) (if the Independent Adviser determines that no such industry standard is recognised or acknowledged) the Independent Adviser determines to be appropriate to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders as a result of the replacement of the Reference Rate with the Successor Rate or the Alternative Rate (as the case may be).

- (a) *Meetings of Noteholders*: The Fiscal Agency Agreement contains provisions for convening meetings of Noteholders to consider matters relating to the Book-entry Notes, including the

modification of any provision of these Conditions. Any such modification may be made if sanctioned by an Extraordinary Resolution. Such a meeting may be convened by the Issuer and the Guarantor (acting together) and shall be convened by them upon the request in writing of Noteholders holding not less than one-tenth of the aggregate principal amount of the outstanding Book-entry Notes. The quorum at any meeting convened to vote on an Extraordinary Resolution will be two or more persons holding or representing one more than half of the aggregate principal amount of the outstanding Book-entry Notes or, at any adjourned meeting, two or more persons being or representing Noteholders whatever the principal amount of the Book-entry Notes held or represented; *provided, however, that* Reserved Matters may only be sanctioned by an Extraordinary Resolution passed at a meeting of Noteholders at which two or more Persons holding or representing not less than three-quarters or, at any adjourned meeting, one quarter of the aggregate principal amount of the outstanding Book-entry Notes form a quorum. Any Extraordinary Resolution duly passed at any such meeting shall be binding on all the Noteholders and Couponholders, whether present or not.

In addition, a resolution in writing signed by or on behalf of all Noteholders who for the time being are entitled to receive notice of a meeting of Noteholders will take effect as if it were an Extraordinary Resolution. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

- (b) *Modification:* The Book-entry Notes, these Conditions, the Deed of Guarantee and the Deed of Covenant may be amended without the consent of the Noteholders or the Couponholders to correct a manifest error. In addition, the parties to the Fiscal Agency Agreement may agree to modify any provision thereof, but the Issuer and the Guarantor shall not agree, without the consent of the Noteholders, to any such modification unless it is of a formal, minor or technical nature, it is made to correct a manifest error or it is, in the opinion of such parties, not materially prejudicial to the interests of the Noteholders.

15 Substitution

Each of the Guarantors or any of their Subsidiaries (as defined below) (each a "**Substitute Obligor**") may, without the consent of the Holders of any Book-entry Notes, Receipts or Coupons, assume the obligations of the Issuer (or any previous Substitute Obligor) under and in respect of any Book-entry Notes upon:

- (a) *Deed poll:* the execution of a deed poll (the "**Deed Poll**") by the Substitute Obligor and (if the Substitute Obligor is not either of the Guarantors) the Guarantors (or by such of the Guarantors as is not the Substitute Obligor) in a form which gives full effect to such assumption and which includes (without limitation):
- (i) a covenant by the Substitute Obligor in favour of the Holders of the Book-entry Notes to be bound by these Terms and Conditions, the Book-entry Notes, the Receipts, the Coupons, the Deed of Covenant and the Fiscal Agency Agreement, with any consequential amendments, as if it had been named herein and therein as the principal debtor in place of the Issuer, and such other deeds, documents and instruments (if any) in order for the substitution to be fully effective and for the Substitute Guarantor to be bound by all of the Issuer's obligations;
 - (ii) a warranty and representation (A) that the Substituted Obligor has obtained all necessary governmental and regulatory approvals and consents necessary for such substitution and for the performance by the Substituted Obligor of its obligations under the Deed Poll and under any other documents required to give full effect to the substitution, (B) that all such approvals and consents are in full force and effect, and (C) that the obligations assumed by the Substituted Obligor are valid and binding in accordance with their respective terms and enforceable by each Holder of the Book-entry Notes; and
 - (iii) a covenant by the Substitute Obligor and (if the Substitute Obligor is not either of the Guarantors) each of the Guarantors (or by such of the Guarantors as is not the Substitute Obligor) to indemnify and hold harmless each Holder against all taxes or duties which arise by reason of a law or regulation having legal effect or being in reasonable contemplation thereof on the date such substitution becomes effective, which may be incurred or levied against such Holder as a result of any substitution pursuant to this

Condition 16 (*Substitution*) and which would not have been so incurred or levied had such substitution not been made (and, without limiting the generality of the foregoing, any and all taxes or duties which are imposed on any such Holder by any political sub-division or taxing authority of any country in which such Holder resides or is subject to any such tax or duty and which would not have been so imposed had such substitution not been made); and

- (iv) an acknowledgment of the right of all Holders of the Book-entry Notes to the production of the Deed Poll.
- (b) *Deed of Guarantee*: if the Substitute Obligor is not either of the Guarantors, the execution of a deed of guarantee (the "**Substitute Guarantee**" hereinafter for the purpose of this Condition 16 (*Substitution*) only) by each of the Guarantors (or by such of the Guarantors as is not the Substitute Obligor) on substantially the same terms as the Deed of Guarantee pursuant to which it undertakes to guarantee the performance of the obligations of the Substitute Obligor under the Deed Poll, the Terms and Conditions of the Book-entry Notes and any other documents required to give full effect to the substitution.
- (c) *Legal opinion*: the delivery by the Issuer to the Fiscal Agent of an opinion of independent legal advisers of recognised standing to the effect that:
 - (i) the Deed Poll constitutes legal, valid, binding and enforceable obligations of the Substitute Obligor and, if the Substitute Obligor is not either of the Guarantors, the Guarantors (or by such of the Guarantors as is not the Substitute Obligor);
 - (ii) the Book-entry Notes constitute legal, valid, binding and enforceable obligations of the Substitute Obligor; and
 - (iii) if the Substitute Obligor is not either of the Guarantors, the Substitute Guarantee constitutes legal, valid, binding and enforceable obligations of the Guarantors in respect of all sums from time to time payable by the Substitute Obligor in respect of the Book-entry Notes.
- (d) *Taxation*: where the Substitute Obligor is subject to a different taxing jurisdiction (the "**Substituted Territory**") than that to which the Issuer is subject generally (the "**Issuer's Territory**"), the Substituted Obligor will give an undertaking in terms corresponding to Condition 10 (*Taxation*) with the substitution for the reference in that Condition to the Issuer's Territory of references to the Substituted Territory;
- (e) *Ratings*: an undertaking to the Holders to provide a written confirmation by two internationally recognised rating agencies that the substitution of the Substituted Obligor will not result in a downgrading of the then current credit rating of such rating agencies applicable to the class of debt represented by the Book-entry Notes;
- (f) *Release of Issuer*: Not later than fourteen days after the execution of any such documents as aforesaid in paragraph (a), the Substituted Obligor shall cause notice thereof to be given to the Noteholders; and
- (g) *Completion of substitution*: Upon the execution of such documents and compliance with the requirements stated in this Condition 16 (*Substitution*), the Substituted Obligor will be deemed to be named in these Terms and Conditions, the Book-entry Notes, Receipts and Coupons as if it had been named herein and therein as the principal debtor in place of the Issuer (or of any previous substitute under this Condition 16 (*Substitution*)) and the Book-entry Notes, the Receipts and the Coupons will be deemed to be amended in such manner as necessary to give effect to the substitution and any references in the Book-entry Notes, Receipts and Coupons to the Issuer will be references to the Substituted Obligor.

16 Further Issues

The Issuer may from time to time, without the consent of the Noteholders or the Couponholders, create and issue further Book-entry Notes having the same terms and conditions as the Book-entry Notes in all

respects (or in all respects except for the first payment of interest) so as to form a single series with the Book-entry Notes.

17 Notices

Notices to the Noteholders will be published in the official bulletin of AIAF (*Boletín Diario de AIAF Mercado de Renta Fija*) and, where applicable, through the filing by the Issuer of an inside information or other relevant information notice (*comunicación de información privilegiada u otra información relevante*) with the CNMV. If the Book-entry Notes are also listed in other European regulated market, notices to Noteholders will be published in accordance with the requirements of such regulated market. Any such notice will be deemed to have been given on the date of the first publication. In addition, all notices to Noteholders shall also be made through Iberclear to their respective accountholders.

18 Currency Indemnity

If any sum due from the Issuer in respect of the Book-entry Notes or the Coupons or any order or judgment given or made in relation thereto has to be converted from the currency (the "**first currency**") in which the same is payable under these Conditions or such order or judgment into another currency (the "**second currency**") for the purpose of (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Book-entry Notes, the Issuer shall indemnify each Noteholder, on the written demand of such Noteholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such Noteholder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof.

This indemnity constitutes a separate and independent obligation of the Issuer and shall give rise to a separate and independent cause of action.

19 Rounding

For the purposes of any calculations referred to in these Conditions (unless otherwise specified in these Conditions or the relevant Final Terms), (a) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 per cent. being rounded up to 0.00001 per cent.), (b) all United States dollar amounts used in or resulting from such calculations will be rounded to the nearest cent (with one half cent being rounded up), (c) all Japanese Yen amounts used in or resulting from such calculations will be rounded downwards to the next lower whole Japanese Yen amount, and (d) all amounts denominated in any other currency used in or resulting from such calculations will be rounded to the nearest two decimal places in such currency, with 0.005 being rounded upwards.

20 Governing Law and Jurisdiction

- (a) *Governing law*: The formalities relating to the issue of the Book-entry Notes, their legal nature (*obligaciones*), the form, denomination, title and transfer of the Notes (Condition 3 (*Form, Denomination and Title*)), the status of the Book-entry Notes and the status of the Guarantee of the Book-entry Notes (Condition 4 (*Status of the Book-entry Notes and Guarantee*)), the capacity of the Issuer and of the Guarantors, the relevant corporate resolutions and all non-contractual obligations arising out of or in connection with any of the above shall be governed by Spanish law. Subject as provided above, the terms and conditions of the Book-entry Notes, the Fiscal Agency Agreement and the Deed of Covenant and all non-contractual obligations arising from or in connection with the Book-entry Notes, the Fiscal Agency Agreement and Deed of Covenant are governed by English law.
- (b) *English courts*: The courts of England have exclusive jurisdiction to settle any dispute arising from or connected with the Book-entry Notes (including a dispute relating to the existence, validity or termination of the Book-entry Notes or any non-contractual obligation arising out of or in connection with the Book-entry Notes) or the consequences of their nullity (a "**Dispute**").

- (c) *Appropriate forum:* The Issuer agrees that the courts of England are the most appropriate and convenient courts to settle any Dispute and, accordingly, that it will not argue to the contrary.
- (d) *Process agent:* The Issuer agrees that the documents which start any Proceedings and any other documents required to be served in relation to those Proceedings may be served on it by being delivered to Law Debenture Corporate Services Limited at 8th Floor, 100 Bishopsgate, London, EC2N 4AG, United Kingdom or, if different, its registered office for the time being or at any address of the Issuer in England and Wales at which process may be served on it. If such person is not or ceases to be effectively appointed to accept service of process on behalf of the Issuer, the Issuer shall, on the written demand of any Noteholder addressed and delivered to the Issuer or to the Specified Office of the Fiscal Agent appoint a further person in England to accept service of process on its behalf and, failing such appointment within 15 days, any Noteholder shall be entitled to appoint such a person by written notice addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent. Nothing in this paragraph shall affect the right of any Noteholder to serve process in any other manner permitted by law. This Condition applies to Proceedings in England and to Proceedings elsewhere.

FORM OF FINAL TERMS OF THE BEARER NOTES

Set out below is the form of Final Terms which will be completed for each Tranche of Bearer Notes, to reflect the particular terms of the relevant Notes and their issue. Text in this section appearing in italics does not form part of the form of the Final Terms but denotes directions for completing the Final Terms.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**EU MiFID II**"); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the "**EU Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

OVERVIEW OF PROVISIONS RELATING TO THE BEARER NOTES WHILE IN GLOBAL FORM

Clearing System Accountholders

In respect of the Bearer Notes, each Global Note will be in bearer form. Consequently, in relation to any Tranche of Notes represented by a Global Note, references in the Terms and Conditions of the Notes to "Noteholder" are references to the bearer of the relevant Global Note which, for so long as the Global Note is held by a depositary or a common depositary, in the case of a CGN, or a common safekeeper, in the case of an NGN for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be that depositary or common depositary or, as the case may be, common safekeeper.

Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Note (each an "**Accountholder**") must look solely to Euroclear and/or Clearstream, Luxembourg and/or such other relevant clearing system (as the case may be) for such Accountholder's share of each payment made by the Issuer or the Guarantors to the bearer of such Global Note and in relation to all other rights arising under the Global Note. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Note will be determined by the respective rules and procedures of Euroclear and Clearstream, Luxembourg and any other relevant clearing system from time to time. For so long as the relevant Notes are represented by the Global Note, Accountholders shall have no claim directly against the Issuer or the Guarantors in respect of payments due under the Notes and such obligations of the Issuer and the Guarantors will be discharged by payment to the bearer of the Global Note.

Exchange of Temporary Global Notes

Whenever any interest in a Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure:

- (a) in the case of first exchange, the prompt delivery (free of charge to the bearer) of such Permanent Global Note, duly authenticated and, in the case of an NGN, effectuated, to the bearer of the Temporary Global Note; or
- (b) in the case of any subsequent exchange, an increase in the principal amount of such Permanent Global Note in accordance with its terms,

in each case in an aggregate principal amount equal to the aggregate of the principal amounts specified in the certificates issued by Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and received by the Fiscal Agent against presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Fiscal Agent within 7 days of the bearer requesting such exchange.

Whenever a Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

- (i) a Permanent Global Note has not been delivered or the principal amount thereof increased by 5.00 p.m. (London time) on the seventh day after the bearer of a Temporary Global Note has requested exchange of an interest in the Temporary Global Note for an interest in a Permanent Global Note; or
 - (ii) Definitive Notes have not been delivered by 5.00 p.m. (London time) on the thirtieth day after the bearer of a Temporary Global Note has requested exchange of the Temporary Global Note for Definitive Notes; or
- (c) a Temporary Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of a Temporary Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not

been made to the bearer of the Temporary Global Note in accordance with the terms of the Temporary Global Note on the due date for payment,

then the Temporary Global Note (including the obligation to deliver a Permanent Global Note or increase the principal amount thereof or deliver Definitive Notes, as the case may be) will become void at 5.00 p.m. (London time) on such seventh day (in the case of (a) above) or at 5.00 p.m. (London time) on such thirtieth day (in the case of (b) above) or at 5.00 p.m. (London time) on such due date (in the case of (c) above) and the bearer of the Temporary Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Temporary Global Note or others may have under a deed of covenant dated 13 June 2022 (the "**Deed of Covenant**") executed by the Issuer). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Temporary Global Note will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Temporary Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Exchange of Permanent Global Notes

Whenever a Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes have not been delivered by 5.00 p.m. (London time) on the thirtieth day after the bearer of a Permanent Global Note has duly requested exchange of the Permanent Global Note for Definitive Notes; or
- (b) a Permanent Global Note (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Notes has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Permanent Global Note in accordance with the terms of the Permanent Global Note on the due date for payment,

then the Permanent Global Note (including the obligation to deliver Definitive Notes) will become void at 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above) and the bearer of the Permanent Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Permanent Global Note or others may have under the Deed of Covenant. Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Permanent Global Note will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Permanent Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Conditions applicable to Global Notes

Each Global Note will contain provisions which modify the Terms and Conditions of the Notes as they apply to the Global Note. The following is a summary of certain of those provisions:

Payments: All payments in respect of the Global Note will be made against presentation and (in the case of payment of principal in full with all interest accrued thereon) surrender of the Global Note to or to the order of any Paying Agent and will be effective to satisfy and discharge the corresponding liabilities of the Issuer in respect of the Notes. On each occasion on which a payment of principal or interest is made in respect of the Global Note, the Issuer shall procure that in respect of a CGN the payment is noted in a schedule thereto and in respect of an NGN the payment is entered pro rata in the records of Euroclear and Clearstream, Luxembourg.

Payment Business Day : In the case of a Global Note, shall be: if the currency of payment is euro, any day which is a TARGET Settlement Day and a day on which dealings in foreign currencies may be carried on in each (if any) Additional Financial Centre; or, if the currency of payment is not euro, any day which is a day on which dealings

in foreign currencies may be carried on in the Principal Financial Centre of the currency of payment and in each (if any) Additional Financial Centre.

Exercise of put option: In order to exercise the option contained in Condition 8(e) (*Redemption and Purchase – Redemption at the option of Noteholders*) the bearer of the Permanent Global Note must, within the period specified in the Conditions for the deposit of the relevant Note and put notice, give written notice of such exercise to the Fiscal Agent specifying the principal amount of Notes in respect of which such option is being exercised. Any such notice will be irrevocable and may not be withdrawn.

Partial exercise of call option: In connection with an exercise of the option contained in Condition 8(c) (*Redemption and Purchase – Redemption at the option of the Issuer*) in relation to some only of the Notes, the Permanent Global Note may be redeemed in part in the principal amount specified by the Issuer in accordance with the Conditions and the Notes to be redeemed will not be selected as provided in the Conditions but in accordance with the rules and procedures of Euroclear and Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in principal amount, at their discretion).

Notices: Notwithstanding Condition 18 (*Notices*), while all the Notes are represented by a Permanent Global Note (or by a Permanent Global Note and/or a Temporary Global Note) and the Permanent Global Note is (or the Permanent Global Note and/or the Temporary Global Note are) deposited with a depositary or a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system or a common safekeeper, notices to Noteholders may be given by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and, in any case, such notices shall be deemed to have been given to the Noteholders in accordance with Condition 18 (*Notices*) on the date of delivery to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, except that, for so long as such Notes are admitted to trading on the Luxembourg Stock Exchange and it is a requirement of applicable law or regulations, such notices shall be published in a leading newspaper having general circulation in Luxembourg (which is expected to be *Luxemburger Wort*) or published on the website of the Luxembourg Stock Exchange (www.luxse.com).

SUMMARY OF CLEARANCE AND SETTLEMENT PROCEDURES APPLICABLE TO BOOK-ENTRY NOTES

Below is a brief summary of the Spanish clearance and settlement procedures applicable to book-entry securities admitted to trading on AIAF such as the Book-entry Notes.

The Spanish clearing, settlement and recording system of securities transactions allows the connection of the post-trading Spanish systems to the European system T2 Securities.

Iberclear

Iberclear is the Spanish central securities depository in charge of both the register of securities held in book-entry form, and the settlement of all the trades from AIAF. To achieve this, Iberclear uses the technical platform named ARCO.

Iberclear is owned by *Bolsas y Mercados Españoles, Sociedad Holding de Mercados y Sistemas Financieros, S.A.*, a holding company, which fully owns each of the Spanish official secondary markets and settlement systems. The corporate address of Iberclear is Plaza de la Lealtad 1, 28014, Madrid, Spain.

Iberclear Securities Registration System

The securities recording system of Iberclear is a two tier level registry: the keeping of the central record corresponds to Iberclear and the keeping of the detail records correspond to the participating entities (*entidades participantes*) in Iberclear.

Access to become a participating entity is restricted to (i) credit institutions, (ii) investment services companies which are authorised to render custody and administration of financial instruments, (iii) the Bank of Spain, (iv) the Spanish Public Administration and the Spanish General Treasury of the Social Security, (v) other duly authorised central securities depositories and central clearing counterparties and (vi) other public institutions and private entities when expressly authorised to become a participating entity in central securities depositories.

The central registry managed by Iberclear reflects (i) one or several proprietary accounts which show the balances of the participating entities' proprietary accounts; (ii) one or several general third-party accounts that will show the overall balances that the participating entities hold for third parties; (iii) individual accounts opened in the name of the owner, either individual or legal person; and (iv) individual special accounts of financial intermediaries which use the optional procedure of settlement of orders. Each participating entity, in turn, maintains the detail records of the owners of the securities or the shares held in their general third-party accounts.

According to the above, Spanish law considers the owner of the securities to be:

- (i) the participating entity appearing in the records of Iberclear as holding the relevant securities in its own name;
- (ii) the investor appearing in the records of the participating entity as holding the securities; or
- (iii) the investor appearing in the records of Iberclear as holding securities in a segregated individual account.

The settlement and book-entry registration platform managed by Iberclear, which operates under the trade name of ARCO, operates under a T+2 settlement standard, by which any transactions must be settled within two business days following the date on which the transaction was completed.

To evidence title to securities, at the owner's request the relevant participating entity must issue a legitimisation certificate (*certificado de legitimación*). If the owner is a participating entity or a person holding securities in a segregated individual account, Iberclear is in charge of the issuance of the certificate regarding the securities held in their name.

Iberclear Settlement of securities traded on the AIAF

Iberclear and the participating entities (*entidades participantes*) in Iberclear have the function of keeping the book-

entry register of securities traded on the AIAF.

Securities traded on the AIAF are fixed income securities, including corporate bonds (for example, medium term notes and mortgage bonds) and bonds issued by the Kingdom of Spain and Spanish regions, represented in a dematerialised form.

In the AIAF settlement system, transactions may be settled spot, forward (settlement date more than five days after the relevant trade date), with a repurchase agreement on a fixed date and double or simultaneous transactions (two trades in opposite directions with different settlement dates).

The settlement system used for securities admitted for trading on the AIAF is the Model 1 delivery versus payment system, as per the classification of the Bank for International Settlements: that is, it is a "transaction-to-transaction" cash and securities settlement system with simultaneity in its finality.

Transactions are settled on the stock-exchange business day agreed by participants at the moment of the trade.

Euroclear and Clearstream

Investors who do not have, directly or indirectly through their custodians, a participating account with Iberclear may hold their investment in the Notes through bridge accounts maintained by each of Euroclear and Clearstream, Luxembourg with participating entities (*entidades participantes*) in Iberclear.

Background

Red Eléctrica de España, Sociedad Anónima ("**Red Eléctrica**") was established for an indefinite time on 29 January 1985, under Law 49/1984, of 26 December 1984. At the time, Red Eléctrica was the first company in the world exclusively dedicated to the transmission of electrical energy and the operation of electricity systems.

Law 54/1997 introduced free competition in parts of the electricity sector. This law granted Red Eléctrica the functions of system operator, transmission grid manager, and principal carrier of the electricity system of Spain.

Law 17/2007 came into force on 6 July 2007 and modified the Electrical Sector Law in accordance with European regulations ("**Law 17/2007**"). Red Eléctrica's role as operator and manager of the transmission grid was confirmed by granting it the function of sole transmission and system operator in Spain. This completed the consolidation of its position as Spanish Transmission System Operator ("**TSO**").

Law 17/2007 introduced various corporate changes in Red Eléctrica, including changes to its articles of association and a restructuring of the company.

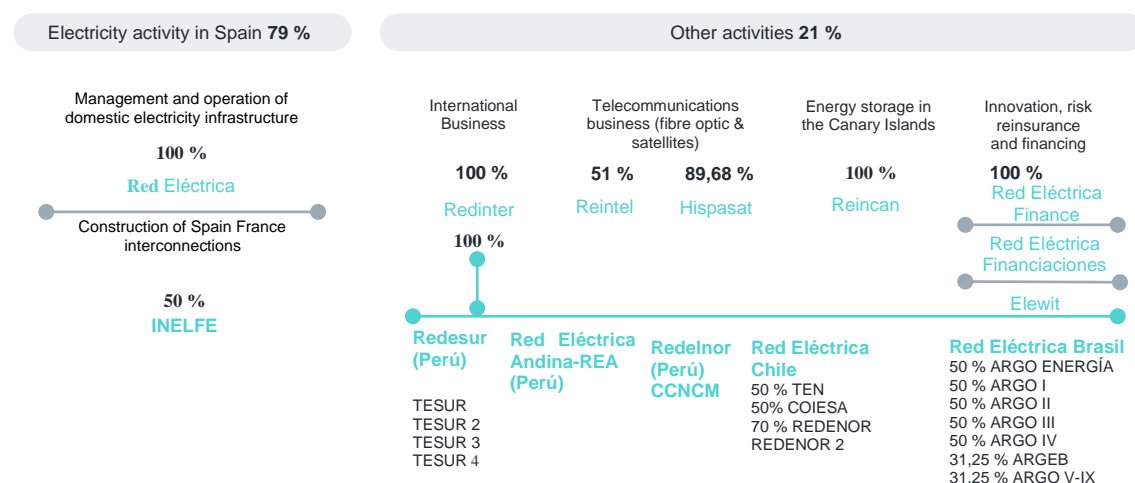

Red Eléctrica's organisational structure was transformed into a holding structure to establish transparency and clear division between different regulated activities in Spain, such as the electricity system's transmission and operation.

In order to comply with Law 17/2007's requirements, on 1 July 2008, Red Eléctrica changed its name to Redeia Corporación, Sociedad Anónima, transferring all aspects of the business dealing with the regulated activities carried out in Spain onto Red Eléctrica. The corporate head offices and properties not involved in the regulated activities, and any shareholdings in other entities not transferred to Red Eléctrica remain under the parent company, Redeia Corporación, S.A., owner of 100 per cent of Red Eléctrica's share capital.

Law 54/1997 was substituted by Law 24/2013 of 26 December 2013, relating to the electricity sector ("**Law 24/2013**"), which maintains Red Eléctrica's appointment as the sole transmission carrier, system operator and transmission grid manager. Law 24/2013 also maintains, given the non-derogation of the twenty-third additional disposition of Law 54/1997, Redeia Corporación's current corporate name and structure.

Redeia or the Group

Redeia Corporación is the parent company of Redeia. As of date of the Base Prospectus, the simplified corporate structure of the Group is as follows:

Under Law 24/2013, all of the provisions relating to the system operator and transmission network manager apply to Red Eléctrica and Redeia Corporación may not transfer its shares in Red Eléctrica to third parties as it carries out regulated activities.

Business

Redeia conducts its business and operations across three main divisions: (i) Management and operation of domestic electricity infrastructure; (ii) Management and operation of international electricity infrastructure; and (iii) Telecommunications.

(i) Management and operation of domestic electricity infrastructure

Redeia's principal activity is electricity transmission, system operation and management of the transmission network for the Spanish electricity system. These regulated activities are carried out through Red Eléctrica as TSO of the Spanish electricity system and they are described below in a specific section "*Management of electric infrastructure in Spain*".

In accordance with Law 24/2013, high voltage transmission of electricity consists in transmitting electricity and in constructing, maintaining and managing the facilities necessary to do so. The Group,

through Red Eléctrica, also operates the electricity systems serving the Spanish territory, including the mainland, islands and non-mainland electricity systems, to ensure the continuity and security of the electricity system.

Moreover, in connection with the activity of TSO, the Group is involved in construction of energy storage facilities in non-mainland and isolated systems through Red Eléctrica Infraestructuras en Canarias, S.A.U. ("**REINCAN**"), a wholly-owned subsidiary of Redeia Corporación, incorporated on 17 September 2015.

In addition, Red Eléctrica owns 50 per cent of the share capital of Interconexión Eléctrica Francia-España, S.A.A. ("**INELFE**") for development of the connection facilities with France, that will increase the electricity exchange capacity between the two countries.

(ii) *Management and operation of international electricity infrastructure*

Redeia's international business has been conducted through Red Eléctrica Internacional, S.A.U. ("**Redinter**") and international operations have been concentrated in Peru, Chile and Brazil, with a minor presence in Portugal. Redeia holds a 100 per cent. interest in the share capital of Redinter.

The start-up of operations in Peru, Chile and Brazil is the outcome of an ongoing analysis of business opportunities, and meets the Group's criterion of undertaking investments in countries with a favourable economic situation and a stable regulatory framework that ensures an appropriate return on the investments. See the section entitled "*Investments – International Transmission Investments*".

(iii) *Telecommunications*

Redeia also provides telecommunications services to third parties through Redeia Infraestructuras de Telecomunicación, S.A.U. ("**REINTEL**"). Redeia holds 51 percent interest in the share capital of REINTEL. In 2018, Redeia Corporación incorporated Redeia Sistemas de Telecomunicaciones, S.A.U. ("**RESTEL**") whose main corporate purpose is the acquisition, holding, management and administration of securities, being the most relevant investment the acquisition of the Spanish satellite operator Hispasat, S.A. ("**Hispasat**") at the end of 2019. See the section entitled "*Investments – Telecommunication Investments*" below.

In addition to the above-mentioned business divisions, the Group carries out activities through its subsidiaries aimed at financing its operations Redeia Financiaciones, S.L.U., and Red Eléctrica Financiaciones, S.A.U., and covers risks by reinsuring its assets and activities, Redcor Reaseguros, S.A.

In 2019, Redeia Corporación incorporated Elewit, S.A.U. ("**ELEWIT**") to foster technological innovation. Since its incorporation, the Group has strengthened its position, under the Elewit brand, as the Group's tech platform and transformation engine. Elewit drives innovation, entrepreneurship and technological development, which are the cornerstones of sustainability against a changing backdrop in both the energy and telecommunication sectors. Through Elewit, the Group harnesses the potential of technology to further the Group's business and activity, as well as to explore new value-added business segments.

In 2023, the Group generated revenues of EUR 2,064.1 million, representing a 2.4 per cent increase compared to the previous year (EUR 2,015.0 million in 2022) and achieved a consolidated profit for the year attributable to Redeia Corporación of EUR 689.6 million, representing a 3.7 per cent increase compared to the previous year (EUR 664.7 million in 2022).

Investments

Investment Plan

In February 2021, the Group approved the 2021-2025 Strategic Plan. The strategy includes an investment plan of approximately EUR 5,000 million, of which EUR 3,900 million will be allocated to the transmission network and storage in Spain, promoting the energy transition, EUR 300 million will be allocated to international business, EUR 700 million will be allocated to telecommunications and EUR 100 million will be invested in other areas.

Transmission network investments in Spain

Investments on transmission activities will be directed mainly towards improving the security of supply and creating a sustainable energy model.

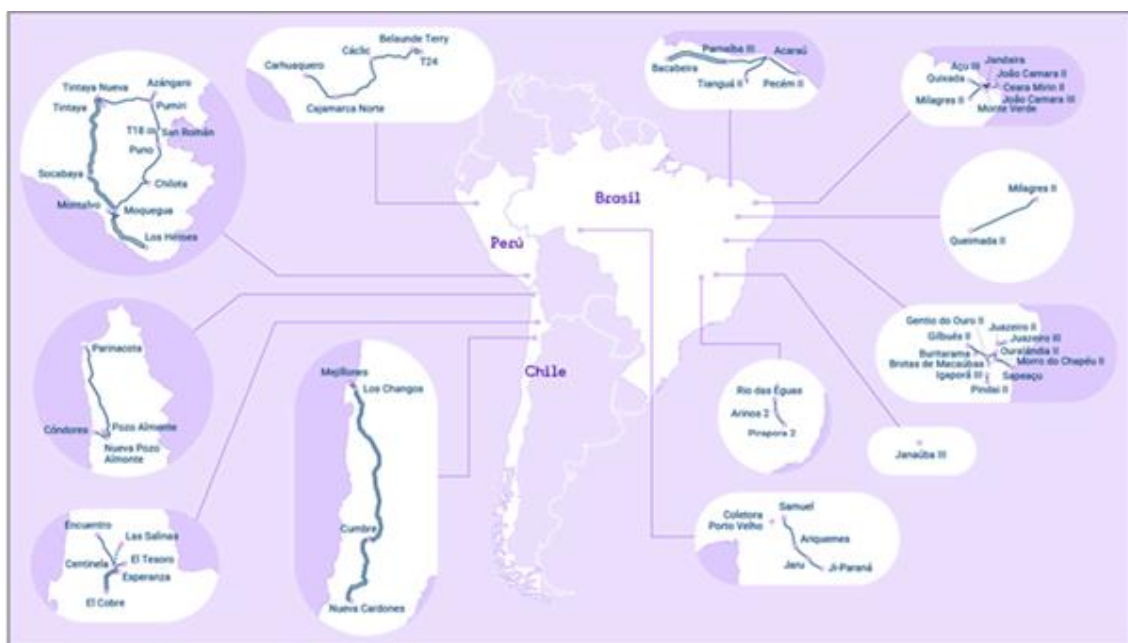

The regulated activities are driven mainly by three lines of action: propelling the energy transition, market integration and the sustainability of the electricity system with a major technological component; search for efficiency, enabling the Group to maintain its position as an international benchmark; and the implementation of new regulated activities, such as storage of energy in the island systems as a tool to guarantee the security of the isolated non-mainland electricity systems.

As system operator, Red Eléctrica is required by Law 24/2013 to participate in the development of the electricity infrastructure plan, whose aim is to guarantee security of supply in the long term and define the needs of the transmission grid under the principles of transparency and cost efficiency.

International Transmission Investments

The international business of Redeia is developed through Redinter, which manages international investments in transmission infrastructure and promotes new business opportunities internationally. Overall, the Group manages a network spanning 7,692 km in Peru, Chile and Brazil.

Presence of Redinter in Peru, Chile and Brazil:

Activity in Peru

In Peru, Redinter operates electricity transmission infrastructure under a 30-year concession. It is the main transmission agent in the south of Peru and since 2019, following REDELNOR’s acquisition of Concesionaria Línea de Transmisión CCNMC S.A.C. ("CCNCM"), it has also operated in the north of the country. The network spans a total of 1,686 km of transmission lines.

REDINTER currently has six concessions in operation at the companies Red Eléctrica del Sur S.A., Transmisora Eléctrica del Sur S.A.C., Transmisora Eléctrica del Sur 2 S.A.C., Transmisora Eléctrica del Sur 3 S.A.C., Transmisora Eléctrica del Sur 4 S.A.C. and CCNCM S.A.C., dedicated to the management and commercial operation of electricity transmission infrastructure.

During 2023, average voltage levels remained within the limits set out in the Technical Standard for the Quality of Electricity Services, reaching a cumulative grid availability in 2023 of 99.7% at Red Eléctrica del Sur S.A., 99.9% at Transmisora Eléctrica del Sur S.A.C., 99.9% at Transmisora Eléctrica del Sur 2 S.A.C, 99.9% at Transmisora Eléctrica del Sur 3 S.A.C., 100% at Transmisora Eléctrica del Sur 4 S.A.C. and 99.9% at CCNCM.

As regards to REA, it continues to provide maintenance services for the concessions under operation of REDESUR, TESUR, TESUR2, TESUR3, TESUR4 and CCNMC. REA also carries out installation maintenance and site supervision for other clients, positioning it among the benchmark companies for such services in the south of Peru.

Activity in Chile

Redinter holds a 100 per cent interest in the share capital of Red Eléctrica Chile SpA ("**RE Chile**"), incorporated in November 2015 and its main activity is the acquisition, possession, administration, direction and management of the shares that the Group maintains in Chile. RE Chile in turn, has, 50 per cent of Transmisora Eléctrica del Norte, S.A. ("**TEN**"), the other being 50 per cent of the Chilean company, Engie Energía Chile, a subsidiary of Grupo ENGIE. RE Chile also has a 69.9 per cent stake in Red Eléctrica del Norte S.A. ("**REDENOR**") and 100 per cent of Red Eléctrica del Norte 2 S.A. ("**REDENOR2**"). Overall, RE Chile operates 1,767 km of transmission lines, in commercial operation.

TEN operates the 500 kV Changos - Cumbre - Nueva Cardones axis, which forms part of the National Transmission System, as well as the 220 kV Mejillones - Changos dedicated line. In 2023, TEN reported an availability factor for its facilities of 99.80%, surpassing prior years' availability.

On 31 August 2023, the National Electricity Coordinator awarded the international public tender for expansion work envisioned in Exempt Decree No. 200/2022 to REDENOR; awarding the project to expand the 220 kV Nueva Pozo Almonte substation to Red Eléctrica del Norte S.A., which will therefore be tasked with carrying out the expansion project. Meanwhile, work is under way to expand the facilities envisaged in the Expansion Plan of Decree No. 198 for the Transmission System, with the upgraded facilities due to be commissioned at some point in the first half of 2024. The transmission system availability rates through to 2023 are 99.92%.

REDENOR2 continues to operate three transmission lines, as well as the new connection of a renewable energy facility (Sierra Gorda photovoltaic facility) to the interconnected system, which has been commercially operational since 27 February 2023. An EPC contract was signed in 2023 to carry out the work needed to connect the Minera Centinela District Project to the Centinela substation, which is owned by REDENOR2. It reported an availability factor for its transmission facilities of 99.84% in 2023.

Activity in Brazil

Redinter, through Red Eléctrica Brasil ("**REBR**"), alongside the Colombian company Grupo Energía Bogotá S.A. ESP holds a 50 per cent interest in the share capital of Brazilian holding company Argo Energia Empreendimentos e Participações S.A. ("**Argo Energia**"), managing high voltage line concessions (500 kV and 230 kV) and electrical substations. The acquisition of these concessions has increased Argo Energia's installed transmission capacity to 4,213 km and positioned it as a transmission leader in the market, with a strong presence in the north-east of Brazil, one of the areas with the greatest potential for renewable power and most in need of transmission network development in Brazil. The concessions are as follows:

Argo I operates 1,115 km of 500 kV power lines and five substations in the northeast of Brazil. Argo II is a project to expand a substation in the state of Minas Gerais. Synchronous condenser 2 and 1 are currently in service. Argo III operates 320 km of 230 kV power lines and five substations in the state of Rondônia. Argo IV, which was formed in 2022 following the acquisition of 50% of Rialma Transmissora de Energia III S.A., by Argo Energia, operates 312 km of 500 kV power lines. In 2022, Argo Energia acquired from Brasil Energia FIP 100% of the shares of five transmission concessions (Argo V, Argo VI, Argo VII, Argo VIII and Argo IX). The acquisition has been carried out through the joint investment of Argo Energia (62.5%) and Grupo Energía Bogotá (37.5%). The five concessions are in commercial operation and total 2,488 km of 500 kV and 230 kV transmission lines and 20 substations.

The transmission system availability rates for the various concessions through to 2023 are: Argo I 99.55%, Argo II 94.98%, Argo III 97.82%, Argo IV 99.95%, Argo V 99.92%, Argo VI 98.90%, Argo VII 99.79%, Argo VIII 99.94%, and Argo IX 99.73%.

Telecommunication Investments

Redeia's telecommunications business is addressed by two main business lines, the optic fibre business and the satellite business.

Optic fibre business

The Group's fibre optic business primarily operates in Spain, doing so through the subsidiary REINTEL, which is the Group company responsible for operating fibre optic networks and rendering telecommunications services to third parties. The Group holds a 51% stake in REINTEL, with Kohlberg Kravis Roberts & Co. L.P. (KKR) holding the remaining 49% stake in REINTEL through its subsidiary Rudolph Bidco S.À.R.L.

REINTEL is a neutral provider of telecommunications infrastructure. Its principal activity is leasing dark fibre and associated infrastructure and also provides maintenance services for telecommunications equipment.

At present, the Company operates a fibre optic network in excess of 52,200 km rolled out over the electricity transmission grid and the railway network, guaranteeing transparent access on equal terms to its customers and to telecoms sector players. The company is the successful tenderer for a period of 20 years ending in 2034 for the right of use and operation of the fibre optic network, not dedicated to the railway business and other associated elements, owned by Adif - High Speed.

The telecommunications business associated with fibre optics has been performing well, thanks to the Company's proactive commercial management and an efficient and stable cost structure.

Satellite Business

The satellite telecommunications business is carried out throughout the Hispasat subgroup. RESTEL holds an 89.68 per cent stake in Hispasat. The other Hispasat shareholders are Sociedad Estatal de Participaciones Industriales (SEPI), with a 7.41% interest, and the Centro para el Desarrollo Tecnológico Industrial, E.P.E., which holds 2.91%.

Hispasat's principal activity consists of leasing spatial capacity and providing managed services for video and broadband data through the operation and commercial exploitation of its fleet of satellites in orbit and the related ground segment, primarily in Spain, Brazil, Peru and Mexico. Hispasat is the leading satellite operator in Spain and Latin America, while at the same time playing an important role as a driver of innovation in the aerospace industry. It has a fleet of nine satellites in six orbital slots. The Amazonas Nexus satellite, launched in early February 2023, entered into commercial service in July 2023.

The Hispasat subgroup offers broadband and satellite connectivity solutions, including internet access, mobility and cellular network extension, as well as other value-added propositions to governments, corporations and telecommunications operators in the Americas, Europe and North Africa. It is also a leader in the broadcasting and distribution of audiovisual content in both Spanish and Portuguese languages, including the transmission of leading direct-to-home (DTH) and high definition television (HDTV) digital platforms, as well as transmission and audiovisual signal management out of Hispasat Peru's teleport in Lurín.

These activities are carried out through Hispasat, the parent company of the subgroup, which operates and markets those satellites not located in Brazilian orbital positions; and through the companies Hispasat Canarias, S.L. (sole-shareholder company) and Hispamar Satélites, S.A., Hispamar Exterior, S.L. (sole-shareholder company), and partially through Hispasat México, S.A. de C.V., all of which operate and market those satellites located in Brazilian orbital positions. The company Hispasat Perú S.A.C. manages and transports the signals of the wholesale video signal distribution business for the LATAM region from its teleport in Lurín, Peru. In August 2022, the AXESS subgroup, which provides satellite connectivity services to the corporate and governmental segments in the LATAM and EMEA regions and is made up of 12 companies, became part of this corporate structure within the larger Hispasat subgroup.

The Hispasat subgroup has a corporate presence across 12 countries: Spain, Brazil, Peru, Mexico, Colombia, Ecuador, Chile, Argentina, Colombia, the United States, Germany and the United Kingdom and serves customers in more than 50 countries.

A new satellite, known as Amazonas Nexus, was successfully launched on 7 February 2023 (orbital position 61° West). It is a high-performance geostationary satellite that will bring high-speed internet access to the entire American continent, North and South Atlantic air corridors and remote regions such as Greenland and the Amazon forest. It is designed specifically to provide high-quality connectivity in aircraft and boats and will help reduce the digital divide in Latin America swiftly and efficiently. This launch has made Hispasat the world's first satellite operator to offset the carbon footprint derived from the entire launch process through a reforestation programme

to be carried out by its subsidiary Sylvestris, which is part of Hispasat's sustainability plan, aligned with the sustainability commitments of Redeia.

Since its launch, Hispasat has entered into several agreements for the long-term lease of Amazonas Nexus capacity with operators and service providers in the government space and players in the mobile connectivity space.

DESCRIPTION OF RED ELÉCTRICA DE ESPAÑA, SOCIEDAD ANÓNIMA UNIPERSONAL

Introduction

Red Eléctrica de España. S.A.U. ("**Red Eléctrica**") is a wholly-owned subsidiary of Redeia Corporación. Red Eléctrica is registered with the Mercantile Registry (*Registro Mercantil*) of Madrid, Spain, under Volume 25,097, Book 195, Section 8, Page M-452031, 4th registration entry and operates under Spanish Law. Red Eléctrica holds Tax Identification Code number A-85309219. Red Eléctrica was incorporated for an indefinite time on 1 July 2008, its registered office is at Paseo Conde de los Gaitanes, 177, 28109 Alcobendas, Madrid, Spain, and its telephone number is + 34 91 6502012. Red Eléctrica's website is www.ree.es.

Management of electric infrastructure in Spain

The main activity of the Group comprises electricity transmission, system operation and management of the transmission network for the Spanish Electricity System, carried out through Red Eléctrica.

The administration body of Red Eléctrica is formed by a sole administrator and this position is carried out by its parent company, Redeia Corporación, who is represented by Mr. Roberto García Merino.

Red Eléctrica's main business activities are as follows:

Transmission

Red Eléctrica owns the majority of the Spanish transmission network, consisting of over 45,000 km of high voltage lines, over 6,200 substation bays, and over 94,000 MVA (megavolt amps) of transformation capacity.

As mentioned above, the TSO model was legally ratified with the entry into force of Law 17/2007. This law established the existence of a sole transmission company and assigned said function, together with those of system operator and transmission network manager, to Red Eléctrica, and was confirmed by new Law 24/2013.

In order to develop and maintain the transmission network, Red Eléctrica carries out the following activities:

- (1) *Planning*: Red Eléctrica's work consists of identifying future network development needs to improve the network. In this respect, it carries out the corresponding demand and supply forecast analyses and technical studies on the suitability of the transmission network.
- (2) *Development*: Red Eléctrica's investments are targeted towards the structural reinforcement and development of the transmission network, to improve the meshing of the transmission grid, integrating, and improving the transmission assets in the Balearic and Canary Islands and strengthening international interconnections. Propelling the energy transition, market integration and the sustainability of the electricity system with a major technological component and search for efficiency.

As mentioned above, the structural reinforcement of the transmission network includes the development of international interconnections, to ensure security of supply in Spain as well as the integration of the Spanish electricity market into other markets. The increase of interconnection capacity will enable to confront the greater variability of renewable generation, minimising waste in a context of increased green generation capacity, reducing the need for backup generation and facilitating the development of the internal energy market in Europe, which will be a key tool for the operation of the electricity system. In this regard, the development of interconnections with France, which connects the Spanish and Portuguese electricity systems to other European electricity systems, is paramount to Red Eléctrica's activities. Additionally, increasing and expanding these interconnections is one of the principal objectives of EU energy policy.

- (3) *Maintenance*: the maintenance of the equipment and systems that make up the high-voltage transmission network requires the application of strict quality controls, the use of predictive maintenance techniques, and the performance of intensive work.

As a result of the coordination between power downtime for construction and maintenance work, the quality of the facilities and use of the above-mentioned maintenance techniques, Red Eléctrica benefits from a high degree of availability of its electricity transmission facilities. This in turn has enabled Red Eléctrica to achieve the following service quality indicators in terms of security and continuity of supply as at 31 December 2023:

Quality indicators	2023(*)
Network availability index (per cent)	97.60
Average interrupt time (AIT) in minutes	0.29
Energy not supplied (ENS) MWh	127.9

Remuneration model

The current regulation for electricity transmission in Spain was approved by means of Circular 5/2019, of 5 December, of the National Markets and Competition Commission in Spain ("CNMC"), establishing the methodology for the calculation of the remuneration of the electric energy transmission activity ("**Circular 5/2019**"). This model establishes a framework for the remuneration of the electricity transmission activity, encouraging continuous improvement in management efficiency and network availability. This model is applicable for the current regulatory period 2020-2025.

The regulation establishes a formula for remunerating transmission assets, using a single methodology. This is based on net asset values of all assets in service at a rate indexed to the WACC (weighted average cost of capital) established by Circular 2/2019, of 12 November, establishing the methodology of calculation of the financial remuneration rate of the transmission and distribution of electric energy ("**Circular 2/2019**"), and with regulatory 6-year periods. The remuneration will be adjusted according to articles 18 and 19 of Circular 5/2019, related to adjustment in the remuneration due to the use of regulated assets for other activities and penalties resulting from the principle of financial prudence.

Each installation comprises a remuneration for investment and a remuneration for operation and maintenance. The model is based on benchmark unit investment costs, and unit operation and maintenance values. The guidance memorandum for Circular 5/2019 and Circular 7/2019, of 5 December, of the CNMC, approving the standard installations and the benchmark unit values for installation and maintenance by element of property plant and equipment to be used in the calculation of the remuneration of companies owners of electric energy transmission facilities ("**Circular 7/2019**") establishes that the unit investment cost remains unchanged for this new regulatory period, whereas the unit operation and maintenance cost have been updated according to the new values published in Circular 7/2019.

Remuneration for investments

Investment return (RI_n^i): the remuneration for investments is comprised of an amount of annual depreciation (A_n^i) and the return on the capital invested (RF_n^i):

$$RI_n^i = A_n^i + RF_n^i$$

The calculation of the remuneration for investment takes into account the financial remuneration obtained by applying the financial remuneration rate to the value of the investment that has the right to remuneration in net terms.

The value of the investment is calculated as the real value of the investment plus/minus 50 per cent of the difference between the benchmark unit value and the real value. However, this synergy in the construction of installations has a cap of 12.5 per cent. The model postpones the assets remuneration from year "n-2" when the asset is commissioned to the year "n" but a "delay factor mechanism" recognises the financial cost of this delay added to the value of the investment.

The financial remuneration rate is approved by Circular 2/2019 and is based on the WACC. The financial remuneration rate is subject to review at the end of the regulatory period. The financial remuneration rate of 5.58 per cent has been established for the current regulatory period 2020-2025, but for 2020 that rate was fixed in 6.003 per cent.

The asset is depreciated based on its regulatory useful life, which is 40 years for most installations.

Operation and maintenance costs

Operation and maintenance costs are remunerated by applying the benchmark unit values to all installations in operation.

As described under the title "*Remuneration model*", the new operation and maintenance unit values have been established by Circular 7/2019 for the current regulatory period 2020-2025. These operation and maintenance values have been reduced from the ones established in the Order IET/2659/2015 and applied over the last regulatory period. A limitation of the 50 per cent of the reduction has been implemented in the model, in order to share the impact of the new unit values in the remuneration.

Remuneration for Assets in operation

The methodology approved by Circular 5/2019 applies to all installations, regardless of the date they entered into operation.

Nevertheless, for the valuation of fixed assets with the right to remuneration of installations in service, a distinction has been made between values in service before 1998, and those starting up after 1 January 1998:

- Value of assets entered into service before 1998 is calculated implicitly, based on the actual remuneration received for the investment component and an average residual life was established in 7 years from January 1, 2016. A resolution from the Directorate General of Energy Policy and Mines (*Dirección General de Política Energética y Minas*) ("**DGEPM**") of MITERD (as defined below) has increased in 1 year the residual life for these assets.
- Value of assets commissioned subsequent to 1998 up to 31st of December 2017 will be measured at their replacement cost based on the benchmark unit values, and taking into account their specific useful life.

End of the assets' useful life

Once an asset reaches the end of its regulatory useful life, the remuneration will be calculated (from 1 January 2024) as the value of its operation and maintenance remuneration plus a new term called REVU:

$$REVU_n^j = \mu_n^j \cdot ROM_n^j$$

μ_n^j is the coefficient for the extension of its useful life which will vary between 0.3 and 1 depending on the number of years that the regulatory useful life is extended.

Global incentive for availability of the transmission network

Circular 5/2019 establishes incentives for the efficiency and availability of the transmission network. This global incentive can range from a maximum amount of +2.5 per cent to a minimum amount of -3.5 per cent of the O&M remuneration. The global incentive of availability of the transmission company will be calculated by comparing the availability of the transmission company in year "n- 2", with the minimum global availability weighted index required to the transmission company and the objective availability weighted index established for the regulatory period.

Current remuneration of the transmission activity

In 2019, Royal Decree-Law 1/2019 was passed, aimed at determining a new competencies distribution between the Government and Independent Regulatory Authority, the CNMC. Until 2019, the responsibility for setting the remuneration model for the transmission activity (Royal Decree 1047/2013) and setting regulated annual revenues was held by the MITERD. Since 2020, the responsibility for setting the remuneration model (Circular 5/2019) and setting regulated annual revenues lies on the National Regulatory Authority, CNMC.

Regulated annual revenues from the transmission activity had been set provisionally for the years 2016 to 2024 (MITERD 2016-2019 and CNMC 2020-2024). In December 2022, the MITERD approved the Orden TED/1343/2022, establishing the final remuneration for the electricity transmission activity for the period 2017-2019 (final remuneration for year 2016 had also been approved by the MITERD through a different procedure in the context of a judicial claim). In 2023, the CNMC published the resolution of the definitive remuneration for 2020, and in 2024 the final remuneration for 2021, having now to establish the final remuneration for the following years.

The transmission company receives the remuneration through a settlement methodology managed by the CNMC. According to this procedure, distributors communicate their monthly income from system access tariffs to the CNMC. The CNMC deducts from such incomes the relevant percentages to cover various fixed costs of the electricity system (*costes permanentes del sistema*), diversification and security-of-supply costs. These fixed costs also include sums paid by CNMC to satisfy the "specific remuneration regime" (*regimen retributivo específico*) that applies to renewable energy and other specific technologies. The resulting sum is used to meet the recognised costs of the transmission activities (in Red Eléctrica's case), distribution activities, and other regulated costs.

Finally, it is worth mentioning Communication 1/2019, 23 October, of the CNMC, defining ratios to assess the level of indebtedness and the economic-financial capacity of companies that carry out regulated activities, and recommended ranges of values for these ratios. The Communication defines a Global Ratio Index (GRI), which weights five ratios according to their relative importance, so that an average rating per company can be obtained, ranging from 0 (minimum) to 1 (maximum). If the GRI is lower than 0.90, a financial penalty is established, which may not exceed 1% of the annual remuneration of the network asset holder. Red Eléctrica has an GRI of 1 for the year commencing on 1 January 2024.

System Operation

Red Eléctrica operates in the Spanish mainland, island and non-mainland electricity systems, addressing the continuity and security of the electricity supply.

As system operator, Red Eléctrica aims to provide a balance between electricity output and consumption in Spain. To achieve this target, it predicts electricity demand and operates, in a coordinated manner and in real time, the electricity generation and transmission facilities, thereby ensuring that the programmed output of power stations meet actual consumer demand for electricity.

In order to perform the functions with which it is entrusted, Red Eléctrica as system operator, must act in accordance with the following principles set out in Law 54/1997, and ratified in Law 24/2013:

- Independence
- Transparency
- Objectivity
- Economic efficiency

Power control centres are one of the basic elements used by Red Eléctrica to perform the functions assigned by the Electrical Sector Law as system operator. These centres coordinate and control the generation and transmission of electricity in real time.

In 2006, Red Eléctrica designed, put in place and started the operation of the Special Regime Control Centre ("**CECRE**") in order to integrate the maximum amount of generation from renewable energy sources into the electricity system, whilst ensuring quality levels and security of supply. This centre is integrated into the Electricity Control Centre ("**CECOEL**") responsible for the coordinated operation and real-time monitoring of the generation and transmission facilities of the national electricity system.

Circular 4/2019 of 27 November, has established a methodology for the remuneration of the operator of the electric system ("**Circular 4/2019**") sets out for the first time the methodology for the remuneration of the system operator and a price-fixing system to govern the price to be paid by agents intervening in the market for the services provided by the system operator in order to finance it. The methodology, based on a revenue cap scheme, includes a base remuneration which comprises a remuneration for investment based on amortization and financial compensation and a remuneration for operation and maintenance with an additional margin. Besides this base remuneration, the methodology includes a term for incentives and a term called regulatory account, which consist on an fixed amount of money to develop new obligations due to new regulation.

The regulatory parameters are established for 3 year periods. After the first being 2020-2022, the second period has now started (2023-2025). Circular 4/2019 was amended by Circular 1/2023, including some changes to the incentive scheme for the new regulatory period 2023-2025.

Environmental Matters

In 1992, Redeia implemented the first environmental protection code in the Spanish electricity industry to regulate all of its activities. In 1998, it also established a formal environmental protection policy to govern all of its activities. Since October 2001, the Group uses an environmental management system, certified to the UNE-EN ISO 14001 standard, and registered under the EU Eco-Management and Audit Scheme (EMAS).

In 2004, Group became the first business group from the energy sector in Spain to obtain an environmental certification from the Spanish Normalisation and Certification Association (*Asociación Española de Normalización y Certificación*) for all of its electricity transmission activities and facilities.

The Group's commitment to operate in accordance with the most challenging requirements associated with environmental management forms an integral part of, and is reflected in, its environmental policy.

The Company's main environmental impacts are those related to the construction of the electricity transmission network facilities and their physical presence within the environment. The Group works to minimize these impacts, considering the entire life cycle of its facilities and paying special attention to the protection of biodiversity. In view of its role as a leading player in the transition towards a carbon-free energy model, Redeia has embraced a specific commitment in relation to the fight against climate change. Thus, the Group's environmental commitment takes shape across three main fronts: Environmental management and integration of facilities in the environment, Biodiversity protection, and Climate change.

Law 7/2021, of 20 May, on climate change and energetic transition entitles the Spanish government to request Red Eléctrica as TSO to prepare a decarbonization strategy for this activity in the context of the Decarbonization Strategy for Spain 2050, once the relevant regulation establishing the criteria to prepare said strategy is approved.

In evidence of the Group's commitment to environmental matters, the Group companies incurred total ordinary expenses of EUR 24,947 thousand in protecting and improving the environment (EUR 24,934 thousand in 2022), essentially due to the implementation of environmental initiatives aimed at protecting biodiversity, fire prevention, landscape integration, climate change, and prevention of pollution. In 2023 a total expense of EUR 2,938 thousand (EUR 4,540 thousand in 2022) was incurred on environmental issues associated with investment projects (including environmental impact studies, environmental oversight of work, and the adoption of preventive, corrective and accompanying measures). To the best knowledge and belief of the Issuer and the Guarantors, at the date of the Base Prospectus, the Group has no material litigation or contingencies relating to environmental protection.

Red Eléctrica belongs to the most reputable sustainability indices, in recognition of its excellent track record in this connection and its firm commitment to transparency in its reporting to third parties. The company is a component of the following indices: Dow Jones Sustainability Index (DJSI), FTSE4Good, CDP, Euronext Vigeo Eiris, Ethibel and MSCI.

Management at Red Eléctrica believes that it is materially compliant with all environmental laws and regulations affecting its operations. There can be no assurance, however, that new regulations will not be made, which could have an adverse impact on its future operations.

Management

The administration body of Red Eléctrica is formed by a sole administrator and this position is carried out by its parent company, Redeia Corporación.

The executive officers of the Group and their respective positions, as at the approval date of the Base Prospectus, are as follows:

The business address of the executive officers is: Paseo del Conde de los Gaitanes 177, 28109 Alcobendas, Madrid, Spain.

The directors of Red Eléctrica have no principal activities performed by them outside the Group which are significant with respect to Red Eléctrica.

To the best knowledge and belief of the Issuer and the Guarantors, as at the date of the Base Prospectus, there are no conflicts of interest between the duties of the persons listed above to the Guarantor, and their private interests or other duties in accordance with the Spanish law.

Overview of the Spanish Electricity Industry

The Spanish electricity industry, as with the rest of the countries in the EU, has been greatly influenced by European regulations. The publication of Directive 96/92/CE ("**Directive 96/92**") concerning common rules for the internal market in electricity, established clear objectives and a minimum criteria of liberalization, as well as the introduction of levels of competence in the electricity sector.

Spain was one of the first countries to adapt its legislation to Directive 96/92 through the Electricity Act that entered into force in 1997, "**Ley 54/1997**". This act aimed to change the state of the electricity sector, from a structure based on vertically-integrated companies organized as regional monopolies, to a liberalized electricity sector, based on free competition.

The overarching changes introduced by this act were the separation of regulated activities (transmission and distribution) from those on free competition (generation and supply), and the liberalization of contracting and election of suppliers for consumers. This also included free access to transmission and distribution grids through the payment of an access tariff and the creation of the System Operator and Market Operator.

In accordance with this new regulatory framework, Red Eléctrica continued to pursue its transmission activity and was assigned the functions of "System Operator", resulting in the first Transmission System Operator (TSO) in Europe. Later, through the transposition of Directive 2003/54/CE, through Law 17/2007, Red Eléctrica was designated as the sole transmission and system operator in Spain.

The "Tariff Deficit" (the deficit between regulated costs and income obtained from tariffs) was one of the most considerable challenges in the Spanish electricity sector as a result of this regulatory framework. In order to eliminate this problem, during the years 2012 and 2013 numerous changes were made to the Electricity Act of 1997 to reduce regulatory costs, and to encourage the incremental increase in income of the electricity sector.

These changes precipitated the reform of electricity sector regulation, finally compiled in a new version of the Electricity Act ("**Ley 24/2013**"), which ratifies Red Eléctrica's designation as sole transmission and system operator.

Since 2013, once the tariff deficit problem had been tackled, the main regulatory focus in the electricity industry has been to promote the energy transition to a decarbonised economy. Currently, Spain has a Strategic Energy and Climate Framework, whose key elements include the National Integrated Energy and Climate Plan (PNIEC) 2021-2030 (currently under review to increase the ambition of its main energy and climate objectives) and Law 7/2021, of climate change and energy transition, which establishes the objective of climate neutrality by 2050.

Regulatory bodies in the Spanish electricity industry

In January 2019 the Royal Decree-law 1/2019 about urgent measures to adapt competencies of the CNMC to requirements derived from Directives 2009/72/EC and 2009/73/EC of the European Parliament and of the Council of 13 July 2009 concerning common rules for the internal market in electricity and natural gas ("**Royal Decree-Law 1/2019**") was passed, aimed at determining a new competencies distribution between the Government and Independent Regulatory Authority, the CNMC, that respects European Union regulatory framework, so providing the CNMC the necessary independence to develop its functions.

Thus, with this Royal Decree-Law 1/2019, the CNMC was assigned some functions previously attributed to the State General Administration, the Ministry responsible for Energy, and was also allocated some new functions related to its condition as advisory body of the Government in electrical matters.

After Royal Decree-law 1/2019, the State General Administration, currently through the Ministry of Ecological Transition and the Demographic Challenge ("**MITERD**"), remains as the main regulator of the electricity industry in Spain. Its main functions in this respect, amongst others, are establishing the basic regulations for electricity activities and to carry out the planning of electricity infrastructures, indicative for generation assets and binding for transmission facilities.

The CNMC is the independent regulatory agency for the electricity sector, whose main function is, to ensure effective competition and objective transparency in electricity sector performance. Among others, the CNMC has the responsibility of fixing the structure and prices of electricity access tariffs, the functions related with determining the remuneration of transmission, distribution and system operation activities and those corresponding to access and connection to transmission and distribution grid conditions. In addition, the Royal Decree-Law 1/2019 also reinforces CNMC function of supervising transmission grid planning and development.

Currently, the structure and functions of CNMC are being reviewed by the Spanish Government, with the objective of establishing a specific regulatory agency for the energy sector, separated from the rest of the sectors regulated by the CNMC. Specifically, a public consultation has been carried out by the Government, presenting a draft bill that would re-establish the former National Energy Commission, which would absorb the functions of the CNMC in energy matters, as well as some new ones, such as the supervision of hydrogen.

Regulation of transmission activity

The aim of the transmission activity is to transport electricity from generation to distribution points. The transmission grid in Spain is formed by lines, transformers and other elements of 220 kV or higher voltage, as well as any international interconnections. In the Canary and Balearic Islands the voltage level on this matter is reduced to 66 kV and over.

Every 6 years, Red Eléctrica is required by law to propose the future needs of the system in order to guarantee security of supply and the need of new transmission infrastructure. Following such proposal, the Ministry for the Ecological Transition and Demographic challenge (*Ministerio para la Transición Ecológica y el Reto Demográfico – MITERD*) elaborates the Electricity Network Planning (*Planificación Eléctrica*). Such proposal must be approved by the Spanish Government, prior submission to the Spanish National Parliament. The Plan 2021-2026 was approved by the Spanish Council of Ministers on 22 March 2022, with an investment of more than EUR 6,964 million. The goal of this Plan is to deploy the relevant transmission network that guarantees high levels of quality in the supply of electricity and to help Spain progress to have a carbon-free energy model and fight against climate change.

Furthermore, the new transmission planning has already begun to be processed, following the publication of Order TED/1375/2023, which initiates the procedure for making proposals for the development of the electricity transmission network with a 2030 horizon.

Under Law 24/2013, a yearly investment plan must be presented by Red Eléctrica and approved by the MITERD. Additional approval by the MITERD is needed in order to build, modify, use, transfer or close and decommissioning of transmission facility. Among the factors taken into consideration when granting approval are:

- i. the technical and safety conditions of the facility and the corresponding equipment;
- ii. the existence of adequate measures for environmental protection;
- iii. the appropriateness of the proposed location; and
- iv. the legal, technical and financial capability of the applicant company.

The construction, operation and maintenance of Red Eléctrica's transmission facilities is remunerated through a methodology established by the National regulatory Authority (*Comisión Nacional de los Mercados y la Competencia – CNMC*), and Red Eléctrica receives a monthly amount through a settlement process administered by the CNMC.

This methodology experienced numerous changes during the reform of electricity sector regulation, and was finally established in the above-mentioned Circular 5/2019.

Additionally, Law 24/2013 states that third-party access to the Spanish transmission grid is to be managed by Red Eléctrica and that access may only be denied on the grounds of lack of capacity, on security grounds, regularity or quality of supply reasons, or by lack of economic efficiency and sustainability of electric system criteria. Royal Decree-Law 1/2019 also entailed a reorganization of competences in the field of access and connection to networks between the CNMC and the Government. As a result, the Government adopted the Royal Decree 1183/2020 and CNMC the Circular 1/2019. In addition, Royal Decree-Law 8/2023 introduced changes to RD 1183/2020, to regulate access and connection of demand facilities. The CNMC is now processing the access and connection circular for demand facilities, with approval expected in the second quarter of 2024.

Regulation of system operator activity

As discussed in the section entitled "*System Operation*", Law 24/2013 requires Red Eléctrica to perform the functions of system operator. In this capacity, Red Eléctrica is responsible for the technical operation of the electricity system, including the continuity and security of electricity supply and the co-ordination of generation and transmission systems.

As system operator, Red Eléctrica reviews the daily base operating schedule prepared by the market operator, identifying technical constraints and, eventually, the need to modify the schedule. The technical and instrumental rules necessary to carry out the adequate technical management of the mainland electricity system and the non-mainland electricity systems are included in the so-called "operating procedures".

The system operation remuneration methodology was fixed by CNMC through Circular 4/2019 of 27 November (see *System Operation* section).

The regulation of non-mainland electricity systems in Spain

The peculiarities arising from the geographical location of non-mainland electricity systems, creates the need for a special regulation of these systems. Law 24/2013 refers specifically to this need.

Regarding the activities of transmission and system operations in these territories, Law 24/2013 regulates the lower voltage level required for lines, transformers and other elements to be transmission facilities, and determines functions of system operators in non-mainland systems.

In order to reinforce this special regulation, 2013 saw the passing of Law 17/2013, of 29 October, for supply guarantee and enhancing competition in non-mainland territories that, among other provisions, created the possibility of assigning to the System Operator the ownership and operation of the pumping – storage facilities whose main purpose is providing guarantee of supply, system security, and integration of renewable energy.

In order to comply with this law, the Chira-Soria pumping storage project in Gran Canaria, originally assigned to Endesa, was officially passed on to Red Eléctrica on the 17 July 2015.

In 2015, Royal Decree 738/2015 was approved, establishing the administrative, economic and legal regime that applies to pumping storage facilities owned by the System Operator, providing the principles for a transparent and stable regulatory framework for these assets. In December 2022, the MITERD approved the remuneration model and the remuneration parameters of the Chira-Soria pumping storage project in Order TED/1243/2022. The remuneration parameters are: investment income (amortisation and financial remuneration), O&M (fixed and variable) and remuneration associated with the construction phase, incentives for the activity of electric energy storage (related to renewable energy integration).

This regulatory framework explained above was validated by the European Commission for the Canary Islands in a Decision of December 8, 2023.

The Internal Electricity Market

The first approach to the realization of the internal electricity market was taken in 1996 with the publication of Directive 96/92/EC of 19 December 1996 concerning common rules for the internal market in electricity, which established the necessary steps in order to:

- i. open up the construction of new electricity generation capacity to competition;
- ii. "unbundle" the accounts for electricity generation, transmission and distribution operations;
- iii. designate a transmission network and a distribution network operator; and
- iv. introduce a system of third- party access to the network.

Directive 2003/54/EC of the European Parliament and of the Council of 26 June 2003 concerning common rules for the internal market in electricity and repealing Directive 96/92/EC ("**Directive 2003/54/EC**") and Directive 2009/72/EC of the European Parliament and of the Council of 13 July 2009 concerning common rules for the internal market in electricity and repealing Directive 2003/54/EC ("**Directive 2009/72/EC**") established new regulations in order to continue with the construction of the internal electricity market. The 2003 Directive established rules on the organization and functioning of the electricity industry in Member States, and amended the rules in the 1996 Directive, which had fallen short of the goal to create a transparent, non-discriminatory and competitive internal market in electricity.

The 2009 Directive, amongst other things, provided for the creation of a European network of transmission system operators (TSOs) of electricity (ENTSO-E), through which transmission system operators (TSOs) co-operate to manage and develop a coordinated European transmission grid. Since its creation, ENTSO-E has been working to promote the realization and operation of the internal electricity market. To this end, ENTSO-E, in collaboration with the European Transmission System Operators (TSOs), has been working to develop Network Codes and Guidelines, European common rules referring to security of supply, information exchange, capacity allocation and congestion management, balancing, etc.

Additionally, Regulation 2009/714/EC sets out the provisions for the electricity exchanges within the EU and regulates the procedure of designation and certification of transmission system operators (TSOs), aimed at verifying the unbundling and independent performance of TSOs, in accordance with the principles established under Article 9 of the 2009 Directive.

The certification procedure of Red Eléctrica was completed in February 2015 with the publication in the Official Journal of European Union (OJEU) of the Notification of the Spanish Government to the European Commission, communicating the official approval and designation of Red Eléctrica as Transmission System Operator (TSO) in Spain.

From a regulatory European perspective, 2019 was of particular relevance due to the completion of a comprehensive update of the European Union's energy policy framework to facilitate the transition towards a cleaner energy system, and to deliver on the Paris Agreement commitments for reducing greenhouse gas emissions. This new regulatory framework, the so-called "*Clean energy for all Europeans package*" included, among other measures, a new Regulation (EU) 2019/943 of the European Parliament and of the Council of 5 June 2019 on the internal market for electricity, repealing Regulation (EC) n° 714/2009, and a new Directive (EU) 2019/944 of the European Parliament and of the Council of 5 June 2019 on common rules for the internal market for electricity repealing Directive 2009/72/EC. In 2023, on the occasion of the European Commission's proposed reform of the internal electricity market, both Regulation 2019/943 and Directive 2019/944 are in the process of being revised, with an agreement having already been reached between the European co-legislators (European

Parliament and Council), with the aim of making electricity prices less dependent on the volatility of fossil fuel prices, protecting consumers from price shocks and accelerating the deployment of renewable energies.

Of particular relevance for the achievement of the internal electricity market, which affects Red Eléctrica and the Spanish power system, is also the approval of Regulation (EU) 2018/1999 of the European Parliament and of the Council of 11 December 2018 on the Governance of the Energy Union and Climate Action, which explicitly refers to the 15 per cent interconnection target for 2030.

In compliance with the provisions set out in the above-mentioned Regulation (EU) 2018/1999, Spain published its National Integrated Energy Plan 2021-2030 (PNIEC). This document stresses the importance of achieving the interconnection target and states the Government's purpose of raising the interconnection capacity with Portugal to 3.000 MW through a new interconnection and up to 8.000 MW with France through 3 new interconnections.

The next important legislative package, presented after the completion of the Clean Energy Package for all Europeans, has been the European Green Deal, which seeks to achieve climate neutrality in the EU by 2050. Within the European Green Deal, the Regulation (EU) 2022/869 of the European Parliament and of the Council, of May 30, 2022, on guidelines for trans-European energy infrastructures, stands out for its importance for Red Eléctrica's activity. This regulation regulates, among other things, projects of common interest (PCIs) for cross-border energy infrastructures, as well as their selection process, which can benefit from EU funding such as the 'Connection Europe Facility' funds. In this regard, the France - Spain interconnection project 'Biscay Gulf', which has PCI status, has received €578 million of CEF funds.

Another important piece of legislation in the European Green Deal is Directive (EU) 2023/2413 of the European Parliament and of the Council of 18 October 2023 amending Directive (EU) 2018/2001, as regards the promotion of energy from renewable sources. This Directive increases the overall EU renewable energy target to 42.5% by 2030.

TAXATION

The following is a general description of certain Spanish, US, EU and Luxembourg tax considerations relating to the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes, whether in those countries or elsewhere. Prospective purchasers of Notes should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of those countries. This overview is based upon the law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date.

FATCA

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "**foreign financial institution**" may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting, or related requirements. A number of jurisdictions (including Spain) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to the date that is two years after the publication of the final regulations defining "foreign passthru payment" and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining "foreign passthru payments" are filed with the U.S. Federal Register generally would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes.

TAXATION IN SPAIN

Whatever the nature and residence of the holder of a beneficial interest in the Notes (each, a "**Beneficial Owner**"), the acquisition and transfer of the Notes will be exempt from indirect taxes in Spain, for example exempt from transfer tax and stamp duty, in accordance with the consolidated text of such tax promulgated by Royal Legislative Decree 1/1993, of 24 September, and exempt from value added tax, in accordance with Law 37/1992, of 28 December regulating such tax.

1 Individuals with Tax Residency in Spain

1.1 Personal Income Tax (Impuesto sobre la Renta de las Personas Físicas)

Both interest periodically received and income deriving from the transfer, redemption or repayment of the Notes would constitute a return on investment obtained from the transfer of own capital to third parties in accordance with the provisions of Section 25.2 of the Personal Income Tax Law, and should be included in each investor's taxable savings and taxed at the tax rate applicable from time to time, currently 19 per cent. for taxable income up to €6,000.00 21 per cent. for taxable income between €6,000.01 and €50,000.00, 23 per cent. for taxable income between €50,000.01 and €200,000.00, 27 per cent. for taxable income between €200,000.01 and €300,000, 28 per cent. for taxable income exceeding €300,000.00. As a general rule, both types of income are subject to a withholding tax on account at the current rate of 19 per cent.

(a) *In respect of the Bearer Notes* – According to Section 44.5 of RD 1065/2007, of 27 July, the Issuer will make interest payments to individual holders who are resident for tax purposes in Spain without withholding provided that the relevant information about the Bearer Notes set out in Annex I is submitted by the Fiscal Agent in a timely manner. In addition, income obtained upon transfer, redemption or exchange of the Notes may also be paid without withholding.

Notwithstanding the above, withholding tax at the current applicable rate of 19 per cent. may have to be deducted by other entities (such as depositaries, institutions or financial entities) provided that such entities are resident for tax purposes in Spain or have a permanent establishment in Spanish territory.

(b) *In respect of the Book-entry Notes* – A 19 per cent. withholding on account of Personal Income Tax will be imposed on interest payments by the Issuer.

However, with certain exceptions, income derived from the transfer of the Book-entry Notes should not be generally subject to withholding on account of Personal Income Tax provided that the Notes are:

- (i) Registered under book-entries (*anotaciones en cuenta*); and
- (ii) traded in a Spanish official secondary market (*mercado secundario oficial*), such as AIAF.

Except that withholding tax shall apply to the part of the transfer price that corresponds to the accrued interest when the transfer of the Book-entry Notes takes place within the 30-day period prior to the moment in which such interest is due, when the following requirements are fulfilled: (i) the acquirer is an individual or entity not resident in Spanish territory, or is a taxable person for CIT purposes; and (ii) the express yield derived from the Book-entry Notes being transferred is exempt from the obligation to withhold in relation to the acquirer.

In any event, individual holders may credit the withholding against their Personal Income Tax liability for the relevant fiscal year.

1.2 Wealth Tax (Impuesto sobre el Patrimonio) and Solidarity Tax (Impuesto Temporal de Solidaridad de las Grandes Fortunas)

Individuals with tax residency in Spain will be subject to Wealth Tax to the extent that their net worth exceeds €700,000 (subject to any exceptions provided under relevant legislation in an autonomous region (*Comunidad Autónoma*)). Therefore, they should take into account the value of the Notes which they hold as at 31 December in each year, the applicable rates ranging between 0.2 per cent. and 3.5 per cent.

In addition to the above, the so-called "Solidarity Tax" was approved in December 2022, which is a two-year direct wealth tax that, in general terms, applied, under certain conditions, to those residents in an autonomous region where the Wealth Tax is partial or fully exempt (as Madrid and Andalusia).

The rates of the "Solidarity Tax" are

Taxable base up to (Euros)	Tax due (Euros)	Rest of taxable base (Euros)	Rate
0.00	0.00	3,000,000.00	0%
3,000,000.00	0.00	2,347,998.03	1.7%
5,347,998.03	39,915,97	5,347,998.03	2.1%
10,695,996.06	152,223,93	Any excess	3.5%

Note that the regulation lays down a minimum exempt amount of €700,000 which means that its effective impact, in general, will occur when the net wealth, not tax exempt, is greater than €3,700,000.

1.3 Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*)

Individuals resident in Spain for tax purposes who acquire ownership or other rights over any Notes by inheritance, gift or legacy will be subject to the Inheritance and Gift Tax in accordance with the applicable Spanish regional or State rules (subject to any regional tax exemptions being available to them). The applicable effective tax rates can range between 0 per cent and 81.6 per cent subject to any specific regional rules, depending on relevant factors.

2 Legal Entities with Tax Residency in Spain

2.1 Corporate Income Tax (*Impuesto sobre Sociedades*)

Both interest periodically received and income derived from the transfer, redemption or repayment of the Notes constitute a return on investments for tax purposes obtained from the transfer to third parties of own capital and would have to be included in profit and taxable income of legal entities with tax residency in Spain for Corporate Income Tax purposes in accordance with the rules for Corporate Income Tax. The current general tax rate according to CIT Law is 25 per cent.

(a) *In respect of the Bearer Notes* – In accordance with Section 44.5 of RD 1065/2007, there is no obligation to withhold on income payable to Spanish CIT taxpayers. Consequently, the Issuer will not withhold on interest payments to Spanish CIT taxpayers in the terms described under "Information about the Notes in Connection with Payments" below.

Income derived from the transfer of the Notes shall not be subject to withholding tax as provided by Section 61(s) of the Corporate Income Tax Regulations, to the extent that the Notes satisfy the requirements laid down by the reply to the Directorate General for Taxation's (Dirección General de Tributos) consultation, on 27 July 2004, indicating that in the case of issuances made by entities with tax residency in Spain, (as in the case of the Issuer), application of the exemption requires that the Notes be placed outside Spain in another OECD country and traded on organised markets in OECD countries.

However, in the case of Notes held by Spanish resident entity and deposited with a Spanish resident entity acting as depositary or custodian, payments of interest under the Notes may be subject to withholding tax at the current rate of 19 per cent., withholding that will be made by the depositary or custodian, if the Notes do not comply with the exemption requirements specified in the ruling issued by the Spanish Tax Authorities (Dirección General de Tributos) dated 27 July 2004 and require a withholding to be made.

Notwithstanding the above, amounts withheld, if any, may be credited by the relevant investors against its final CIT liability.

(b) *In respect of the Book-entry Notes* – Pursuant to Section 44.4 of RD 1065/2007, there is no obligation to withhold on income payable to CIT taxpayers. Consequently, the Issuer will not withhold tax on interest payments to Spanish CIT taxpayers provided that the reporting obligations described under "Information about the Notes in Connection with Payments" below are complied with.

With regard to income derived from the transfer of the Book-entry Notes, in accordance with article 61.q of the CIT regulations, there is no obligation to withhold on income obtained by Spanish CIT taxpayers provided that the relevant securities are:

- (i) registered under book-entries (*anotaciones en cuenta*); and
- (ii) traded in a Spanish official secondary market (*mercado secundario oficial*), such as AIAF.

2.2 **Wealth Tax (*Impuesto sobre el Patrimonio*) and Solidarity Tax (*Impuesto Temporal de Solidaridad de las Grandes Fortunas*)**

Spanish resident legal entities are not subject to Wealth Tax.

2.3 **Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*)**

Legal entities tax resident in Spain which acquire ownership or other rights over the Notes by inheritance, gift or legacy are not subject to Inheritance and Gift Tax and must include the market value of the Notes in their taxable income for Spanish Corporate Income Tax purposes.

3 **Individuals and Legal Entities with no Tax Residency in Spain**

3.1 **Non-Resident Income Tax (*Impuesto sobre la Renta de No Residentes*)**

Income obtained by Noteholders who are Non-Resident Income Tax taxpayers, both on interest and in connection with the transfer, repayment or redemption of the Notes, whether or not through a permanent establishment, shall be considered Spanish source of income and therefore subject to taxation in Spain under the NRIT Law, without prejudice to the provisions contained in any applicable tax treaty for the avoidance of double taxation.

(a) *Non-Spanish resident investors acting through a permanent establishment in Spain*

Ownership of the Notes by investors who are not resident for tax purposes in Spain will not in itself create the existence of a permanent establishment in Spain.

If the Notes form part of the assets of a permanent establishment in Spain of a person or legal entity who is not resident in Spain for tax purposes, the tax rules applicable to income deriving from such Notes are the same as those for Spanish Corporate Income Tax taxpayers.

(b) *Non-Spanish resident investors not acting through a permanent establishment in Spain*

Both interest payments periodically received and income derived from the transfer, redemption or repayment of the Notes, obtained by individuals or entities who have no tax residency in Spain, and which are Non-Resident Income Tax taxpayers with no permanent establishment in Spain, are exempt from such Non-Resident Income Tax on the same terms laid down for income from public debt. In relation to payments made by the Issuer in respect of the Notes, please see "*Information about the Notes in Connection with Payments*" below.

3.2 **Wealth Tax (*Impuesto sobre el Patrimonio*) and Solidarity Tax (*Impuesto Temporal de Solidaridad de las Grandes Fortunas*)**

Individuals resident in a country with which Spain has entered into a double tax treaty in relation to the Wealth Tax would generally not be subject to such tax. Otherwise, non-Spanish resident individuals whose properties and rights located in Spain, or that can be exercised within the Spanish territory exceed €700,000 in respect of each tax year would be subject to Wealth Tax, the applicable rates ranging between 0.2 per cent. and 3.5 per cent., without prejudice to any other exemption that may be applicable. Individuals that are not resident in Spain for tax purposes may apply the rules approved by the autonomous region where the assets and rights with more value (i) are located, (ii) can be exercised or (iii) must be fulfilled.

In addition to the above, the so-called "Solidarity Tax" was approved in December 2022, which is a two-year direct wealth tax that, in general terms, applied, under certain conditions, to those residents in an autonomous region where the Wealth Tax is partial or fully exempt (as Madrid and Andalusia).

The rates of the "Solidarity Tax" are

Taxable base up to (Euros)	Tax due (Euros)	Rest of taxable base (Euros)	Rate
0.00	0.00	3,000,000.00	0%
3,000,000.00	0.00	2,347,998.03	1.7%
5,347,998.03	39,915,97	5,347,998.03	2.1%
10,695,996.06	152,223,93	Any excess	3.5%

Note that the regulation lays down a minimum exempt amount of €700,000 which means that its effective impact, in general, will occur when the net wealth, not tax exempt, is greater than €3,700,000.

3.3 Inheritance and Gift Tax (Impuesto sobre Sucesiones y Donaciones)

Individuals not tax resident in Spain who acquire ownership or other rights over the Notes by inheritance, gift or legacy, and who reside in a country with which Spain has entered into a double tax treaty in relation to Inheritance and Gift Tax will be subject to the relevant double tax treaty.

If the provisions of the foregoing paragraph do not apply, such individuals will be subject to Inheritance and Gift Tax in accordance with Spanish legislation.

According to the Additional Provision Two of the Inheritance and Gift Tax Law, non-Spanish tax resident individuals may be subject to Spanish Inheritance and Gift Tax in accordance with the rules set forth in the relevant autonomous regions in accordance with the law. As such, prospective investors should consult their tax advisers.

Non-Spanish resident legal entities which acquire ownership or other rights over the Notes by inheritance, gift or legacy are not subject to Inheritance and Gift Tax. They will be subject to Non-Resident Income Tax. If the legal entity is resident in a country with which Spain has entered into a double tax treaty, the provisions of such treaty will apply. In general, double-tax treaties provide for the taxation of this type of income in the country of residence of the beneficiary.

4 Information about the Notes in Connection with Payments

(a) *In respect of the Bearer Notes* – in accordance with article 44.5 of the regulations approved by Royal Decree 1065/2007, for the purposes of preparing the tax annual to be submitted by the Issuer, certain information with respect to the Bearer Notes must be submitted by the Fiscal Agent in a timely manner (i.e. before the close of business

on the business day immediately preceding the date on which any payment of interest, principal or any amount in respect of the early redemption of the Bearer Notes is due) in the form of a duly executed and completed statement (the "**Payment Statement in Respect of the Bearer Notes**") which shall include the following information:

- (a) Identification of the Bearer Notes in respect of which the relevant payment is made;
- (b) date on which relevant payment is made;
- (c) the total amount of the relevant payment; and

- (d) the amount of the relevant payment and to each entity that manages a clearing and settlement system for securities situated outside Spain.

In particular, the Fiscal Agent must certify the information above about the Notes by means of a certificate the form of which is attached as Annex I of this Base Prospectus.

In light of the above, the Issuer and the Fiscal Agent have arranged certain procedures to facilitate the collection of information concerning the Notes by the close of business on the Business Day immediately preceding each relevant Payment Date. If, despite these procedures, the relevant information is not received by the Issuer on each Payment Date, the Issuer will withhold tax at the then-applicable rate (as at the date of this Base Prospectus, 19 per cent.) from any payment in respect of the relevant Notes as to which the required information has not been provided. The Issuer will not pay any additional amounts with respect to any such withholding.

Accordingly, the Issuer will not be liable for any damage or loss suffered by any holder who would otherwise be entitled to an exemption from Spanish withholding tax but whose income payments are nonetheless paid net of Spanish withholding tax because these procedures prove ineffective. Moreover, the Issuer will not pay any additional amounts with respect to any such withholding. The procedures for providing documentation referred to in this section are set out in detail in the fiscal agency agreement dated 13 June 2022 (the "**Fiscal Agency Agreement**") which may be inspected during normal business hours at the specified office of the Fiscal Agent. In particular, if the Fiscal Agent does not act as common depository, the procedures described in this section will be modified in the manner described in the Fiscal Agency Agreement.

(b) *In respect of the Book-entry Notes* – in accordance with article 44.4 of the regulations approved by Royal Decree 1065/2007, for the purposes of preparing the tax annual to be submitted by the Issuer, certain information with respect to the Book-entry Notes must be submitted by the Iberclear Members that have the Book-entry Notes registered in their securities account on behalf of third parties, as well as the entities that manage the clearing systems located outside Spain that have an agreement with Iberclear, if applicable, in a timely manner (i.e. before the close of business on the business day immediately preceding the date on which any payment of interest, principal or any amount in respect of the early redemption of the Book-entry Notes is due) in the form of a duly executed and completed statement (the "**Payment Statement in Respect of the Book-entry Notes**") in the form set out as Annex I of this Base Prospectus which shall include the following information:

- Identification of the Book-entry Notes;
- Date on which relevant payment is made;
- Total amount of the income paid by the Issuer;
- Amount of the income corresponding to individuals resident in Spain that are Personal Income Tax payers; and
- Amount of the income that must be paid on a gross basis.

5 The proposed European financial transactions tax

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary' market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under the Commission's Proposal, FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating

Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate and participating Member States may decide not to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

Please note that this is for general information purposes only and is not intended to be nor shall it be deemed to be, or constitute legal advice.

The Spanish financial transactions tax

On 16 October 2020, Act 5/2020 of 15 October 2020 on the Spanish Financial Transactions Tax (the "**Spanish FTT**" and the "**FTT Law**" as appropriate) was approved by the Spanish government and published in the Spanish Official Gazette. The Spanish FTT is levied on acquisitions for consideration of shares in certain Spanish companies. Moreover, the Spanish FTT is based on the so-called principle of issue and raises a 0.2% tax on all purchases of shares issued in Spain by listed companies with over €1,000 million market capitalisation. The tax is payable by investment services firms and credit institutions acting on their own account.

The list of in-scope shares will be published on the Spanish tax authorities' website before 31 December each year. According to the terms of the Spanish FTT Law, this tax should not apply to the acquisition of the Notes.

Perspective holders of the Notes are advised to seek their own professional advice in relation to the Spanish FTT.

Set out below is Annex I. The information has been presented in English only as the language of this Base Prospectus is English. The English has been translated from the original Spanish and such translations constitute direct and accurate translations of the Spanish language text. However, only the Spanish language text of Annex I is recognised under Spanish law. In the event of any discrepancy between the Spanish language version of the certificate contained in Annex I and the corresponding English translation, the Spanish tax authorities will give effect to the Spanish language version of the relevant certificate only.

7 Ratings

As at the date of the Base Prospectus, each of Fitch and S&P has rated the Programme A- (long-term) and F1 (short-term), and A- (long-term) and A-2 (short-term), respectively. The meaning of such ratings are as follows:

Fitch:

A- (long-term): High credit quality. 'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings (The modifiers "+" or "-" may be appended to a rating to denote relative status within major rating categories).

F1 (short-term): Highest Short-Term Credit Quality. Indicates the strongest intrinsic capacity for timely payment of financial commitments; may have an added "+" to denote any exceptionally strong credit feature.

S&P:

A- (long-term): An obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitments on the obligation is still strong (Ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories).

A-2 (short-term): A short-term obligation rated 'A-2' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor's capacity to meet its financial commitments on the obligation is satisfactory.
